# BALDR Digital Bathroom Clock with Timer Instruction Manual

Model: B08TH77JFC

## 1. INTRODUCTION

Thank you for choosing the BALDR Digital Bathroom Clock with Timer. This device is designed to provide accurate time, indoor temperature, and humidity readings, along with a convenient shower timer, all within a splash-proof design suitable for wet environments. Its versatile mounting options allow for placement on various surfaces.

## 2. PRODUCT FEATURES

- **IP24 Splash-Proof Rating:** Suitable for bathrooms and kitchens.
- **Clear LCD Display:** Shows time, indoor temperature, and humidity.

- **Tap-Sensitive Timer:** Easy setting for 1-minute or 10-minute increments.
- **Versatile Mounting:** Freestanding with built-in stand or wall-mounted with suction hook.
- **Temperature Units:** Switch between Fahrenheit (°F) and Celsius (°C).
- **Time Formats:** Switch between 12-hour and 24-hour display.
- **Battery Powered:** Operates on two AAA batteries (not included).

### 3. SETUP

#### 3.1 Battery Installation

1. Locate the battery compartment on the back of the clock.
2. Open the battery compartment cover.
3. Insert two (2) AAA batteries, ensuring correct polarity (+ and -).
4. Close the battery compartment cover securely.

#### 3.2 Mounting Options

The clock features an innovative flip design for versatile placement:

- **Freestanding:** Use the built-in stand to place the clock on any flat surface, such as a countertop or shelf.
- **Wall Mount:** Flip the clock 180 degrees and use the included suction hook to mount it on any non-porous surface like glass or tiles. Ensure the surface is clean and dry before attaching the suction hook for optimal adhesion.

## 4. OPERATING INSTRUCTIONS

### 4.1 Initial Power On

After battery installation, the clock will power on and display default time, temperature, and humidity. It may take a few moments for the temperature and humidity sensors to stabilize.

### 4.2 Setting Time and Date

The clock features tap-sensitive buttons on the side for adjustments. Typically, a 'SET' or 'MODE' button (often indicated by an icon) is used to cycle through settings (time, date, 12/24hr format, °F/°C). Use the '+' or '-' buttons (often indicated by '10' and '1' for timer functions, which also serve for general adjustments) to change values. Refer to the quick start guide included with your product for specific button functions and sequences.

### 4.3 Switching Temperature Units (°F/°C)

Press the dedicated °F/°C button or cycle through the settings using the 'MODE' button until the temperature unit flashes, then use the adjustment buttons to select your preferred unit.

### 4.4 Switching Time Format (12-hour/24-hour)

Press the dedicated 12/24H button or cycle through the settings using the 'MODE' button until the time format flashes, then use the adjustment buttons to select your preferred format.

### 4.5 Using the Shower Timer

1. **Setting the Timer:** The clock has tap-sensitive buttons on the side. Tap the '1' button to add 1 minute to the timer, or the '10' button to add 10 minutes.
2. **Starting the Timer:** Once the desired time is set, the timer will automatically begin counting down after a few seconds of inactivity, or by pressing a 'START' button if available.
3. **Pausing/Stopping the Timer:** Tap the 'START/STOP' button (if available) or hold down one of the timer setting buttons to pause or stop the countdown.
4. **Clearing the Timer:** Tap the 'CLEAR' button to reset the timer to zero.
5. **Alarm:** The timer will beep when the countdown is complete.

## 5. MAINTENANCE

### 5.1 Cleaning

Wipe the clock with a soft, damp cloth. Do not use abrasive cleaners or immerse the device in water. Ensure the battery compartment is sealed before cleaning.

### 5.2 Battery Replacement

Replace batteries when the display becomes dim or the clock stops functioning. Always replace both AAA batteries at the same time with new ones. Dispose of used batteries responsibly.

### 5.3 Water Resistance

The clock has an IP24 splash-proof rating, meaning it is protected against splashing water from any direction. It is not designed for full submersion. Avoid directing strong jets of water directly at the device.

## 6. TROUBLESHOOTING

- **Display is blank or dim:** Check if the batteries are inserted correctly. Replace with fresh AAA batteries.
- **Incorrect time/date:** Follow the instructions in section 4.2 to reset the time and date.
- **Timer not responding:** Ensure the clock has sufficient battery power. Gently tap the buttons; avoid pressing too hard.
- **Inaccurate temperature/humidity:** Allow the clock to sit in its intended environment for at least 30 minutes for sensors to acclimate.
- **Suction hook not holding:** Ensure the mounting surface is clean, dry, and non-porous. Press firmly to remove air bubbles.

## 7. SPECIFICATIONS

Feature	Specification
Brand	Baldr
Model	B08TH77JFC
Color	Black
Display Type	Digital LCD
Power Source	2 x AAA Batteries (not included)
Product Dimensions	5"W x 5"H (approx. 12.7 cm x 12.7 cm)
