# PawHut Wrought Metal Bird Cage Instruction Manual

MODEL: D10-065V01

Brand: PawHut

## 1. INTRODUCTION

Thank you for purchasing the PawHut Wrought Metal Bird Cage. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure safe and optimal use of your bird cage. Please read all instructions carefully before assembly and retain this manual for future reference.

## 2. PRODUCT FEATURES

- **Convenient Access:** Features large front doors and multiple sliding food doors for easy access to birds, food, and water.
- **Roomy Interior:** Provides ample space for birds to move comfortably, equipped with 4 wooden perches and 4 plastic food containers.
- **Convertible Design:** The bottom shelf and tray of the upper flight cage can be pulled out to convert two individual cages into one large bird cage.

- **Solid Construction:** Constructed from durable mesh wire and solid steel for stability and long-lasting use.
- **Easy to Clean:** Includes an easy-to-slide-out tray to collect bird seed and droppings, simplifying maintenance.
- **Portable Rolling Stand:** Equipped with quiet universal wheels for effortless movement of the cage.

### 3. SETUP AND ASSEMBLY

Assembly of the PawHut bird cage is straightforward. Follow the steps below for proper setup. It is recommended to have two people for easier assembly.

#### Assembly Steps:

1. Unpack all components and verify against the parts list.
2. Assemble the base frame and attach the rolling wheels securely.
3. Attach the side panels to the base, ensuring all connections are firm.

4. Insert the bottom grates and pull-out trays into their respective slots.
5. Install the internal perches and food containers by sliding them into the designated openings.
6. Secure the top roof panels to the upper cage section using the provided fasteners.
7. Ensure all doors and latches operate smoothly and securely.

#### 4. OPERATING INSTRUCTIONS

This bird cage is designed for ease of use and the comfort of your birds.

##### Feeding and Watering:

- Utilize the sliding food doors to easily refill food and water containers without disturbing your birds.

### Accessing the Interior:

- The large front doors provide ample space for placing or removing birds, toys, and other accessories.
- Ensure doors are securely latched after each use to prevent escapes.

### Converting Cage Size:

- To combine the two individual cages into one large space, carefully remove the bottom shelf and tray of the upper cage. This creates a continuous vertical space.

## SATISFY YOUR NEEDS

The bottom shelf and tray of upper cage can be pulled out to make the 2 individual cages into 1 big cage

Figure 5: Converting the cage from two sections to one large section.

### 5. MAINTENANCE

Regular cleaning and maintenance will ensure a healthy environment for your birds and extend the life of the cage.

#### Cleaning the Cage:

- The easy-to-slide-out bottom tray should be cleaned daily to remove droppings and spilled food.
- Periodically wipe down all cage surfaces with a bird-safe cleaner and warm water. Rinse thoroughly and dry completely before returning birds.
- Clean perches and food/water containers regularly to prevent bacterial growth.

#### General Care:

- Inspect the cage regularly for any signs of wear, damage, or loose parts. Tighten screws as needed.

- Ensure the wheels are clean and roll smoothly for easy portability.

## 6. TROUBLESHOOTING

If you encounter any issues with your bird cage, please refer to the following common solutions:

- **Cage Wobbles:** Ensure all screws and fasteners are securely tightened. Check that the cage is placed on a flat, stable surface.
- **Doors Not Latching Properly:** Inspect the latch mechanism for any obstructions or misalignment. Gently adjust if necessary. Refer to Figure 6 for proper latching.
- **Trays Difficult to Slide:** Clean the tray and its runners thoroughly to remove any accumulated debris or droppings. A small amount of food-grade lubricant can be applied if needed.
- **Wheels Not Rolling Smoothly:** Check for debris caught in the wheels. Clean the wheels and their axles.
