## THE G-LAB COMBO-TUNGSTEN/IT

# THE G-LAB Combo TUNGSTEN Wireless Gaming Keyboard and Mouse User Manual

Model: COMBO-TUNGSTEN/IT

## INTRODUCTION

Welcome to the user manual for your THE G-LAB Combo TUNGSTEN Wireless Gaming Keyboard and Mouse. This combo provides a high-performance, ergonomic, and customizable gaming experience with its advanced wireless technology, precise tracking, and vibrant RGB backlighting. Please read this manual carefully to ensure proper setup, operation, and maintenance of your new gaming peripherals.

## PACKAGE CONTENTS

- THE G-LAB Combo TUNGSTEN Wireless Gaming Keyboard
- THE G-LAB Combo TUNGSTEN Wireless Gaming Mouse
- 2.4 GHz USB Nano Receiver
- USB Charging Cable
- User Manual (this document)

## SETUP

### Initial Connection

1. Locate the 2.4 GHz USB Nano Receiver. It is typically stored in a compartment on the underside of the mouse for safekeeping.

## Charging the Devices

The keyboard and mouse have built-in rechargeable batteries. Use the provided USB charging cable to charge them when the battery is low.

- Connect the USB charging cable to the charging port on the keyboard/mouse and to a USB power source (e.g., PC USB port, USB wall adapter).
- A full charge takes approximately 3 hours.
- The keyboard offers up to 30 hours of autonomy with lighting on, and up to 180 hours with lighting off.

## OPERATING INSTRUCTIONS

### Keyboard Functions

- **Anti-Ghosting:** The keyboard supports 26-key anti-ghosting to ensure all key presses are registered accurately during intense gaming sessions.
- **Multimedia Hotkeys:** Utilize the 12 multimedia hotkeys for quick access to volume control, media playback, and other functions. These are typically accessed using the **FN** key in combination with the F1-F12 keys.
- **RGB Backlighting Control:**

Image: The THE G-LAB Combo TUNGSTEN keyboard displaying its vibrant RGB backlighting, with text overlays showing controls for brightness (FN + Up/Down arrows) and LED effects (FN + 1-5).

- **Brightness Adjustment:** Press **FN + ↑** (Up Arrow) to increase brightness, **FN + ↓** (Down Arrow) to decrease brightness or turn off lighting.
- **LED Effects:** Choose from 5 different LED effects by pressing **FN + 1** through **FN + 5**.
- **Color Selection:** The keyboard offers 7 different colors. Specific key combinations for color cycling might be available, refer to the quick start guide if included.

## Mouse Functions

- **DPI Adjustment:** The mouse features an ultra-precise optical sensor with adjustable sensitivity up to 2400 DPI.

# MASSIMA PRECISIONE

PULSANTE DPI

800 - 1200 - 1600 - 2400

IMPUGNATURA IN SILICONE

Image: A close-up of the THE G-LAB Combo TUNGSTEN mouse, pointing out the DPI button for sensitivity adjustment (800-1200-1600-2400 DPI) and the silicone grip for enhanced comfort.

Press the DPI button (usually located behind the scroll wheel) to cycle through 4 sensitivity levels: 800, 1200, 1600, and 2400 DPI.

- **Programmable Buttons:** The mouse has 7 buttons that can be assigned to various functions. Customization typically requires software, which is not mentioned as included or downloadable. For basic use, buttons function as standard mouse buttons.
- **RGB Lighting:** The mouse features an intense and dynamic RGB lighting effect. This lighting is typically automatic and not user-configurable in the same way as the keyboard.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the keyboard and mouse. For stubborn dirt, a slightly damp cloth can be used, but ensure no liquid enters the devices. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the devices in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the devices frequently. Charge them regularly, especially if they will not be used for an extended period.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Keyboard/Mouse not responding	Low battery USB receiver not properly connected Out of range Interference	Charge the devices. Ensure the USB receiver is firmly plugged into a working USB port. Try a different port. Move the devices closer to the USB receiver (within 10m). Move away from other wireless devices or sources of electromagnetic interference.
Lag or delayed response	Low battery Interference Distance from receiver	Charge the devices. Reduce interference by moving other wireless devices. Ensure devices are within optimal range of the receiver.
RGB lighting not working	Lighting turned off Low battery	Adjust brightness using <b>FN + ↑</b> . Charge the keyboard/mouse.
