2. SAFETY INFORMATION

- **Indoor Use Only:** This smart bulb is designed for indoor use in dry locations.
- **Voltage:** Ensure your electrical system is compatible with 120 Volts.
- **No Dimmer Switches:** Do NOT use this smart bulb with traditional dimmer switches. It is dimmable via the app or voice control only.
- **Not for Refrigerators:** Do NOT use this smart bulb in refrigerators.
- **Proper Installation:** Always turn off power at the main circuit breaker before installing or removing the bulb.
- **Bulb Size:** The A15 LED bulb size is 3.07*1.75 inches. Please verify compatibility with your fixture before installation.
- **Wi-Fi Requirement:** Operates on 2.4 GHz Wi-Fi networks only. 5 GHz networks are not supported.

3. PACKAGE CONTENTS

- LEDEPLY A15 LED Smart Bulb(s) (Quantity as per pack purchased, e.g., 3 bulbs for a 3-pack)
- User Manual (this document)

A15 WIFI Smart Bulb

Please confirm your lighting fixture is suitable our A15 smart bulb

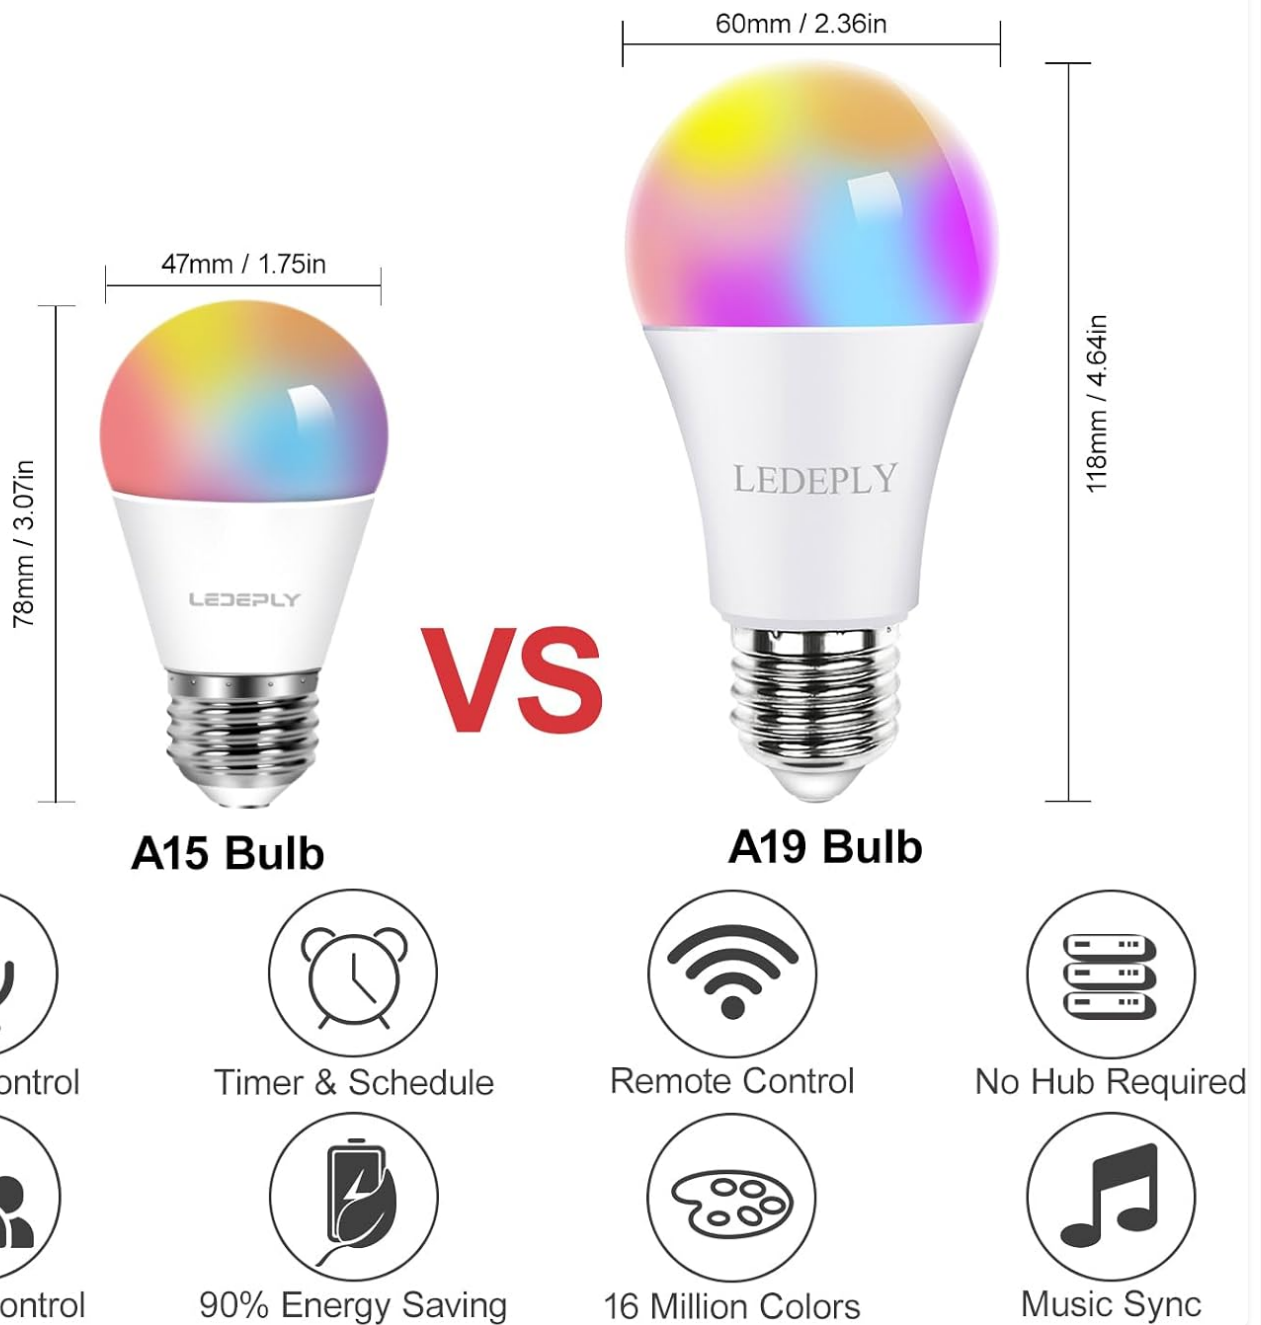

Image: A visual comparison of the A15 bulb size with a standard A19 bulb, along with a summary of the smart bulb's features.

5. SETUP

5.1 Physical Installation

1. **Power Off:** Before installation, ensure the power to the light fixture is turned off at the main circuit breaker.
2. **Screw In Bulb:** Carefully screw the LEDEPLY A15 Smart Bulb into a standard E26 light socket. Do not overtighten.
3. **Power On:** Restore power to the light fixture. The bulb should blink, indicating it is in pairing mode.

5.2 Smart Life App Installation & Pairing

1. **Download App:** Download the "Smart Life" app from the App Store (iOS) or Google Play Store (Android).
2. **Register/Login:** Open the app and register a new account or log in with an existing one.

