Flieks Twin Over Twin/Full Bunk Bed with Trundle User Manual

Model: SM000209

INTRODUCTION

This manual provides essential information for the safe assembly, operation, and maintenance of your Flieks Twin Over Twin/Full Bunk Bed with Trundle. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

The Flieks bunk bed is designed to provide a versatile sleeping and working solution. It features a twin-over-twin/full configuration with an integrated trundle bed and a functional workstation, including side shelves and an L-shaped tabletop.

IMPORTANT SAFETY INFORMATION

WARNING:

- Always follow assembly instructions carefully to prevent instability or collapse.
- Do not exceed the maximum weight recommendation of **275 pounds** for either bunk.
- Be cautious around sharp edges, especially when assembling or disassembling the bed frame.
- Ensure all connections are tight before use. Periodically check and re-tighten as necessary.
- Only use mattresses of the specified size to prevent entrapment or falls.
- The top bunk is not suitable for children under 6 years of age.

SETUP AND ASSEMBLY

Assembly of the Flieks Twin Over Twin/Full Bunk Bed is required. It is recommended that two adults perform the assembly. Ensure all parts are present before beginning.

Package Contents:

The package includes all necessary solid wood and MDF components, hardware, and assembly tools. A gray mattress for the trundle is also included.

Assembly Steps:

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Refer to the included parts list to identify each piece.
2. **Assemble Main Frame:** Begin by assembling the main vertical and horizontal supports for the bunk bed structure. Ensure all connections are secure but do not fully tighten bolts until the frame is complete.
3. **Install Bunk Slats:** Securely attach the 7 slats for the top bunk and 9 slats for the bottom bunk. These slats are crucial for mattress support and weight distribution.
4. **Attach Ladder/Shelves:** Install the integrated ladder, which also functions as shelves. Ensure it is firmly attached to prevent slips.
5. **Assemble Workstation:** Attach the L-shaped tabletop and side shelves to the main frame.
6. **Assemble Trundle Bed:** Assemble the trundle frame. The lower bunk can be converted into a square seat with guardrails on three sides.
7. **Final Tightening:** Once the entire structure is assembled, go back and fully tighten all bolts and screws. Do not overtighten.
8. **Place Mattresses:** Place the appropriate size mattresses on the top and bottom bunks, and the included gray mattress on the trundle.

OPERATING INSTRUCTIONS

Using the Bunk Beds:

- Ensure mattresses are properly seated on the slats.
- Always use the integrated ladder for accessing the top bunk. Do not climb on the side rails or other parts of the bed.

Trundle Bed Operation:

- To extend the trundle bed, gently pull it out from under the lower bunk.
- To retract, push the trundle back into its storage position. The compact structure allows for space-saving when not in use.
- The lower bunk can be converted into a square seat by adjusting its position and utilizing the guardrails on three sides.

Workstation Use:

- Utilize the L-shaped tabletop for study or work.
- The side shelves are suitable for storing books, stationery, or small decorative items.

MAINTENANCE AND CARE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the lacquer finish.

- **Hardware Check:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Retighten as necessary to maintain stability and safety.
- **Wood Care:** The pine wood frame and MDF components are designed for durability. Avoid exposing the bed to excessive moisture or extreme temperature changes.
- **Damage Prevention:** Protect the surfaces from scratches and dents. Use coasters under drinks on the workstation.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and tighten all bolts and screws. Ensure all components are correctly aligned.
Trundle bed does not slide smoothly.	Obstruction or misaligned runners.	Clear any debris from under the trundle. Check that the trundle frame is assembled correctly and runners are aligned.
Squeaking noises.	Loose connections or friction between wood parts.	Tighten all hardware. Apply a small amount of paraffin wax or silicone spray to contact points if squeaking persists.
Parts do not fit during assembly.	Incorrect orientation or manufacturing defect.	Double-check the assembly instructions for correct part orientation. If parts are genuinely defective, contact customer support.

PRODUCT SPECIFICATIONS

- **Model:** SM000209
- **Brand:** Flieks
- **Size:** Twin (Upper), Twin/Full (Lower), Twin (Trundle)
- **Product Dimensions (Overall):** 78.8"L x 72.9"W x 68.8"H
- **Color:** White
