## SETUP

---

### 1. Initial Charging

Before first use, ensure your earbuds and charging case are fully charged.

1. Place both earbuds into the charging case.
2. Connect the USB charging cable to the charging port on the case and to a power source.
3. Charge for approximately **2 hours**. The indicator lights on the case will show charging status and turn off or change color when fully charged.

### 2. Bluetooth Pairing

Pair your earbuds with your smartphone or other Bluetooth-enabled device.

1. Ensure the earbuds are charged and inside the charging case.
2. Open the charging case. The earbuds will automatically enter pairing mode.
3. On your device, go to Bluetooth settings and turn Bluetooth on.
4. Search for "FLINQ Alume" or a similar name in the list of available devices and select it to connect.
5. Once connected, you will hear a confirmation tone. The earbuds will automatically pair with your device in

subsequent uses when taken out of the case.

## OPERATING INSTRUCTIONS

### Wearing the Earbuds

Choose the correct size of silicone ear tips for a comfortable and secure fit. Insert the earbuds into your ears and gently twist until they are snug.

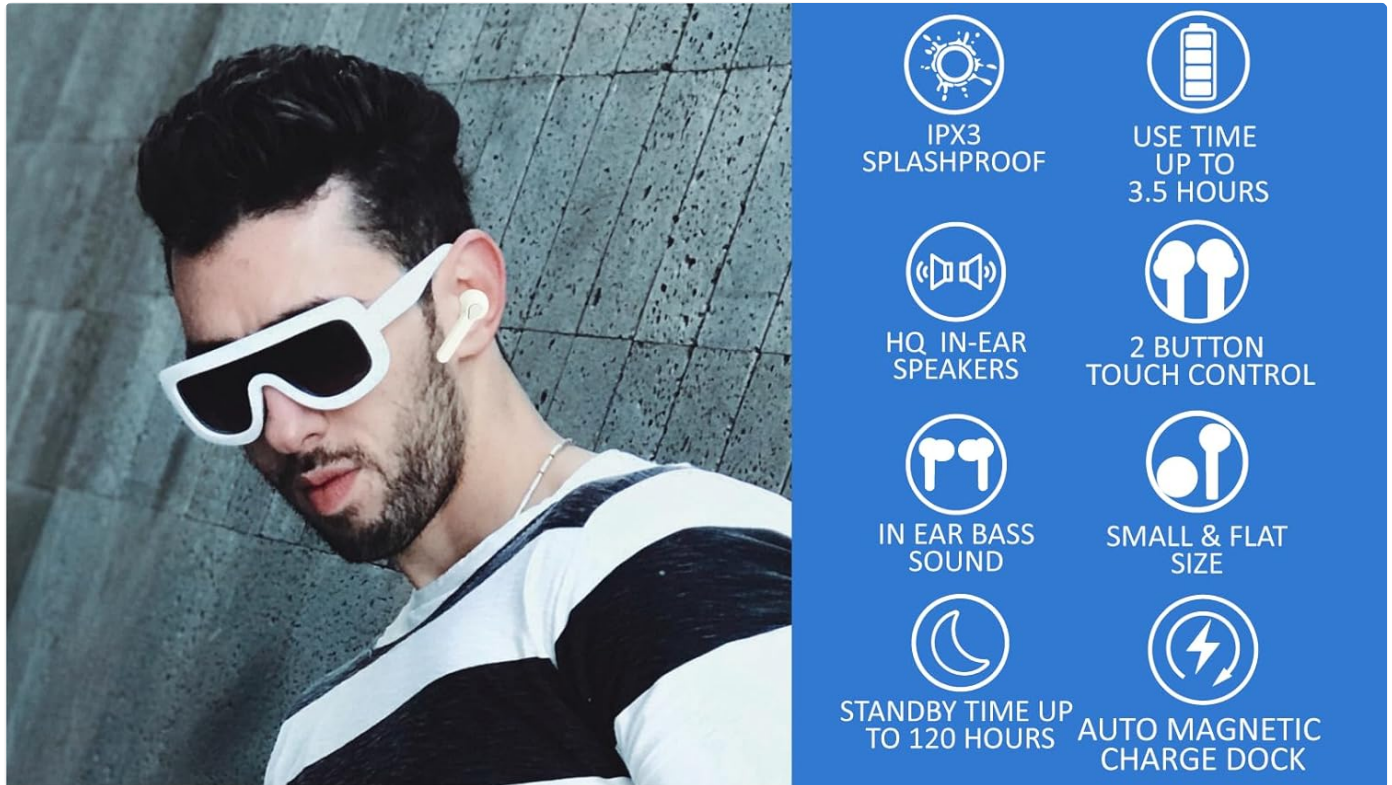

Image: A man wearing the FLINQ Alume Earbuds, demonstrating their in-ear fit. An infographic highlights key features such as IPX3 splashproof rating, up to 3.5 hours use time, HQ in-ear speakers, 2-button touch control, in-ear bass sound, small & flat size, up to 120 hours standby time, and auto magnetic charge dock.

### Basic Functions (2-Button Touch Control)

The FLINQ Alume Earbuds feature intuitive touch controls for various functions. Specific actions may vary slightly depending on your device and app.

- **Play/Pause:** Single tap on either earbud.
- **Next Track:** Double tap on the right earbud.
- **Previous Track:** Double tap on the left earbud.
- **Answer/End Call:** Single tap on either earbud during an incoming call.
- **Reject Call:** Press and hold either earbud for 2 seconds during an incoming call.
- **Activate Voice Assistant (Siri/Google Assistant):** Triple tap on either earbud.
- **Power On/Off:** Earbuds power on automatically when removed from the case and power off when placed back in the case. Manual power on/off may be possible by pressing and holding the touch area for an extended period (refer to specific device behavior).

### Using Earbuds Individually

Both earbuds can be used independently. Simply take one earbud out of the charging case, and it will connect to your device. The other earbud can remain in the case or be used by another person.

## MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your earbuds.

- **Cleaning:** Regularly clean the earbuds and charging case with a soft, dry, lint-free cloth. Do not use abrasive cleaners or solvents.
- **Ear Tips:** Remove and clean the silicone ear tips periodically with water and mild soap. Ensure they are completely dry before reattaching.
- **Water Resistance:** The earbuds are IPX3 splashproof, meaning they are protected against spraying water. Do not submerge them in water or expose them to heavy rain. Dry them thoroughly if they get wet.
- **Storage:** When not in use, always store the earbuds in their charging case to protect them and keep them charged.
- **Temperature:** Avoid exposing the earbuds to extreme temperatures (hot or cold) or high humidity.

## TROUBLESHOOTING

If you encounter issues with your FLINQ Alume Earbuds, try the following solutions:

Problem	Possible Solution
Earbuds not pairing/connecting.	Ensure earbuds are charged. Turn off and on Bluetooth on your device. Forget "FLINQ Alume" from your device's Bluetooth list and re-pair. Place earbuds back in the case, close, wait a few seconds, then open again.
Only one earbud is working.	Ensure both earbuds are charged. Place both earbuds back in the charging case, close the lid, then open it again. Try resetting the earbuds (refer to manufacturer's website if a specific reset procedure is available, as it's not detailed here).
No sound or low volume.	Adjust volume on your connected device. Ensure earbuds are properly seated in your ears. Check if the earbuds are connected to the correct device. Clean any debris from the earbud speakers.
Charging case not charging.	Check the USB cable and power adapter. Ensure the charging port is clean and free of debris. Try a different USB port or power source.

## SPECIFICATIONS

Feature	Detail
Brand	FLINQ
Model Name	Alume Wireless Earbuds
