SelfieShow LDP-L05

SelfieShow 61-inch Extendable Selfie Stick Tripod

MODEL: LDP-L05 - USER MANUAL

Introduction

This manual provides comprehensive instructions for the safe and effective use of your SelfieShow 61-inch Extendable Selfie Stick Tripod, Model LDP-L05. Please read this manual thoroughly before operating the device and retain it for future reference.

What's Included

The package contains the following items:

- 1x Tripod Selfie Stick
- 1x Universal Phone Holder
- 1x GoPro Adapter
- 1x Wireless Remote Shutter

SelfieShow provides a 1-year hassle-free warranty and 24-hour friendly customer service for this product.

Product Overview

The SelfieShow LDP-L05 is a versatile accessory designed for capturing photos and videos with enhanced stability and flexibility. It functions as both an extendable selfie stick and a stable tripod.

Figure 1: SelfieShow 61-inch Selfie Stick Tripod in various configurations.

Key Components and Features:

- **Selfie Stick Tripod Combo:** The device integrates a phone holder and a camera quick release plate. The phone clip is adjustable to accommodate devices between 6.5-10cm. A standard 1/4-inch screw allows for camera mounting.

Figure 2: Detailed view of the tripod's components and features.

- **Extendable Length:** The stick extends from 13.2 inches to 61.4 inches, offering a longer reach than standard models for wider shots and group photos.

Multiple Height Adjustable

Figure 3: The tripod's adjustable height settings.

- **Adjustable Rotation:** Features a 225° neck rotation and a 360° head rotation, allowing for flexible angle adjustments for optimal shooting.

360° Panoramic Shooting

Figure 4: Illustrates the 360° panoramic shooting feature.

Swivel Panning Head

Figure 5: Demonstrates the swivel panning head's range of motion.

- **Wireless Remote Shutter:** A pocket-sized wireless remote control enables easy photo and video capture from up to 30 feet away. It offers fast response and stable connection, compatible with most smartphones without requiring app downloads.

Wireless Remote Control

✓ Android 4.4 + ✓ iOS 5.1 +

Figure 6: The wireless remote control in use.

- **Wide Compatibility:** The universal phone holder fits most smartphones (with or without a case) and is compatible with various iPhone and Android models. The 1/4-inch screw allows mounting of digital cameras, DSLRs, SLRs, action cameras (like GoPro), webcams, and camcorders.

Compatible With Multiple Devices

Phone & Camera & Gopro & Ring Light

Setup Instructions

1. Unfolding the Tripod:

1. Hold the handle firmly.
2. Gently pull the bottom part of the handle downwards to release the tripod legs.
3. Spread the three legs outwards until they form a stable base.

2. Attaching Your Device:

1. **For Smartphones:** Extend the universal phone holder to fit your smartphone securely. Ensure the phone is centered and stable within the holder.
2. **For Cameras/GoPro:** If using a camera or GoPro, remove the phone holder (if attached) and screw your device onto the 1/4-inch screw mount. Ensure it is tightened securely.

3. Pairing the Wireless Remote Shutter:

1. Locate the wireless remote shutter, typically integrated into the handle. Slide it out to detach.
2. Turn on the remote by pressing and holding the power button until an indicator light (usually blue) flashes.
3. On your smartphone, go to Bluetooth settings and search for available devices.
4. Select the device named "Selfie" or similar (refer to remote for exact name) to pair. The indicator light

will stop flashing once successfully paired.

5. The remote is now ready to use for capturing photos and videos.

Operating Instructions

1. Using as a Selfie Stick:

1. Ensure the tripod legs are folded and secured within the handle.
2. Extend the aluminum alloy rod to your desired length.
3. Adjust the phone holder or camera to the desired angle using the 225° neck rotation and 360° head rotation.
4. Use the wireless remote shutter to capture photos or start/stop video recording.

2. Using as a Tripod:

1. Unfold the tripod legs as described in the Setup section, ensuring a stable base on a flat surface.
2. Extend the rod to the required height.
3. Position your device using the adjustable head for optimal framing.
4. Utilize the wireless remote shutter for hands-free operation.

Maintenance

- Clean the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store the tripod in a cool, dry place away from direct sunlight and extreme temperatures.
- Ensure all screws and connections are tightened before each use to maintain stability.
- If the remote control battery needs replacement, refer to the remote's specific instructions for battery type and replacement procedure.

Troubleshooting

Remote Control Not Connecting:

- Ensure the remote is charged or has a fresh battery.
- Verify Bluetooth is enabled on your smartphone.
- Make sure the remote is within the 30-foot operating range.

- Try unpairing and re-pairing the remote in your phone's Bluetooth settings.

Tripod Instability:

- Ensure the tripod legs are fully extended and locked into position on a flat, stable surface.
- Check that your device is securely mounted and balanced on the holder.
- Avoid extending the rod to its maximum length in windy conditions or on uneven terrain.

Phone Holder Not Gripping Securely:

- Ensure your phone's dimensions are within the specified range (6.5-10cm).
- Check for any obstructions or debris in the phone holder's grip pads.

Specifications

Feature	Detail
Product Dimensions	2.95 x 1.48 x 13.23 inches
