1. Insert one Official Nerf Elite 2.0 foam dart into each of the 8 barrels. Ensure darts are fully seated.

2. Priming the Blaster

To prime the blaster for firing, pull down the priming handle located beneath the trigger. Release the handle once it is fully extended to prepare the blaster.

2. Flipping Barrels

MAINTENANCE

To ensure the longevity and optimal performance of your Nerf Flip-8 Blaster, follow these maintenance tips:

- **Cleaning:** Wipe the blaster with a dry, soft cloth to remove dust and debris. Do not use water or cleaning solutions, as this may damage the internal mechanisms.
- **Dart Care:** Store darts in a clean, dry place. Avoid bending or crushing darts, as this can affect their flight performance and potentially jam the blaster.
- **Storage:** Store the blaster in a cool, dry environment away from direct sunlight and extreme temperatures.
