Shark WS632

Shark WS632 WANDVAC System Instruction Manual

PRODUCT OVERVIEW

The Shark WANDVAC System is an ultra-lightweight and powerful cordless stick vacuum designed for quick and efficient cleaning. It offers versatile cleaning solutions for various surfaces in your home.

Key Features

- **Powerful and Lightweight:** Engineered for strong suction in a compact, ultra-lightweight design.
- **Always Ready:** Features a portable charging base for convenient storage and charging.
- **Incredible Cordless Suction:** HyperVelocity accelerated suction power for effective cleaning.
- **One-Touch Hygienic Dust Cup Empty:** Designed for mess-free debris disposal.
- **Boost Mode:** Provides extra bursts of strong suction for tougher messes.
- **One-Touch Transitions:** Easily switch between cleaning modes and configurations.
- **PowerFins Technology:** Ensures continuous cleaning contact for deep carpet and direct floor engagement.
- **No Hair Wrap:** Equipped with a self-cleaning brushroll to prevent hair tangles.

INCLUDED COMPONENTS

Your Shark WANDVAC System comes with the following components:

- Main Handheld Vacuum Unit
- Wand
- Floor Nozzle with PowerFins Technology
- Charging Dock
- Duster Crevice Tool
- Pet Multi-Tool
- Lithium-Ion Battery (included)

SETUP AND ASSEMBLY

Assembly

1. Insert the wand into the floor nozzle until it clicks securely.
2. Insert the handheld vacuum into the wand until it clicks securely.

3. Place the assembled vacuum onto the charging dock.

OPERATING INSTRUCTIONS

Power On/Off and Modes

Press the power button on the handheld unit to turn the vacuum on or off. The WANDVAC System features different cleaning modes:

- **Standard Mode:** For everyday cleaning on various surfaces.
- **Boost Mode:** Press the Boost button for increased suction power to tackle stubborn debris.

Cleaning Surfaces

The PowerFins technology in the floor nozzle ensures continuous contact with both carpets and hard floors, effectively picking up debris without interruption.

Handheld Use

Detach the handheld unit from the wand for quick cleanups on furniture, stairs, or in your car. Attach the Duster Crevice Tool or Pet Multi-Tool as needed for specialized cleaning tasks.

MAINTENANCE

Emptying the Dust Cup

The WANDVAC System features a one-touch hygienic dust cup empty mechanism. Simply press the release button to open the dust cup and dispose of debris without direct contact.

Filter Cleaning

The vacuum is equipped with a HEPA, reusable, and washable filter. Regularly clean the filter to maintain optimal suction performance. Refer to the full user manual for detailed instructions on filter removal and cleaning frequency.

Brushroll Maintenance

The self-cleaning brushroll is designed to prevent hair wrap. Periodically check the brushroll for any entangled debris and remove as necessary to ensure efficient operation.

TROUBLESHOOTING

Reduced Suction or Short Run Time

- **Check Dust Cup:** Ensure the dust cup is not full and empty it if necessary.
- **Clean Filter:** A dirty filter can significantly reduce suction. Clean the HEPA filter according to maintenance instructions.
- **Charge Battery:** Ensure the battery is fully charged. Battery life can vary based on usage mode (e.g., Boost Mode consumes more power).
- **Clear Blockages:** Inspect the nozzle, wand, and handheld unit for any blockages that may be impeding airflow.

SPECIFICATIONS

Feature	Detail
---------	--------

Brand	Shark
Model Name	Shark
Item Model Number	WS632
Color	Slate Grey
Power Source	Battery Powered
Battery Type	Lithium-Ion
Wattage	225 watts
Capacity	0.13 Quarts
