## iRobot m601220

# iRobot Braava Jet m6 (6012) Ultimate Robot Mop User Manual

Model: m601220

## 1. INTRODUCTION

---

The iRobot Braava Jet m6 is an advanced robotic mop designed to clean hard floors efficiently. It utilizes Precision Jet Spray and Smart Mapping technology to navigate and clean multiple rooms and larger spaces, tackling sticky messes and kitchen grease. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your Braava Jet m6 robot mop.

**Figure 1.1:** The Braava Jet m6 robot mop demonstrating its Precision Jet Spray feature, alongside a smartphone showing the iRobot Home App interface. This illustrates the robot's primary function and its connectivity.

## 2. IMPORTANT SAFETY INFORMATION

---

Before using your Braava Jet m6, please read all safety instructions carefully. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Ensure the charging dock is placed on a level surface and away from heat sources or direct sunlight.
- Do not use the robot mop on wet surfaces or in areas with standing water.
- Only use the cleaning solution provided or recommended by iRobot. Other solutions may damage the robot or leave residue.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.
- Do not operate the robot in rooms where an infant or child is sleeping.
- Regularly inspect the power cord for damage. If damaged, do not use and contact iRobot customer service.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

**YEARS**

Robotics Expertise  
& Innovation

### ***Your privacy is our priority***

For 30 years, customers have trusted iRobot® products to take care of their homes. Today, that trust matters more than ever, as we use the highest standards of data encryption to make sure your data stays private and secure.

**Figure 2.1:** iRobot emphasizes user privacy and data security, ensuring that your home's mapping data is protected with high standards of encryption.

## **3. WHAT'S IN THE BOX**

---

Your iRobot Braava Jet m6 package should contain the following components:

- 1 Braava jet® m6 Robot Mop
- 1 Charging Dock
- 1 North American Line Cord
- Cleaning Solution (starter bottle)
- Mop Pads (disposable wet and dry pads)

## **4. SETUP GUIDE**

---

### **4.1. Charging Dock Placement and Initial Charge**

Place the charging dock against a wall in an open, uncluttered area. Ensure there is at least 1.5 feet (0.5 meters) of clear space on either side of the dock and 4 feet (1.2 meters) in front of it. Connect the line cord to the charging dock and plug it into a wall outlet. Place your Braava Jet m6 onto the charging dock. The light ring around the CLEAN button will pulse white to indicate it is charging. Allow the robot to charge for at least 3 hours before its first use.

**Figure 4.1:** The Braava Jet m6 robot mop intelligently navigates back to its charging dock to recharge, ensuring it's always ready for the next cleaning cycle.

## 4.2. Connecting to the iRobot Home App

For full functionality and smart features, download the iRobot Home App from your device's app store. Follow the in-app instructions to connect your Braava Jet m6 to your home Wi-Fi network. The app allows you to schedule cleanings, view Smart Maps, set Keep Out Zones, and receive cleaning recommendations.

## 4.3. Installing Mop Pads

The Braava Jet m6 uses specific pads for wet mopping and dry sweeping. Slide the desired pad into the slot on the underside of the robot until it clicks into place. The robot automatically detects the pad type and adjusts its cleaning mode accordingly.

**Figure 4.2:** An assortment of Braava Jet mop pads, including wet and dry options, along with the recommended cleaning solution. The robot identifies the pad type to select the appropriate cleaning mode.

## 4.4. Filling the Tank

To wet mop, open the tank lid located on top of the robot. Fill the tank with water and a small amount of iRobot Braava Jet Hard Floor Cleaning Solution. Do not overfill. Close the lid securely. For dry sweeping, the tank does not need to be filled.

## 5. OPERATING YOUR BRAAVA JET M6

---

### 5.1. Cleaning Modes: Wet Mopping and Dry Sweeping

The Braava Jet m6 offers two primary cleaning modes based on the installed pad:

- **Wet Mopping:** Uses Precision Jet Spray and a wet mopping pad to tackle sticky messes and grime. Ideal for hard floors like hardwood, tile, and stone.
- **Dry Sweeping:** Uses a dry sweeping pad with electrostatic force to capture dirt, dust, and pet hair. Suitable for daily maintenance.

**Figure 5.1:** The Braava Jet m6 robot mop effectively cleans various hard floor surfaces, including tile, hardwood, and stone, adapting its cleaning method to the floor type.

*Dry Sweeping pads use electrostatic force to capture dirt, dust and pet hair*

**Figure 5.2:** The Braava Jet m6 utilizing a dry sweeping pad, which employs electrostatic force to efficiently capture dirt, dust, and pet hair from hard floors.

## **5.2. Precision Jet Spray**

The Precision Jet Spray loosens dirt and sticky messes. The robot is designed to spray only in front of itself, avoiding furniture, rugs, and walls. For optimal results, ensure the area is clear of obstacles.

**Figure 5.3:** The Braava Jet m6 robot mop deploying its Precision Jet Spray to loosen and break up sticky messes and kitchen grease on a tiled floor.

### 5.3. Smart Mapping and Navigation

Using vSLAM navigation, the m6 learns the layout of your home and builds personal Smart Maps. This enables it to expertly clean and navigate in neat, efficient rows. You can view and customize these maps in the iRobot Home App.

**Figure 5.4:** The Braava Jet m6 robot mop demonstrating its Smart Mapping capability, learning and mapping the layout of your home to clean where and when you desire.

#### 5.4. Keep Out Zones

With Smart Mapping, you can define "Keep Out Zones" in the app to prevent the robot from entering specific areas, such as pet bowls, delicate items, or areas with loose cables. This provides added control over your cleaning preferences.

