› Side Brush Replacement for iRobot Roomba 900, 800, 700 and 600 Series Instruction Manual

Detetap Roomba 900,800,700 Series

Side Brush Replacement Instruction Manual

FOR IROBOT ROOMBA 900, 800, 700, AND 600 SERIES

Introduction

This manual provides comprehensive instructions for the installation and maintenance of your new side brush replacements. These brushes are essential for your iRobot Roomba vacuum cleaner to effectively sweep debris from edges and corners, ensuring thorough cleaning performance.

Product Features

- **Durable and Long-lasting:** The brush bristles are crafted from high-quality nylon material, with bristles elevated by 20% for enhanced durability. They are designed to withstand regular use and resist shedding from the brush arms.
- **Comes with Screws:** Each side brush is supplied with a screw, eliminating the need for separate purchases and ensuring a hassle-free replacement process.
- **Perfect Fit:** Manufactured precisely to the original size, these brushes offer a perfect fit for the side brush module without any deviation, ensuring optimal performance.

High Quality, More Effective

Installation Guide (Setup)

Replacing the side brush is a simple process that can be done as part of routine maintenance. Follow these steps:

1. Step 1: Loosen the Old Brush

Using a screwdriver, turn counter-clockwise to loosen the screw holding the existing side brush.

2. Step 2: Remove the Old Brush

Gently pull upwards to remove the old side brush from its module.

3. Step 3: Install the New Brush

Align the hexagonal opening of the new brush with the corresponding post on the Roomba's side brush module. Press down firmly to seat it.

4. Step 4: Secure the New Brush

Using the provided screw, turn clockwise with the screwdriver to tighten the new side brush securely.

Ensure it is firmly attached before operation.

Maintenance

To ensure your iRobot Roomba operates at its peak cleaning performance, it is recommended to replace the side brush every 2-3 months, depending on usage frequency and environment. Regular replacement helps maintain effective debris collection and extends the lifespan of your vacuum.

Specifications

Attribute	Detail
Product Dimensions	2.54 x 2.54 x 2.54 cm (approx. 1 x 1 x 1 inch)
Weight	40 g (approx. 0.09 lbs)
