DAYBETTER SWTYBRGB06

DAYBETTER Smart Light Bulbs User Manual

MODEL: SWTYBRGB06

1. Introduction

Thank you for choosing DAYBETTER Smart Light Bulbs. These RGBCW Wi-Fi enabled LED bulbs offer a versatile lighting solution for your home, allowing you to control brightness, color, and schedules remotely. Compatible with popular voice assistants like Amazon Alexa and Google Home Assistant, these bulbs integrate seamlessly into your smart home ecosystem without requiring an additional hub.

2. Safety Information

Please read and follow all safety instructions before using the product to prevent injury or damage.

- Ensure the power is turned off at the switch before installing or removing the bulb.
- Do not use with standard dimmers. These bulbs are dimmable via the app or voice control only.
- Suitable for indoor use only. Avoid exposure to water or high humidity.
- Do not disassemble or modify the bulb. This will void the warranty.
- Use only in E26/E27 standard light sockets.

3. Package Contents

- DAYBETTER Smart Light Bulbs (6-pack)

4. Specifications

Feature	Description
Model Number	SWTYBRGB06
Light Type	LED (RGBCW)
Wattage	9W (60W Incandescent Equivalent)
Brightness	800 Lumens
Bulb Shape Size	A19
Bulb Base	E26
Color Temperature	Tunable White (2700K-6500K) + 16 Million RGB Colors
Dimmable Range	1% - 100%
Connectivity	Wi-Fi (2.4GHz only)
Voltage	120 Volts, 60 Hertz
Control Method	App, Voice (Alexa, Google Assistant)

5. Setup

5.1 Physical Installation

1. Ensure the power to the light fixture is turned off at the wall switch.
2. Carefully screw the DAYBETTER Smart Light Bulb into any standard E26/E27 light socket or fixture.
3. Turn the power back on at the wall switch. The bulb should flash slowly, indicating it is in pairing mode.

5.2 App Pairing (Tuya Smart App)

The DAYBETTER Smart Light Bulbs use the Tuya Smart app for control. Ensure your mobile device is connected to a stable 2.4GHz Wi-Fi network (5GHz networks are not supported for initial setup).

1. Download the "Tuya Smart" app from the App Store (iOS) or Google Play Store (Android).
2. Register or log in to your Tuya Smart account.
3. In the app, tap the "+" icon in the top right corner to add a device.
4. Select "Lighting" > "Light Source (Wi-Fi)" or use the auto-scan feature.
5. Confirm that the bulb is flashing slowly. If not, turn the bulb off and on three times to reset it to pairing mode.
6. Enter your 2.4GHz Wi-Fi network password when prompted.
7. The app will begin connecting to the bulb. Once connected, the bulb will stop flashing and remain steadily lit.
8. You can then rename the bulb for easier identification (e.g., "Living Room Lamp", "Kitchen Light").

Tuya Smart App

Control your home lights from
anywhere with your smartphone

6. Operating Instructions

6.1 App Control

Once paired, you can control your smart bulbs from anywhere using the Tuya Smart app.

- **Brightness Dimmable:** Adjust the brightness from 1% to 100% to suit your needs, from bright task lighting to a soft ambiance.
- **Color Changing (RGBCW):** Select from 16 million colors to create any mood. You can also adjust the white light from warm (2700K) to cool (6500K).

Multicolor

16 million colors + warm white

Image: A group of people enjoying a meal under the glow of multicolor smart lights, highlighting the 16 million color options.

- **Scene Customization:** The app offers various preset scenes (e.g., Reading, Party, Relax) or allows you to create your own custom scenes with specific colors, brightness, and effects.

Scene Customed

Image: Four distinct room environments showcasing various customized lighting scenes, from vibrant colors to soft white.

- **Group Control:** Group multiple bulbs together to control them simultaneously with a single command, perfect for rooms with multiple light sources.

Group Control

6.2 Voice Control

Connect your DAYBETTER Smart Light Bulbs to Amazon Alexa or Google Home Assistant for convenient voice control.

1. In the Tuya Smart app, navigate to "Me" > "More Services" > "Voice Control" and select your desired voice assistant (Alexa or Google Assistant).
2. Follow the in-app instructions to link your Tuya Smart account with your voice assistant account.
3. Once linked, you can use voice commands such as:

"Alexa, turn on Living Room Lamp."

"Hey Google, set Kitchen Light to blue."

"Alexa, dim Bedroom Light to 50%."

Voice Control

Image: A family in a kitchen setting, using voice commands with smart speakers to control their lighting, illustrating compatibility with Alexa and Google Assistant.

6.3 Timer & Schedule

Set schedules and timers for your bulbs to automate your lighting routines.

- In the Tuya Smart app, select the desired bulb or group.
- Tap on the "Schedule" or "Timer" option.
- Set specific times for the lights to turn on/off, adjust brightness, or change colors. This is ideal for waking up gently with increasing light or simulating occupancy when you're away.

Image: Two scenarios depicting scheduled lighting: a person waking up at 7:30 AM with bright light and a person sleeping at 11:00 PM with dim light.

7. Maintenance

To ensure the longevity and optimal performance of your DAYBETTER Smart Light Bulbs, follow these simple maintenance guidelines:

- Before cleaning, ensure the bulb is cool and the power is turned off at the switch.
- Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- Avoid exposing the bulb to excessive heat or direct sunlight for prolonged periods.

8. Troubleshooting

If you encounter issues with your DAYBETTER Smart Light Bulbs, try the following solutions:

- **Bulb not connecting/flashing:** Ensure your Wi-Fi network is 2.4GHz. Turn the bulb off and on three times (with 2-second intervals) to reset it to pairing mode (it should start flashing slowly).

- **Connectivity issues:** Check your Wi-Fi router's proximity to the bulb. Ensure there are no strong interferences. Restart your router and try pairing again.
- **Voice control not working:** Verify that your Tuya Smart account is correctly linked to your Alexa or Google Home Assistant app. Try re-discovering devices in your voice assistant app.
- **Bulb unresponsive:** Turn the light switch off for 10 seconds, then turn it back on. If the issue persists, try re-pairing the bulb with the app.

9. Warranty and Support

DAYBETTER products come with a limited warranty. For detailed warranty information, technical support, or customer service inquiries, please refer to the contact information provided on the product packaging or visit the official DAYBETTER website. Please retain your proof of purchase for warranty claims.