**Figure 5.5:** The Braava Jet m6 robot mop respecting a user-defined 'Keep Out Zone', allowing for precise control over cleaning areas and avoiding sensitive spots.

### 5.5. Recharge and Resume

If the robot's battery runs low during a cleaning cycle, it will automatically return to its charging dock, recharge, and then resume cleaning exactly where it left off to complete the job.

## Smart Charge & Resume

Patented Smart Charge and Resume enables your robot to intelligently recharge for the amount of time needed to continue cleaning and get the job done.

**Figure 5.6:** The Braava Jet m6 robot mop's Smart Charge & Resume feature, allowing it to intelligently recharge and continue cleaning until the task is complete.

## 5.6. Imprint Link Technology

The Braava Jet m6 can work with select Roomba robot vacuums using Imprint Link Technology. This allows the Roomba to vacuum first, and then the Braava Jet m6 will automatically begin mopping, creating a seamless two-step cleaning process.

*Syncs with Braava jet® m6  
robot mop to automatically  
vacuum then mop*

**Figure 5.7:** The Braava Jet m6 robot mop syncing with a Roomba robot vacuum, demonstrating the Imprint Link Technology for an automated vacuum-then-mop cleaning sequence.

### 5.7. Voice Assistant Integration

The Braava Jet m6 is compatible with Amazon Alexa and Google Assistant. You can start, stop, or send the robot to specific areas for cleaning using simple voice commands, such as "Alexa, tell Braava to mop in front of the kitchen table."

## Clean without lifting a finger

Keep doing what you're doing. Though the iRobot Home app or you Alexa or Google Assistant, simply tell your robot when and where you want it to clean – and consider it done.

Alexa and all related logos are trademarks of Amazon.com or its affiliates. Google is a trademark of Google LLC.

**Figure 5.8:** The Braava Jet m6 robot mop can be controlled hands-free using voice commands through Amazon Alexa or Google Assistant, allowing users to initiate cleaning tasks effortlessly.

### 5.8. Personalized Schedules and Software Updates

The robot learns your cleaning habits and can suggest personalized schedules through the iRobot Home App. It also receives over-the-air software updates, ensuring it continuously improves its performance and features.

Figure 5.9: The iRobot Home App providing personalized cleaning recommendations for the Braava Jet m6 robot mop, adapting to user habits and environmental factors like pollen season.

## 6. MAINTENANCE

---

Regular maintenance is crucial for the optimal performance and longevity of your Braava Jet m6.

### 6.1. Cleaning the Robot

- **Sensors:** Wipe the cliff sensors and floor tracking sensor with a clean, dry cloth regularly.
- **Wheels:** Check the drive wheels for debris (hair, lint) and clean as needed.
- **Charging Contacts:** Clean the charging contacts on both the robot and the dock with a dry cloth.

### 6.2. Mop Pad Care

- **Disposable Pads:** Eject used disposable pads directly into the trash by pressing the pad eject button. Do not reuse.
- **Reusable Pads:** If using reusable pads, remove them after each cleaning cycle and wash them according to the

instructions provided with the pads. Allow them to air dry completely before reuse.

*Eject Braava jet<sup>®</sup> pads at the push of a button*

**Figure 6.1:** The Braava Jet m6 allows for easy, hands-free ejection of used mop pads directly into a trash receptacle with the push of a button.

**6.3. Tank Cleaning**

Periodically rinse the tank with clean water to prevent buildup. Do not use soap or other cleaning agents inside the tank unless specifically instructed by iRobot. Ensure the tank is completely dry before refilling or storing.

**7. TROUBLESHOOTING**

This section addresses common issues you might encounter with your Braava Jet m6.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Robot not charging	Loose power cord, dirty charging contacts, battery issue.	Ensure power cord is securely plugged in. Clean charging contacts on robot and dock. If issue persists, contact customer support.
"Fill Tank" error despite full tank	Float sensor stuck, lid not properly closed.	Gently shake the tank to free the float. Ensure the tank lid is securely closed and clicked into place.
Robot gets stuck frequently	Obstacles, uneven surfaces, or "Keep Out Zones" not set.	Clear the cleaning area of small obstacles. Use the iRobot Home App to define "Keep Out Zones" for problematic areas like rugs or furniture.
Leaves streaks on floor	Incorrect cleaning solution, dirty pad, excessive solution.	Ensure you are using only iRobot Braava Jet Hard Floor Cleaning Solution or plain water. Use a clean pad. Adjust the amount of solution sprayed via the app settings if available.
Navigation issues / spinning in circles	Dirty sensors, wheel issues, software glitch.	Clean all sensors. Check wheels for debris or damage. Restart the robot. If persistent, a factory reset via the app or contacting support may be necessary.

## 8. SPECIFICATIONS

Feature	Detail
Brand	iRobot
Model Name	Braava M6
Model Number	m601220
Color	Black
Product Dimensions (L x W x H)	10.6" x 10" x 3.5"
Item Weight	6.6 pounds
Battery Life	120 minutes
Power Source	Battery Powered
Control Method	Voice, App
Compatible Devices	Amazon Echo, Google Home, Smartphones, Tablets, iPhone
Special Features	Edge Cleaning, Room-By-Room Navigation, Scheduling, Selective Room Cleaning, Smart Mapping, Wet/Dry

## 9. WARRANTY AND SUPPORT

For warranty information, please refer to the official [iRobot Warranty Document \(PDF\)](#). This document outlines the terms

and conditions of your product's warranty.  
For additional support, frequently asked questions, or to contact customer service, please visit the official iRobot website or refer to the iRobot Home App.

**Protect Your Investment**
