Care and Maintenance

To ensure the longevity and hygiene of your pill organizer, follow these care instructions:

- **Cleaning:** Wash the pill organizer with mild soap and water. Use a soft, damp cloth to wipe it clean. Avoid abrasive cleaners or harsh chemicals that could damage the plastic.
- **Drying:** Allow the organizer to air dry completely before refilling or closing the compartments to prevent moisture buildup.
- **Storage:** Store the pill organizer in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

If you encounter any issues with your pill organizer, consider the following:

- **Lids Not Closing Securely:** Ensure no pills are obstructing the lid's closing mechanism. Check for any debris or damage around the hinges.
- **Pills Sticking:** If pills are sticking to the bottom or sides, ensure the compartments are completely dry after cleaning. Some pills may have a coating that can become tacky with moisture.
- **Labels Fading:** While designed for long-lasting labels, avoid excessive scrubbing or exposure to harsh chemicals on the printed areas.
