PawHut D02-052

PawHut Heavy Duty Folding Dog Crate

Model: D02-052

1. Introduction and Safety Information

Thank you for choosing the PawHut Heavy Duty Folding Dog Crate. This manual provides essential instructions for the safe assembly, operation, maintenance, and troubleshooting of your new dog crate. Please read this manual thoroughly before use and retain it for future reference.

Important Safety Warnings:

- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
- Always ensure all locks are securely fastened when your pet is inside the crate.
- Do not leave young children unsupervised near the crate.
- Ensure the crate is placed on a stable, level surface.
- Regularly inspect the crate for any damaged or loose parts. Discontinue use if damage is found.
- This crate is designed for indoor use.
- Ensure the crate size is appropriate for your dog's breed and size to allow comfortable standing, turning, and lying down.

2. Package Contents

Please check that all components are present before beginning assembly:

- Pre-assembled Folding Crate Frame (with front door and top panel)
- Removable Plastic Tray
- Bottom Wire Mesh Support
- 4 x Lockable Wheels

3. Setup and Assembly

This crate features a simple, tool-free assembly process. It arrives largely pre-assembled in a folded state.

1. **Unfold the Crate:** Carefully lift the folded crate from its packaging. The main frame (four walls and top) is connected. Gently pull the sides apart until the crate forms its rectangular shape.
2. **Secure the Frame:** Ensure all side panels are properly aligned and secured into their upright position. Some models may have clips or latches to secure the corners.
3. **Insert Bottom Wire Mesh:** Place the wire mesh support at the bottom of the crate. This provides stability for the structure and support for the tray.
4. **Insert Plastic Tray:** Slide the removable plastic tray into the designated slot above the bottom wire mesh. Ensure it sits flat and securely.
5. **Attach Wheels:** Turn the crate upside down. Insert each of the four lockable wheels into the designated holes at the bottom corners of the crate. Push firmly until they click into place. Ensure they are securely attached before turning the crate upright.

Image 3.2: The crate features a foldable design for convenient transport and storage when not in use.

4. Operating Instructions

4.1 Accessing the Crate

- **Front Door:** The crate features a large front door equipped with two security locks. To open, slide the latches upwards and then pull the door open. To close, push the door shut and slide both latches downwards until they are fully engaged.
- **Top Panel:** The top panel of the crate can also be opened for easy access to your pet or for cleaning. Unlatch the clips on the top panel and lift it upwards. Ensure it is securely closed and latched when not in use.

4.2 Mobility and Stability

- **Moving the Crate:** The crate is equipped with four high-quality rolling wheels for easy movement. To move the crate, ensure all wheel brakes are disengaged (lift the lever up).
- **Securing the Crate:** To keep the crate stationary, engage the brakes on all four wheels by pressing the lever down firmly until it locks. This prevents accidental movement.

5. Maintenance and Cleaning

Regular cleaning and maintenance will extend the life of your PawHut dog crate.

- **Removable Tray:** The plastic tray can be easily slid out for cleaning. Wash with mild soap and water, then rinse thoroughly and dry before returning it to the crate.
- **Metal Frame:** Wipe down the metal frame with a damp cloth and mild detergent as needed. Avoid abrasive cleaners that could damage the finish. Dry thoroughly to prevent rust.
- **Wheels:** Periodically check the wheels for any accumulated debris (hair, dirt) that might hinder their movement or brake function. Clean as necessary.
- **Inspection:** Regularly inspect all welds, latches, and moving parts for wear or damage. Tighten any loose screws if applicable.

6. Troubleshooting

- **Door Latch Sticking/Misaligning:** If a latch is difficult to operate or doesn't align perfectly, gently check for any obstructions in the latch mechanism or the receiving slot. Ensure the crate frame is not warped or unevenly assembled. A small amount of silicone spray (avoiding contact with pet) can sometimes help smooth movement.
- **Wheels Not Rolling Smoothly:** Check for hair or debris wrapped around the wheel axles. Clean thoroughly. Ensure the wheel brakes are fully disengaged.
- **Crate Wobbles:** Ensure the crate is on a flat, level surface. Verify that all four wheels are properly installed and making contact with the ground. Check that the frame is fully unfolded and secured at all connection points.

7. Specifications

Model Number	D02-052
Product Dimensions (L x W x H)	14.57" x 8.96" x 10.73" (Note: This appears to be package dimensions, actual product is 37" long as per title)
Material	Metal, Polypropylene
Color	Dark Grey
Item Weight	36.3 pounds
Gap Size	1.25 inches
Number of Doors	1 (Front) + 1 (Top Panel)
Recommended Dog Breed Size	Medium (e.g., Border Collie, Bull Terrier, Beagle)
Additional Features	Collapsible, Easy To Clean, Lockable, Portable, Secure

Note: Product dimensions provided in specifications may refer to packaging. Please refer to product listing for full assembled dimensions.
