MAINTENANCE AND CARE

To ensure the longevity and appearance of your Teraves desk, follow these simple maintenance guidelines:

- **Cleaning:** The desk surface is easy to care for. Wipe it clean with a dry cloth. For spills, use a slightly damp cloth and dry immediately. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Stability Check:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary to maintain the desk's stability.
- **Weight Distribution:** Distribute weight evenly across the desktop and shelves to prevent undue stress on any single point. The maximum recommended weight capacity is 300 pounds.
- **Protection:** While the wood board is described as waterproof, it is advisable to use coasters for drinks and avoid prolonged exposure to liquids to prevent potential damage.

TROUBLESHOOTING

Most common issues can be resolved by ensuring proper assembly and adjustment.

- **Desk Wobbles:** If the desk feels unstable, check the following:
 - a. Ensure all assembly screws are securely tightened.
 - b. Adjust the leg pads on the bottom of the desk legs to compensate for uneven floor surfaces. Rotate the pads until the desk is level and stable.
