## HFT 46 In. 9-Drawer Mobile Storage Cabinet With Solid Wood Top

# Instruction Manual for 46 In. 9-Drawer Mobile Storage Cabinet With Solid Wood Top

Model: 46 In. 9-Drawer Mobile Storage Cabinet With Solid Wood Top

## PRODUCT OVERVIEW

The HFT 46-inch 9-Drawer Mobile Storage Cabinet with Solid Wood Top is designed for efficient organization and storage of tools and equipment. Featuring a durable steel construction, a robust solid wood top, and smooth ball-bearing drawer slides, this mobile workbench provides a versatile and reliable workspace for various applications. Its mobile design, equipped with sturdy casters and handles, allows for easy relocation within your workspace.

## IMPORTANT SAFETY INFORMATION

**Always use caution when opening and closing the cabinet doors to avoid injury. Keep the cabinet away from heat sources and do not overload the shelves to prevent tipping. Always use the key to lock and unlock the cabinet to prevent accidental injury.**

## SETUP AND ASSEMBLY

This mobile storage cabinet requires some assembly. Please ensure all components are present before beginning. It is recommended to have a second person assist with assembly due to the weight of the unit.

### Components Checklist:

- Main Cabinet Body
- Solid Wood Top
- Casters (4x)
- Side Handle (1x)
- Mounting Hardware (bolts, washers, nuts)
- Keys (2x)

### Assembly Steps:

1. Carefully unbox all components and lay them out on a clean, flat surface.
2. Attach the four casters to the bottom of the cabinet body using the provided bolts and nuts. Ensure they are securely tightened. Two of the casters may be locking casters; install these on the same side for easier access.
3. Attach the side handle to the designated mounting points on one side of the cabinet using the provided hardware.
4. Carefully place the solid wood top onto the cabinet frame. Ensure it is properly aligned. Secure the wood top to the cabinet frame using the pre-drilled holes and appropriate fasteners (if provided, otherwise it may rest on the frame).
5. Test all drawers to ensure they slide smoothly.
6. Insert the key into the lock and test the locking mechanism.

## OPERATING INSTRUCTIONS

---

### Drawer Operation:

The cabinet features nine drawers equipped with ball-bearing drawer slides for smooth and effortless opening and closing. To open a drawer, gently pull the handle. To close, push the drawer firmly until it is fully seated. Avoid slamming drawers to prolong the life of the slides.

Figure 3: A top drawer of the cabinet shown open, demonstrating the smooth operation of the ball-bearing slides.

### **Locking Mechanism:**

The cabinet is equipped with a key lock to secure your tools and contents. Insert the key into the lock cylinder located on the top right side of the cabinet. Turn the key clockwise to lock all drawers simultaneously. Turn counter-clockwise to unlock. Always remove the key after locking or unlocking.

### **Mobility:**

With its heavy-duty casters and sturdy side handle, the cabinet can be easily moved. To move the cabinet, unlock any locking casters, grasp the side handle, and push or pull the unit to your desired location. Once in place, engage the locking casters to prevent unintended movement.

Figure 4: The mobile storage cabinet positioned in a garage, illustrating its practical application in a workshop environment.

## MAINTENANCE

---

- **Cleaning:** Wipe down the metal surfaces with a damp cloth and mild detergent. Dry thoroughly. For the solid wood top, use a wood-safe cleaner and avoid excessive moisture.
- **Rust Prevention:** The cabinet features a rust-resistant finish. However, to maintain its appearance and integrity, avoid prolonged exposure to moisture or harsh chemicals.
- **Drawer Slides:** Periodically inspect the ball-bearing drawer slides for smooth operation. If they become stiff, apply a small amount of silicone lubricant to the slide mechanisms.
- **Casters:** Check casters regularly for debris accumulation and ensure they rotate freely. Clean as needed.
- **Hardware:** Periodically check all bolts and fasteners for tightness and re-tighten if necessary.

## TROUBLESHOOTING

---

### Drawers are Sticking or Difficult to Open/Close:

- Check if the drawer is overloaded. Reduce the weight if necessary.
- Inspect the ball-bearing slides for any obstructions or damage.
- Apply silicone lubricant to the drawer slides.
- Ensure the cabinet is on a level surface.

### Cabinet is Wobbly:

- Verify that all casters are securely tightened.
- Ensure the cabinet is placed on a flat, level surface.
- Check if the solid wood top is securely fastened to the cabinet body.

### Lock Not Engaging/Disengaging:

- Ensure all drawers are fully closed before attempting to lock.
- Check if the key is fully inserted and turned correctly.
- Do not force the key or lock mechanism.
