SETUP AND INSTALLATION

1. **Power Off:** Before installation, ensure the power to the light fixture is turned off at the switch and the circuit breaker.
2. **Remove Old Bulb:** Carefully unscrew the existing bulb from the fixture. Allow it to cool if it was recently in use.
3. **Install New Bulb:** Gently screw the GE LED Reflector Bulb into the fixture's E26 medium base socket. Do not overtighten.
4. **Restore Power:** Turn the power back on at the circuit breaker and then at the light switch.

This bulb is designed for standard E26 medium base sockets. Ensure the fixture is compatible with the bulb's size and wattage.

OPERATING INSTRUCTIONS

The GE LED Reflector Bulb provides a cool, bluish-white daylight light with a color temperature of 5000 Kelvin. It is

designed to be dimmable and works with most dimmer switches, allowing you to adjust the light intensity to your preference.

- **Dimmable Functionality:** If connected to a compatible dimmer switch, rotate or slide the dimmer control to adjust the brightness level.
- **Instant On:** The bulb provides instant full brightness with no warm-up time.

Light that's just right.

Light has the ability to do more than just light a room – it can influence the mood and atmosphere of the surrounding space, and it can affect how we work and live. High definition light is tailored for every room to match the right light to the right space.

refresh

REFRESH HD light offers a cool, invigorating light perfect for energizing moments and active spaces.

Use REFRESH light in playrooms, home offices and laundry rooms.

Other high definition light:

reveal®

REVEAL® is our best light. Use REVEAL bulb's clean, beautiful light* to see vivid colors and vibrant whites in high definition. Illuminate your home with REVEAL light where clarity matters most, especially kitchens, bathrooms and craft & hobby spaces.

relax

RELAX HD light provides cozy, soft white light for bedrooms, family rooms, dining rooms and entryways.

MAINTENANCE

GE LED bulbs are designed for long-lasting performance and require minimal maintenance.

- **Cleaning:** Ensure the power is off before cleaning. Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Replacement:** Replace the bulb when it reaches the end of its operational life. Ensure power is off before replacing.

TROUBLESHOOTING

- **Bulb Not Lighting Up:**

- Check if the power switch is on.
 - Ensure the bulb is screwed in securely.
 - Verify that the circuit breaker for the fixture is not tripped.
 - Test the bulb in another working fixture to confirm it is not faulty.
- **Flickering or Dimming Issues:**
 - Ensure the dimmer switch is compatible with LED bulbs. Incompatible dimmers can cause flickering.
 - Check for loose connections in the fixture or wiring.
