TOTO CST604CEFGT40#01

TOTO UltraMax II One-Piece Elongated Toilet Instruction Manual

Model: CST604CEFGT40#01

1. Product Overview

The TOTO UltraMax II WASHLET+ One-Piece Elongated Toilet with CEFIONTECT is designed for modern bathroom environments, offering a combination of efficiency and ease of maintenance. This one-piece toilet integrates seamlessly with T40 WASHLET+ bidet seats, providing a concealed channel for supply lines and power cords.

Key features include the TORNADO FLUSH system for efficient bowl cleaning and CEFIONTECT glaze to prevent particle adhesion, contributing to reduced cleaning frequency. The Universal Height design ensures comfortable use for a wide range of individuals, and the unit is compliant with ADA, EPA WaterSense, CEC, and CALGreen standards.

2. Safety Information

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in property damage or personal injury.

- Ensure all water supply connections are properly sealed to prevent leaks.
- Do not use abrasive cleaners or harsh chemicals on the toilet surface, as this may damage the CEFIONTECT glaze.
- For electrical connections related to a WASHLET+ bidet seat, ensure installation is performed by a qualified electrician and adheres to local codes.
- The toilet is heavy; use proper lifting techniques or seek assistance during installation to avoid injury.

3. Package Contents

The TOTO UltraMax II One-Piece Elongated Toilet package includes:

- TOTO UltraMax II One-Piece Elongated Toilet (Model CST604CEFGT40#01)
- Left-hand chrome trip lever

Note: The following items are required for installation and use and must be purchased separately:

- Wax ring
- Toilet mounting bolts
- Water supply lines
- Compatible SoftClose seat or TOTO T40 WASHLET+ electronic bidet seat

4. Setup and Installation

Installation of the TOTO UltraMax II toilet requires adherence to standard plumbing practices. Due to its one-piece design and specific WASHLET+ integration features, professional installation is recommended.

4.1 Pre-Installation Checks

- Verify that all package contents are present and undamaged.
- Ensure the rough-in dimensions in your bathroom are compatible with the toilet's specifications.
- Confirm availability of necessary tools and separately purchased items.

4.2 Installation Steps (Summary)

For detailed installation instructions, please refer to the dedicated installation guide provided with your product or available on the TOTO website. A summary of key steps includes:

1. Prepare the flange and floor for mounting.
2. Install the wax ring onto the toilet outlet.
3. Carefully position the toilet over the flange and secure it with mounting bolts.
4. Connect the water supply line.
5. Install the toilet seat or T40 WASHLET+ bidet seat, routing its supply line and power cord through the integrated channel.
6. Test for leaks and proper flushing operation.

The one-piece design simplifies cleaning and eliminates potential leak points associated with two-piece toilets.

5. Operating Instructions

5.1 Flushing Mechanism

The UltraMax II features TOTO's TORNADO FLUSH system. To flush, depress the left-hand chrome trip lever. The dual-nozzle, hole-free rim design creates a powerful centrifugal washing action that efficiently cleans the bowl with 1.28 gallons per flush (GPF).

Image 5.1: Illustration of the TORNADO FLUSH system in action, showing the powerful water vortex cleaning the bowl.

5.2 WASHLET+ Integration

This toilet is designed for use with a TOTO T40 WASHLET+ electronic bidet seat. When a compatible WASHLET+ is installed, its functions (e.g., cleansing, drying, seat heating) are controlled via the WASHLET+ remote control. Refer to your WASHLET+ manual for specific operating instructions.

5.3 Auto Flush Compatibility

The UltraMax II is compatible with TOTO Auto Flush systems. If an Auto Flush kit is installed, the toilet will automatically flush after use. Consult the Auto Flush kit's instructions for setup and operation details.

6. Maintenance and Cleaning

6.1 CEFIONTECT Glaze

The toilet bowl features TOTO's CEFIONTECT glaze, an exceptionally smooth surface that helps prevent particles from adhering to the ceramic. This reduces the frequency of cleaning and minimizes the need for harsh chemicals.

6.2 Cleaning Recommendations

- For routine cleaning, use a soft cloth or sponge with a mild, non-abrasive cleaner.
- Avoid cleaners containing bleach, acids, or abrasive particles, as these can damage the CEFIONTECT finish.
- Wipe down the exterior and interior surfaces regularly.
- The one-piece design simplifies cleaning by eliminating the gap between the tank and bowl where dirt and debris can accumulate.

7. Troubleshooting

This section provides general guidance for common issues. For more complex problems, contact TOTO customer support or a qualified plumber.

Problem	Possible Cause	Solution
Toilet does not flush or flushes weakly.	Water supply valve closed; low water pressure; obstruction in trapway.	Open water supply valve; check household water pressure; clear any obstructions.
Continuous running water.	Flapper not sealing properly; fill valve malfunction.	Inspect and adjust flapper; check fill valve for proper operation.
Leaks at base of toilet.	Loose mounting bolts; faulty wax ring; cracked toilet base.	Tighten mounting bolts (do not overtighten); replace wax ring; inspect for damage.

8. Specifications

Feature	Detail
Model Number	CST604CEFGT40#01
Color	Cotton White
Product Dimensions (D x W x H)	28.5" x 15.5" x 30.5"
