RONBEI BC102C

RONBEI Baby Bassinet Bedside Sleeper Instruction Manual

Model: BC102C | Brand: RONBEI

1. INTRODUCTION

The RONBEI Baby Bassinet Bedside Sleeper is designed to provide a safe and comfortable sleeping environment for your infant, allowing them to sleep close to you. This versatile bassinet features adjustable height settings, breathable mesh sides for optimal airflow and visibility, and the convenience of converting between a bedside sleeper and a stand-alone bassinet. This manual provides essential information for proper setup, safe operation, and maintenance of your bassinet.

2. IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these warnings and the instructions could result in serious injury or death.

- Always use the bassinet with the side walls fully raised and locked unless it is securely attached to an adult bed in bedside sleeper mode.
- To prevent suffocation, never use a mattress or padding other than the one provided by the manufacturer. The mattress must be firm and fit snugly without gaps.
- Infants can suffocate on soft bedding. Never add a pillow, comforter, or additional padding.
- The bassinet is intended for infants from newborn up to 6 months of age, or until the infant begins to push up on hands and knees, pull up, or is able to sit unassisted, whichever comes first. Maximum weight recommendation is 9 kilograms (19.8 lbs).
- Always secure the bassinet to the adult bed using the provided attachment straps when in bedside sleeper mode to prevent separation.
- Ensure there are no gaps between the bassinet and the adult bed that could trap an infant.
- Keep small parts and packaging materials away from children.
- Regularly check all fasteners for tightness. Do not use if any parts are missing, damaged, or broken.

3. PACKAGE CONTENTS

Please ensure all components are present before assembly:

- Bassinet Frame (legs, support bars)
- Bassinet Fabric Basket
- Mattress
- Fitted Mattress Sheets (2 included)
- Attachment Straps for Bedside Mode
- Mobile with Sound Machine (optional attachment)

4. SETUP INSTRUCTIONS

The RONBEI Bassinet is designed for easy assembly with minimal pieces. Follow these steps to set up your bassinet:

1. Unfold the main frame components and ensure they lock into place securely.
2. Attach the bassinet fabric basket to the frame, ensuring all clips and zippers are properly fastened.
3. Insert the mattress into the bassinet basket. Place a fitted sheet over the mattress.
4. If using the mobile with sound machine, attach it to the designated slot on the bassinet frame.

5. OPERATING INSTRUCTIONS

5.1. Height Adjustment

The bassinet offers 9 adjustable height levels, ranging from 18 to 25.6 inches (measurement from the floor to the bottom of the bassinet). To adjust the height, locate the adjustment buttons on the side legs. Press the buttons and slide the legs up or down to your desired height, ensuring both sides are set to the same level for stability. This allows the bassinet to align with various bed heights.

Image: 9 Height Adjustment Settings - This image highlights the numbered height adjustment mechanism on the bassinet leg.

5.2. Bedside Sleeper Mode

To use the bassinet as a bedside sleeper, lower one of the side panels. Unzip the fabric along the top rail of the side you wish to lower. Then, pull out the support bars from the top rail and slide the fabric panel down. Secure the bassinet to your adult bed using the provided attachment straps, ensuring a snug fit without gaps. This allows for easy access to your baby for feeding, comforting, and bonding.

Front folds down provide an easy transition from bed to **BASSINET**

5.3. Stand-Alone Bassinet Mode

To use the bassinet as a stand-alone unit, ensure both side panels are fully raised and securely zipped and locked. The bassinet is lightweight and can be easily moved from room to room for convenient daytime use.

Image: Stand-Alone Bassinet - The bassinet is shown in a living room, demonstrating its use as a portable, stand-alone sleeping solution.

5.4. Breathable Mesh Sides

The bassinet features mesh sides that provide excellent breathability and visibility, allowing you to easily see your baby and ensuring proper airflow for their comfort and safety.

**Open mesh sides allow more
breathable comfort and visibility**

Image: Air Mesh on Both Sides - This image shows a baby sleeping in the bassinet next to a bed, highlighting the air mesh on both sides for a cooler and comfortable rest.

5.5. Tilting Function (for reflux)

The bassinet can be slightly tilted by adjusting one side to a lower height than the other. This feature can be beneficial for infants experiencing reflux, helping to keep their head slightly elevated. Ensure the tilt is gentle and safe for your baby.

6. MAINTENANCE

Keeping your bassinet clean is essential for your baby's health and hygiene.

- **Mattress and Sheets:** The bassinet mattress and sheets are easily removable and machine washable. Follow the care instructions on the labels for best results.
- **Fabric Basket:** The fabric components of the bassinet can be spot cleaned with mild soap and water. For deeper cleaning, the fabric can be removed and machine washed according to label instructions.
- **Frame:** Wipe down the frame with a damp cloth and mild soap. Dry thoroughly.

7. TROUBLESHOOTING

If you encounter any issues with your RONBEI Baby Bassinet, please refer to the following common solutions:

- **Bassinet feels unstable:** Ensure all frame components are fully extended and locked into place. Verify that both legs are set to the same height level.
- **Side panel not lowering/raising smoothly:** Check for any fabric obstruction in the zipper or along the support bar mechanism. Ensure the release buttons are fully pressed when adjusting.
- **Mobile/Sound Machine not working:** Check if batteries are correctly inserted or need replacement.

For further assistance, please contact RONBEI customer support.
