FITUEYES 4-Tier AV Media Stand Instruction Manual

Model: B08SJ9TFQ9

1. Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your FITUEYES 4-Tier AV Media Stand. Designed for versatility and durability, this stand offers a modern storage solution for your audio-visual equipment, including record players, HiFi systems, and other media components. Please read these instructions carefully before beginning assembly or use to ensure proper setup and safe operation.

2. Safety Information

- Ensure all components are securely fastened before placing any equipment on the stand.
- Do not exceed the maximum weight capacity of 110 lbs (50 kg) for the top and bottom shelves, and 44 lbs (20 kg) for the middle shelves.
- Place the stand on a level, stable surface to prevent tipping.
- Keep small parts away from children during assembly.
- Avoid exposing the stand to excessive moisture or direct sunlight.

3. Package Contents

Verify that all parts are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Top Shelf (1)
- Middle Shelves (2)
- Bottom Shelf (1)
- Side Frames (2)
- Rear Support Bars (2)
- Adjustable Foot Pads (4)
- Assembly Hardware (Screws, Allen Wrench)
- Cable Management Clip (1)

4. Setup and Assembly

Follow these steps for quick and easy assembly. It is recommended to have a second person assist during certain steps to ensure stability.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a soft, clean surface to prevent scratches.
2. **Attach Foot Pads:** Screw the adjustable foot pads into the bottom of the side frames.
3. **Assemble Frame:** Connect the side frames using the rear support bars. Ensure the holes for the cable management feature on the rear support bars are oriented correctly. Hand-tighten screws initially to avoid cross-threading.
4. **Install Shelves:** Place the top, middle, and bottom shelves into the frame. The middle shelves are height-adjustable; select your desired position. Secure each shelf with the provided screws.
5. **Final Tightening:** Once all components are in place, fully tighten all screws using the Allen wrench.
6. **Cable Management:** Utilize the integrated cable management clip on the rear support bars to organize your wires.

5. Operating Instructions

The FITUEYES AV Media Stand is designed for versatile use in various settings. Here are some tips for optimal operation:

- **Equipment Placement:** Arrange your audio-visual components on the shelves, utilizing the adjustable height feature to accommodate different sizes. The top shelf is ideal for record players or smaller TVs, while lower shelves can hold amplifiers, receivers, game consoles, and other devices.
- **Cable Management:** Use the integrated cable management system at the back of the stand to route and conceal power cords and audio/video cables. This helps maintain a tidy appearance and prevents cable clutter.
- **Ventilation:** Ensure adequate airflow around your electronic devices to prevent overheating. The open design of the stand promotes heat dissipation.
- **Mobility (Optional Casters):** If optional swivel casters are installed (not included with this model but shown in some promotional images), the stand can be easily moved for flexible placement.

6. Maintenance

- **Cleaning:** Wipe the stand with a damp cloth for general cleaning. For stubborn marks, use a mild, non-abrasive cleaner. Dry immediately with a soft, dry cloth.
- **Dusting:** Regularly dust the surfaces to prevent buildup, which can affect electronic equipment.
- **Hardware Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals, abrasive cleaners, or polishes that may damage the finish.

7. Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Stand is wobbly after assembly.	Screws are not fully tightened; uneven floor.	Ensure all screws are securely tightened. Adjust the leveling foot pads on the bottom of the stand to compensate for uneven surfaces.
Equipment does not fit on shelves.	Incorrect shelf height adjustment.	Re-adjust the middle shelves to a different height setting. Refer to the dimensions diagram in Section 4.
Cables are disorganized.	Cable management not utilized.	Route cables through the designated cable management area at the back of the stand. Use cable ties if necessary.
Scratches on surfaces.	Improper handling during assembly or use.	Handle components carefully. Use furniture markers for minor touch-ups if needed.
