3. Setup Guide

1. **Placement:** Place the projector on a stable, flat surface. Ensure there is adequate ventilation around the projector. For optimal viewing, position the projector perpendicular to the screen or wall.
2. **Power Connection:** Connect the power cord to the projector's power input and then plug it into a power outlet.
3. **Power On:** Press the power button on the projector or the remote control to turn it on.
4. **Focus Adjustment:** Rotate the focus ring on the projector lens until the projected image appears clear and sharp.
5. **Keystone Correction:** Adjust the keystone ring (if available) to correct any trapezoidal distortion, ensuring a rectangular image.

4. Operating Instructions

4.1 Wireless Mirroring Function

The WiMiUS W2 supports wireless screen mirroring from iOS, Android, and Windows devices, allowing you to project content without cables.

- Ensure your projector and mobile device are connected to the same Wi-Fi network.
- Select the 'Screen Mirroring' or 'Wireless Display' option on the projector's main menu.
- On your mobile device, enable screen mirroring (e.g., AirPlay for iOS, Smart View/Cast for Android, Project to a second screen for Windows) and select the projector from the list of available devices.

4.3 Multimedia Connection

The projector offers multiple ports for connecting various devices:

- **HDMI:** Connect laptops, gaming consoles (PS4), TV sticks, Blu-ray players.
- **USB:** Play media directly from USB drives.
- **VGA:** Connect older computers.
- **AV:** Connect legacy devices using the included 3-in-1 AV cable.

5. Maintenance

- **Lens Cleaning:** Use a soft, lint-free cloth to gently wipe the projector lens. Avoid abrasive cleaners.
- **Dust Removal:** Regularly clean the air vents to prevent dust buildup, which can affect cooling performance.
- **Storage:** When not in use for extended periods, store the projector in its protective bag in a cool, dry place.

6. Troubleshooting

- **No Picture:** Check power connection, input source selection, and cable connections. Ensure the lens cap is removed.
- **Blurry Image:** Adjust the focus ring. Ensure the projector is at an optimal distance from the screen. Check for smudges on the lens.
- **No Sound:** Check volume settings on both the projector and the connected device. Ensure external speakers are properly connected or paired via Bluetooth.
- **Wireless Mirroring Issues:** Ensure both devices are on the same Wi-Fi network. Restart both the projector and the mobile device. Some streaming apps (e.g., Netflix, Hulu) may block screen mirroring due to copyright protection; use a TV stick for these services.
- **Overheating:** Ensure ventilation vents are not blocked. Turn off the projector and let it cool down if it feels excessively hot.