3. **Add Device:** Tap the "+" icon in the top right corner or "Add Device".
4. **Select Lighting:** Choose "Lighting" or "Light Source (Wi-Fi)" from the device list.
5. **Confirm Blinking:** Confirm that the bulb is rapidly blinking. If not, turn the bulb off and on 3 times (on-off-on-off-on) to reset it to pairing mode.
6. **Enter Wi-Fi Details:** Enter your 2.4 GHz Wi-Fi network name and password. Ensure your phone is connected to the same 2.4 GHz network.
7. **Pairing:** The app will begin connecting to the bulb. Once connected, you can rename the bulb for easier control.

Your browser does not support the video tag.

5.3 Voice Assistant Integration (Alexa/Google Home)

1. **Link Smart Life Account:** In your Alexa or Google Home app, navigate to the "Skills" or "Works with Google" section. Search for "Smart Life" and enable the skill/service.
2. **Authorize:** Log in with your Smart Life account credentials to link the accounts.
3. **Discover Devices:** Once linked, ask your voice assistant to "Discover devices" or manually initiate device discovery in the app.
4. **Control:** You can now control your smart bulb using voice commands (e.g., "Alexa, turn on the living room light," "Hey Google, set the kitchen light to blue").

6. OPERATING INSTRUCTIONS

6.1 Color & Brightness Control

- **16 Million Colors:** In the Smart Life app, select your bulb and navigate to the "Color" tab to choose from 16 million colors.
- **Tunable White:** Switch to the "White" tab to adjust the white light from warm white (2700K) to daylight white (6500K).
- **Dimmable:** Use the brightness slider (1% to 100%) in both "Color" and "White" modes to adjust the light intensity.

Image: Shows a living room bathed in colorful light, controlled by the Smart Life app's color selection interface.

