2. PRODUCT CONTENTS

Verify that all items are present in the package:

- 15W Qi Fast Charging Wireless Car Charger
- Mounting Options (Suction Cup for Dashboard/Windshield, Clip for Air Vents)
- Fast Charging Type C Cable

3. KEY FEATURES

- **3-in-1 Car Phone Holder:** Combines wireless car charger and phone mount for versatile use.
- **Super Stable Base:** Equipped with a powerful suction cup and professional 3M adhesive for secure mounting on

dashboards or windshields.

- **Auto-Sensing & Smart Charging:** Automatic clamping mechanism when a phone is detected, and one-touch release buttons.
- **Flexible Angle & Case Friendly:** Retractable and foldable bracket with 360° rotation. Supports charging through phone cases up to 5mm thick.
- **Qi Wireless Fast Charger:** Qi certified, providing up to 15W fast wireless charging for compatible devices.

4. SPECIFICATIONS

Attribute	Detail
Model Number	JR-ZS219
Product Dimensions	1.18 x 1.57 x 3.15 inches
Item Weight	7.9 ounces
Input Voltage	12 Volts
Charging Output	Up to 15W (Qi Fast Charging)
Compatible Phone Size	4.0 - 7.0 inches
Case Compatibility	Supports cases up to 5mm thick (excluding metal, magnets, credit cards, grips, and stands)
Mounting Options	Suction Cup (Dashboard/Windshield), Air Vent Clip
Color	BLACK

5. SETUP AND INSTALLATION

5.1 Choosing a Mounting Option

The JOYROOM Wireless Car Charger offers two primary mounting methods: dashboard/windshield suction cup and air vent clip.

TWO MOUNTING OPTIONS

Mode 1

Air Vent

Mode 2

Dashboard

Image: Illustration showing the two mounting options: air vent and dashboard/windshield.

5.2 Suction Cup Installation (Dashboard/Windshield)

1. **Clean the Surface:** Ensure the dashboard or windshield surface is clean and dry. For dashboard mounting, a smooth, flat surface is recommended. If your dashboard has a textured surface, use the included 3M adhesive pad for better adhesion.
2. **Attach Suction Cup:** Press the suction cup firmly onto the desired clean surface.
3. **Lock the Suction:** Push down the lever on the suction cup base to create a vacuum seal.

4. **Adjust Arm:** Loosen the adjustment knob on the extension arm to extend or retract it, and pivot the ball joint to achieve the desired viewing angle. Tighten the knob to secure the position.
5. **Connect Power:** Plug the provided Type-C cable into the charger and connect the other end to a car charger (not included) or USB port.

Image: Visual guide demonstrating the steps for installing the charger using the suction cup mount.

5.3 Air Vent Clip Installation

1. **Attach Clip:** Screw the air vent clip onto the back of the charger unit.
2. **Secure to Vent:** Insert the clip firmly into one of your car's air conditioning vents. Ensure it is stable and does not wobble.
3. **Adjust Angle:** Use the ball joint to adjust the angle of the charger for optimal viewing.
4. **Connect Power:** Plug the provided Type-C cable into the charger and connect the other end to a car charger (not included) or USB port.

6. OPERATING INSTRUCTIONS

6.1 Automatic Clamping

Once the charger is powered on, simply place your Qi-compatible smartphone into the holder. The side arms will automatically close and secure your phone, initiating wireless charging.

6.2 Releasing Your Phone

To release your phone, gently touch the sensor button located on either side of the charger. The arms will automatically open, allowing you to remove your device.

6.3 Wireless Charging

The charger supports 15W Qi fast wireless charging. Ensure your phone is centered on the charging pad for optimal

performance. An indicator light will confirm charging status.

7. MAINTENANCE

- Keep the charging surface clean and free of dust or debris.
- Periodically clean the suction cup with water and air dry to restore stickiness.
- Avoid exposing the device to extreme temperatures or direct sunlight for prolonged periods.

- Do not use harsh chemicals or abrasive cleaners on the device.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging	Cable not properly connected. Phone not Qi-compatible or misaligned. Phone case too thick or contains metal. Foreign object on charging pad.	Ensure Type-C cable is securely connected to both charger and power source. Reposition phone on the charging pad. Remove phone case or use a compatible one (max 5mm, non-metallic). Remove any objects from the charging surface.
Arms not clamping/releasing automatically	No power to the device. Sensor obstructed.	Check power connection. Ensure nothing is blocking the infrared sensor at the bottom of the holder.
Mount is unstable/falls off	Surface not clean or smooth enough. Suction cup lost adhesion. Air vent clip not secured.	Clean surface thoroughly before re-applying suction cup. Rinse suction cup with water and air dry to restore stickiness. Ensure air vent clip is fully inserted and tightened.

9. SAFETY INFORMATION

- Do not disassemble or modify the device.
- Keep out of reach of children.
- Avoid extreme temperatures, humidity, or corrosive environments.
- Do not place metal objects or magnetic cards between the phone and the charger.
- Ensure the charger is securely mounted before placing a phone.

10. WARRANTY AND SUPPORT

JOYROOM products come with a standard manufacturer's warranty. For detailed warranty information, product support, or technical assistance, please visit the official JOYROOM website or contact their customer service. Refer to your purchase documentation for specific warranty terms and contact details.
