emagine A Himalayan Salt Lamp Diffuser, Ultrasonic Humidifier with Cool Mist and Aromatherapy (Model CO61A) - User Manual

Model: CO61A | Brand: emagine A

PRODUCT OVERVIEW

The emagine A Himalayan Salt Lamp Diffuser combines the benefits of an ultrasonic humidifier, an aromatherapy diffuser, and a Himalayan salt lamp into one device. It is designed to enhance your environment with cool mist, essential oil diffusion, and the warm glow of natural Himalayan salt rocks.

Key Features

- All-in-One Aromatherapy Device: Combines design and function for relaxation.
- Stronger Mist: Suitable for larger rooms and improved aroma dispersion.
- Real Himalayan Salt: Heated to provide a warm glow and emit negative ions for air quality improvement.
- Sleep-Friendly Low Blue Light: Uses an incandescent lamp to heat the large salt rocks.
- Auto Shut Down: Automatically shuts down when the water level is low.
- 3 Timer Settings: Options for 2 hours, 4 hours, or 6 hours of operation.
- 3 Diffuser Settings: OFF, LOW, HIGH mist output.
- 3 Brightness Levels: OFF, LOW, HIGH for the salt lamp.
- 110V wall power adapter included.

What's Included

The package includes the main diffuser unit, the top cover, a water tank lid, a power adapter, a container of Himalayan salt rocks, and a small spatula for handling the salt rocks.

WHAT'S INCLUDED

Image: All components included with the emagine A Himalayan Salt Lamp Diffuser.

SETUP INSTRUCTIONS

Unpacking and Initial Placement

Carefully remove all components from the packaging. Place the diffuser on a stable, flat surface away from direct sunlight or heat sources. Ensure the power adapter is within reach of an electrical outlet.

Assembling the Diffuser

1. Place the Himalayan salt rocks into the clear tray at the base of the diffuser.
2. Remove the top cover of the diffuser.
3. Fill the water tank with clean tap water up to the indicated MAX fill line. Do not overfill.
4. Add a few drops of your preferred essential oil directly into the water tank.
5. Replace the top cover securely.
6. Plug the 110V wall power adapter into the diffuser and then into a power outlet.

Visual Setup Guide

Video: Official emagine A video demonstrating the setup and basic operation of the Himalayan Salt Lamp Diffuser.

OPERATING INSTRUCTIONS

The diffuser features intuitive touch controls for mist, timer, and light functions.

Power On/Off

- To turn the diffuser ON, press the power button once.
- To turn the diffuser OFF, press and hold the power button.

Mist Settings

- Press the Mist button once for LOW mist output.
- Press the Mist button a second time for HIGH mist output.
- Press the Mist button a third time to turn the mist OFF.

Timer Settings

- Press the Timer button to cycle through the available settings: 2 hours, 4 hours, 6 hours.
- The diffuser will automatically shut off after the selected time duration.

Salt Lamp Brightness Settings

- Press the Light button once for LOW brightness.
- Press the Light button a second time for HIGH brightness.
- Press the Light button a third time to turn the salt lamp OFF.

MAINTENANCE

Cleaning the Diffuser

Regular cleaning is essential for optimal performance and longevity of your diffuser. It is recommended to clean the water chamber and internal components weekly.

1. Unplug the diffuser from the power outlet.
2. Remove the top cover and empty any remaining water from the tank.

3. Gently wipe the inside of the water tank with a soft cloth or sponge. For thorough cleaning, some users recommend boiling water and rinsing it through the inside hood and water chamber.
4. Ensure all parts are dry before reassembling.

Salt Rock Care

The Himalayan salt rocks do not require frequent cleaning. If they appear dusty, gently wipe them with a dry cloth. Avoid using water directly on the salt rocks as they are hygroscopic and can dissolve.

TROUBLESHOOTING

- **No Mist/Power:** Ensure the power adapter is securely plugged into both the diffuser and a working electrical outlet. Check the water level; the unit has an auto shut-down feature when water is low.
- **Light Not Working:** If the salt lamp light is not functioning, check the brightness settings. If the incandescent bulb is burned out, a replacement may be needed. Contact customer support for bulb replacement information.
- **Unusual Odor:** If an unusual odor is detected, clean the water tank thoroughly and replace with fresh water. Ensure only recommended essential oils are used.
- **Reduced Mist Output:** Clean the ultrasonic plate at the bottom of the water tank. Mineral buildup can reduce mist output.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	emagine A
Model Name	Salt Lamp Diffuser
Item Model Number	CO61A
Capacity	500 Milliliters
Power Source	110V, Power Adapter
Wattage	12 watts
Special Feature	Automatic Shut-Off, Cool Mist
Material	Himalayan Salt
Product Dimensions	6.2"L x 6.2"W x 10"H
Item Weight	2.7 pounds
Light Source Type	Incandescent
Coverage	Large room