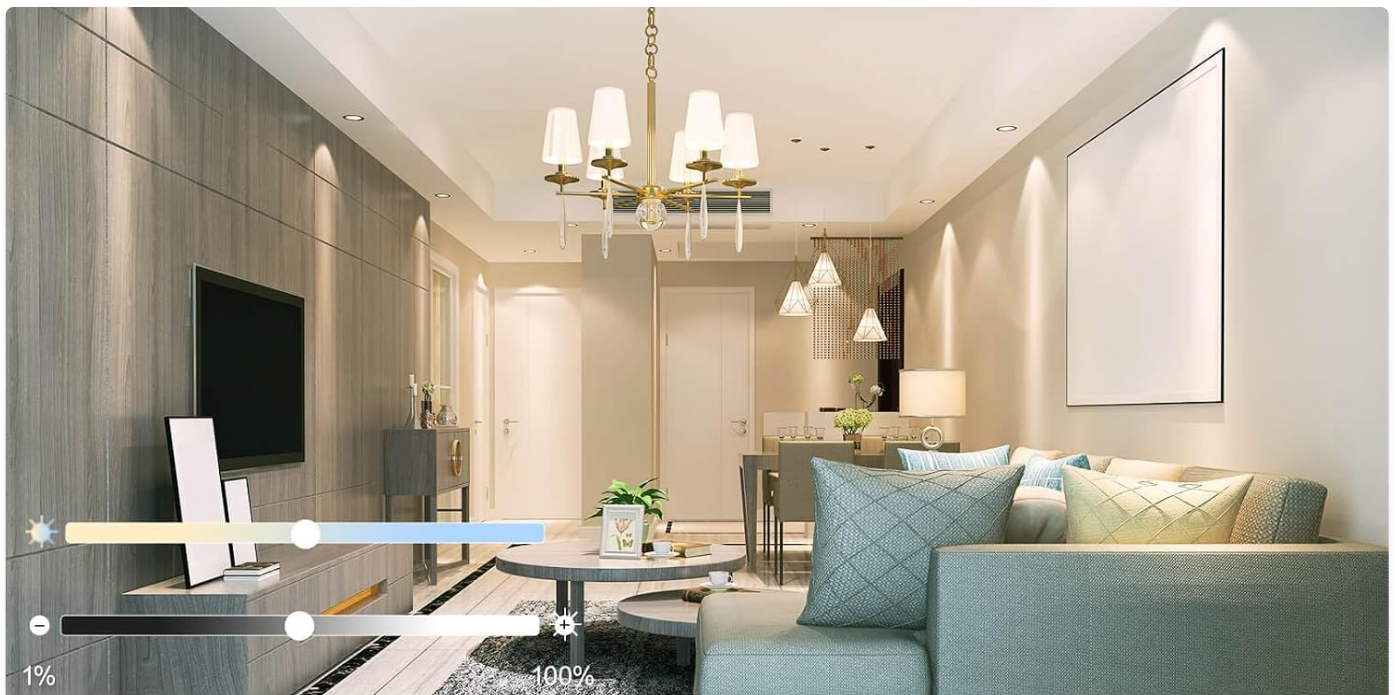

Image: Demonstrates the bulb's ability to adjust both brightness (from 1% to 100%) and color, transitioning from white light to vibrant hues.

6.2 Scene Modes

The Smart Life app includes 8 pre-set scene modes (e.g., reading, relaxation, party, automatic color ambiance) to instantly set the mood for different activities. Select the "Scene" tab in the app to choose your desired mode.

6.3 Music Sync

Activate the "Music" section in the Smart Life app. The smart bulbs will change colors in rhythm with your music, creating a dynamic and immersive lighting experience. This feature is ideal for parties or creating a vibrant atmosphere.

6.4 Timer & Schedule

Set custom timers and schedules to automatically turn your lights on or off at specific times. This feature allows you to automate your lighting, ensuring lights are on when you arrive home or off when you leave, contributing to energy saving.

Image: Demonstrates the timer and scheduling feature, allowing users to set automatic on/off times for the smart bulbs.

6.5 Group Control & Share Access

- **Group Control:** Create groups of multiple smart bulbs within the Smart Life app to control them simultaneously. This allows for synchronized color changes and dimming across an entire room or area.
- **Share Access:** Share control of your smart bulbs with family members or other users through the app, allowing multiple people to manage the lighting.

Remote Control & Group Control

Image: A visual representation of how multiple smart bulbs can be controlled as a group within a home using the Smart Life app.

7. MAINTENANCE

- **Cleaning:** Ensure the bulb is off and cool before cleaning. Wipe with a soft, dry cloth. Do not use liquid cleaners.
- **Storage:** If storing the bulb for an extended period, keep it in a cool, dry place away from direct sunlight.
- **Firmware Updates:** Periodically check the Smart Life app for any available firmware updates for your bulbs to ensure optimal performance and security.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bulb not pairing/blinking	Not in pairing mode; Wi-Fi issue	Turn the bulb off and on 3 times (on-off-on-off-on) to reset. Ensure your Wi-Fi is 2.4 GHz.
Cannot connect to Wi-Fi	Incorrect Wi-Fi band; weak signal; wrong password	Confirm your router is broadcasting 2.4 GHz Wi-Fi. Move closer to the router. Double-check Wi-Fi password.
Voice control not working	Smart Life skill/service not linked or enabled	Ensure Smart Life skill is enabled and linked in your Alexa/Google Home app. Re-discover devices.
Bulb unresponsive	Power interruption; app glitch	Turn the light switch off and on. Restart the Smart Life app. If issues persist, try re-pairing the bulb.
Flickering or inconsistent light	Used with a dimmer switch; unstable power supply	Remove from any dimmer switch. Ensure stable power.

9. WARRANTY AND SUPPORT

LEDEPLY is committed to providing high-quality products and customer satisfaction. If you encounter any issues or have questions regarding your A15 LED Smart Bulb, please do not hesitate to contact our customer support team. We aim to reply to your email within 12 hours.

For support, please refer to the contact information provided with your product packaging or visit the official LEDEPLY website.
