Namco Pac-Man Air Hockey Table Game

Instruction Manual

INTRODUCTION

Welcome to the world of arcade fun with your new Namco Pac-Man Air Hockey Table Game. This full-sized table combines the classic excitement of air hockey with the iconic Pac-Man theme, featuring vibrant LED lighting and authentic sound effects. Designed for durability and endless entertainment, this manual will guide you through the setup, operation, and maintenance of your new game table.

SETUP

Unpacking and Assembly

The Namco Pac-Man Air Hockey Table requires assembly. Carefully unpack all components from the packaging. It is recommended to have at least two adults for assembly due to the table's weight (approximately 500 pounds) and dimensions. Follow the included assembly instructions provided in the separate assembly guide for detailed steps on attaching legs, connecting electrical components, and securing the playfield.

Figure 1: Product Dimensions. The table measures 85 inches in length, 46 inches in width, and 32 inches in height, providing a full-sized playing experience.

Placement

Choose a level, stable surface for the table. Ensure there is ample space around the table for players to move freely during gameplay. Connect the power cord to a standard electrical outlet. The table's LED lighting will illuminate upon power connection.

OPERATING INSTRUCTIONS

Starting a Game

To begin a game, locate the yellow start button on the side of the table. Pressing this button will initiate the game timer and reset the scores to zero. Pucks will be dispensed from the side compartments for each player.

Figure 2: Pac-Man Air Hockey Table in operation, showcasing the illuminated playfield and vibrant design.

Gameplay

The table is designed for two players. Use the provided mallets to strike the puck across the illuminated playfield, aiming for your opponent's goal. The table features automatic scorekeeping, with digital displays for each player's score and a game timer. Pac-Man sound effects will activate when the puck hits the sides of the table or a goal is scored.

Timed Games

Games are timed, ensuring fair and competitive play, especially for larger groups. When the timer expires, the game will automatically end, and the player with the highest score will be declared the winner. This feature allows for quick player rotation and continuous fun.

MAINTENANCE

Cleaning

Regular cleaning will help maintain the table's performance and appearance. Use a soft, damp cloth to wipe down the playfield and exterior surfaces. Avoid abrasive cleaners or solvents that could damage the finish or electronic components. Ensure the air holes on the playfield are clear of debris to maintain optimal airflow.

Storage

If storing the table for an extended period, ensure it is in a dry, temperature-controlled environment to prevent damage from humidity or extreme temperatures. Cover the table to protect it from dust and scratches.

TROUBLESHOOTING

No Airflow

If the playfield does not have sufficient airflow, check that the power cord is securely plugged in and the table

is receiving power. Inspect the air holes on the playfield for any obstructions and gently clear them if necessary. Ensure the fan motor is not obstructed.

Scoring Issues

If the automatic scorekeeping is inaccurate, ensure that the puck is fully entering the goal slot. Check for any debris or obstructions within the goal area that might interfere with the sensor. If issues persist, consult the manufacturer's support.

Lights Not Working

Verify that the table is powered on. If specific LED lights are not functioning, it may indicate a loose connection or a faulty LED strip. Contact customer support for assistance.

SPECIFICATIONS

Feature	Detail
Brand	Namco
Model Number	AH01-19100-00
Color	Blue, Red
Material	Metals (steel, aluminum), Plastic, Polymer (melamine), Engineered Wood (Top)
