ANZZI Kahn SD-FRLS05801CH Frameless Sliding Shower Door Instruction Manual

Brand: ANZZI | Model: SD-FRLS05801CH

1. PRODUCT OVERVIEW

This manual provides detailed instructions for the installation, operation, and maintenance of your ANZZI Kahn SD-FRLS05801CH Frameless Sliding Shower Door. This product features a modern design with tempered Deco-Glass panels and premium aluminum Rhino Alloy certified hardware, finished in polished chrome. It is designed for durability and ease of use.

Key Features:

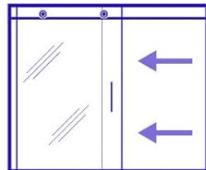

- **Double-Sided Tsunami Guard:** Water-repellent coating to prevent cloudy build-up and maintain glass clarity.
- **Rhino Alloy Certified Materials:** Constructed with high-quality aluminum and tempered Deco-Glass for durability.
- **Easy Glide Rollers:** Designed for smooth and effortless sliding door operation.
- **Reversible Installation:** Accommodates both left and right-side installations.

2. SETUP AND INSTALLATION

Installation of the ANZZI Kahn shower door is designed to be straightforward. All necessary equipment is included in the package. It is recommended to follow the provided instruction manual carefully for optimal results. Professional installation is always an option for complex setups.

Installation Steps (General):

- Unpack and Inspect:** Carefully unbox all components and inspect for any damage. Verify all parts are present against the packing list.
- Prepare the Area:** Ensure the shower base and surrounding walls are clean, level, and properly prepared for installation.
- Assemble Frame Components:** Follow the detailed instructions to assemble the aluminum frame and tracks.
- Install Glass Panels:** Carefully place the tempered Deco-Glass panels into the assembled frame and tracks.
- Attach Rollers and Handles:** Secure the easy-glide rollers and horizontal handles to the glass panels.
- Seal and Adjust:** Apply anti-water seals and make any necessary adjustments to ensure smooth operation and a watertight enclosure.

4. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and appearance of your ANZZI Kahn shower door. The Tsunami Guard coating helps repel water, reducing the need for frequent cleaning.

Cleaning the Glass:

- For daily cleaning, wipe down the glass panels with a soft cloth or squeegee after each use to prevent water spots.
- For deeper cleaning, use a non-abrasive glass cleaner. Avoid harsh chemicals or abrasive pads that could damage the Tsunami Guard coating or the glass surface.
- The Tsunami Guard coating significantly reduces mineral build-up, making cleaning easier.

Cleaning the Hardware:

- Wipe the polished chrome hardware with a soft, damp cloth.
- Avoid using abrasive cleaners or scouring pads on the metal finishes, as this can scratch or dull the surface.
- The Rhino Alloy certified materials are designed to resist rust and corrosion in a bathroom environment.

Seals and Rollers:

- Periodically check the anti-water seals for wear and tear. Replace if necessary to maintain a watertight enclosure.
- Keep the easy-glide rollers and tracks free from debris and soap scum to ensure smooth operation. Clean with a soft brush and mild soap if needed.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your shower door.

Problem	Possible Cause	Solution
Door does not slide smoothly.	Debris in tracks, worn rollers, or misalignment.	Clean tracks thoroughly. Inspect rollers for damage and replace if necessary. Check for proper alignment and adjust according to installation instructions.
Water leaks from the enclosure.	Damaged or improperly installed seals, door not fully closed.	Ensure the door is fully closed. Inspect all seals for damage or gaps and replace if needed. Verify proper seal installation.
Glass appears cloudy or stained.	Mineral deposits or soap scum build-up.	Clean with a non-abrasive glass cleaner. Regularly wipe down the glass after each use to prevent build-up. The Tsunami Guard coating should minimize this issue.
