## SETUP

## 1. SIM Card and SD Card Installation

The DOOGEE S59 Pro supports dual SIM cards and an expandable memory card (up to 256GB, not included). To install, locate the SIM/SD card tray on the side of the device. Use the provided SIM ejector tool to open the tray. Carefully place your SIM card(s) and/or SD card into the designated slots, ensuring correct orientation. Gently push the tray back into the device until it clicks into place.

Image: Close-up of the DOOGEE S59 Pro, illustrating its 10050mAh super capacity battery and 24W Type-C fast charge capability.

## 2. Initial Charging and Power On

Before first use, fully charge the device using the provided adapter and USB Type-C cable. Connect the adapter to a power outlet and the cable to the phone's USB-C port. The charging port is protected by a waterproof cover; ensure it is securely closed after charging to maintain water resistance. Once charged, press and hold the power button on the side of the phone until the DOOGEE logo appears to power on the device.

The 10050mAh battery provides approximately 18 hours of video play, 18 hours of gaming, 50 hours of music play, 47 hours of voice calling, and 768 hours of standby time.

## OPERATING INSTRUCTIONS

---

### Basic Navigation

The DOOGEE S59 Pro runs on Android 10. Navigate the interface using touch gestures. Swipe down from the top of the screen to access quick settings and notifications. Swipe up from the bottom to access the app drawer. The phone supports both 3-button navigation and gesture navigation, which can be configured in the system settings under "Navigation bar" or "System navigation".

### Camera Usage

The device features a Samsung AI Quad Camera system on the rear (16MP main, 8MP wide-angle, 8MP macro, 2MP portrait) and a 16MP front camera. Open the Camera application from the home screen or app drawer. Select your desired mode (Photo, Video, Portrait, etc.) and tap the shutter button to capture images or start/stop recording videos. Utilize the various lenses for different photographic needs.

## Rugged Features

The DOOGEE S59 Pro is built to withstand harsh conditions. It is rated IP68/IP69K for water and dust resistance, meaning it can be submerged in water and is protected against dust ingress. Its robust construction also provides shockproof capabilities, making it suitable for outdoor activities and demanding work environments.

## MAINTENANCE

- **Cleaning:** Use a soft, damp cloth to clean the phone's exterior. Avoid harsh chemicals or abrasive materials. Ensure all port covers are sealed before cleaning with liquids.
- **Battery Care:** To prolong battery life, avoid extreme temperatures. Do not fully discharge the battery regularly. Use only the provided charger and cable.

- **Port Protection:** Always ensure the USB-C charging port cover is securely closed when not in use to maintain water and dust resistance.

# TROUBLESHOOTING

## Common Issues and Solutions

- **Device not powering on:** Ensure the battery is charged. Connect to the charger for at least 15 minutes before attempting to power on again.
- **Charging issues:** Verify the USB-C cable and adapter are correctly connected and undamaged. Ensure the charging port is clean and free of debris.
- **Screen unresponsiveness:** Restart the device. If the issue persists, check for system updates or perform a factory reset (backup data first).
- **SIM/SD card not detected:** Ensure the card is correctly inserted into the tray. Re-insert the tray firmly. Check if the SIM card is active with your carrier.
- **Network connectivity issues:** Check your SIM card's frequency bands against the phone's supported bands (GSM: 2/3/5/8, WCDMA: 1/2/4/5/8, TDD: 34/38/39/40/41, FDD: 1/2/3/4/5/7/8/12/17/19/20/28A/28B). Note that the DOOGEE S59 PRO does not support parts of CDMA network carriers like Verizon Sprint, Xfinity, and TracFone.
