Remington PF7320 / F3000

Remington Ultrastyle Rechargeable Foil Shaver

Model: PF7320 / F3000

PRODUCT OVERVIEW

The Remington Ultrastyle Rechargeable Foil Shaver is engineered for consistent, high-performance shaving. It features advanced power for up to 40 minutes of cordless runtime, universal USB charging, and worldwide voltage compatibility. The shaver incorporates Constant Contour technology, allowing its foils to adjust to facial angles for a close shave. Its Quiet Drive Advanced Motor is designed for reduced vibration and noise, enhancing the shaving experience. With 2x flexing foils and surgical steel blades, it delivers consistently close results. A head guard is included for protection during storage and travel.

SETUP AND INITIAL USE

Charging Your Shaver

Before first use, ensure your shaver is fully charged. The Remington Ultrastyle shaver supports universal USB charging. Connect the included USB charging cable to the shaver and a standard 5V DC output USB adapter (wall adapter not included). The LED charging indicator will glow green when charging. A full charge provides up to 40 minutes of cordless runtime. To maintain battery life, it is recommended to allow the battery to fully deplete every six months, then recharge for 24 hours.

UNIVERSAL USB CHARGING and Worldwide Voltage*

*USB charging cable included. Wall adaptor not included. Works with any standard 5V DC output USB adaptor.

The shaver connected via USB for charging, indicated by a green light.

Adapting to Your Skin

For optimal comfort and performance, Remington suggests using your new shaver daily for up to three weeks. This period allows your hair and skin to adjust to the new shaving system, minimizing potential irritation.

OPERATING INSTRUCTIONS

Achieving a Close Shave

For the best shaving results, always hold the shaver at a right angle (90 degrees) to your skin. Apply light pressure and use a circular motion. The shaver's **Constant Contour** feature allows the flexing foils to adapt to the unique angles of your face, ensuring consistent contact and a close shave without irritation. The **2x flexing foils** are designed to capture hair efficiently with each pass.

Quiet Drive Motor

The shaver is equipped with a **Quiet Drive Advanced Motor**, engineered to produce less vibration and noise compared to previous Remington models. This contributes to a more comfortable and pleasant shaving experience.

MAINTENANCE AND CARE

Cleaning Your Shaver

Regular cleaning is essential to maintain the performance and hygiene of your shaver. After each use, gently tap out any loose hair from the foil head. For a more thorough cleaning, remove the foil assembly. Refer to the detailed user manual for specific instructions on how to detach and clean the foil and cutter assembly. Ensure the shaver is dry before reassembling and storing.

Foil and Cutter Replacement

Over time, the foils and cutters may wear down, affecting shaving performance. For optimal results, it is recommended to replace the foil and cutter assembly periodically. Replacement parts can be purchased from authorized Remington retailers or the official Remington website. Always ensure the shaver is turned off and unplugged before attempting to replace any parts.

The included head guard should be used to protect the foils during storage and travel, helping to maintain their durability and sharpness.

TROUBLESHOOTING

If you encounter any issues with your Remington UltraStyle Rechargeable Foil Shaver, please refer to the comprehensive troubleshooting section in the full user manual. Common issues and their solutions are typically covered there. If the problem persists, please contact Remington customer support for assistance.

SPECIFICATIONS
