SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Ensure the voltage matches your power supply.
- Do not immerse the appliance in water or other liquids.
- Keep out of reach of children.
- Do not touch hot parts, steam head, or hot water.
- Unplug from outlet when not in use and before cleaning.
- Do not operate with a damaged cord or plug.
- Use only distilled or demineralized water to prevent mineral buildup.

PRODUCT COMPONENTS

Familiarize yourself with the parts of your SteamOne Unilys UNI900GB steamer:

- Main Unit (Base)
- Removable Water Tank (1.2L capacity)
- Telescopic Pole
- Steam Hose
- Steam Head with ergonomic handle
- Accessory Holder
- Power Cord

Included Accessories:

- Mini-rack
- Trouser clip
- Fabric brush
- Mini-board
- Protective glove

SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Assemble Telescopic Pole:** Extend the telescopic pole and secure it into the designated slot on the main unit. Ensure it is firmly in place.
3. **Attach Accessory Holder:** Slide the accessory holder onto the telescopic pole at a convenient height.
4. **Fill Water Tank:** Remove the 1.2L water tank from the main unit. Fill it with distilled or demineralized water. Do not overfill.

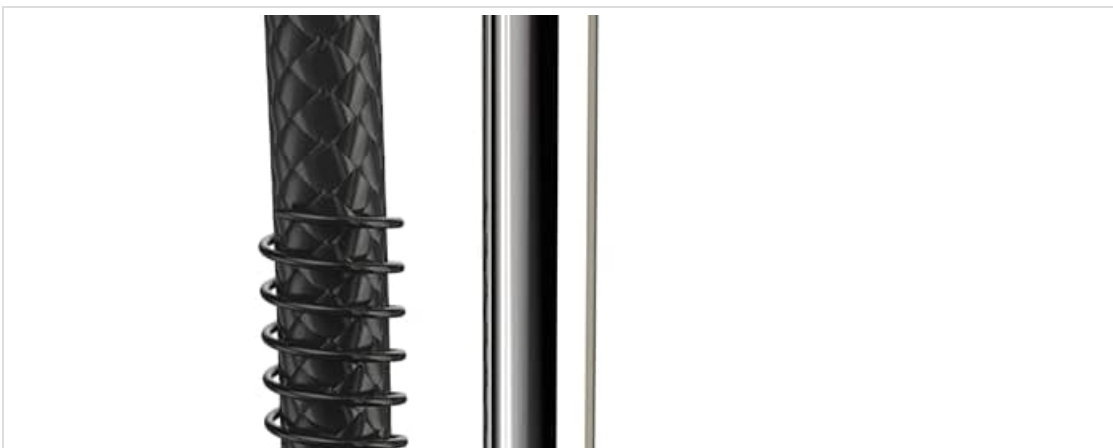

Image: Close-up view of the SteamOne Unilys UNI900GB's base unit, highlighting the water tank and its filling port.

5. **Insert Water Tank:** Place the filled water tank back into the main unit, ensuring it is seated correctly.

6. **Connect Power:** Plug the power cord into a suitable electrical outlet.

OPERATING INSTRUCTIONS

1. **Power On:** Press the power button on the main unit. The steamer will begin to heat up. It takes approximately 60 seconds to reach operating temperature.

2. **Prepare Garment:** Hang the garment on a hanger on the accessory holder or use the mini-rack/trouser clip.

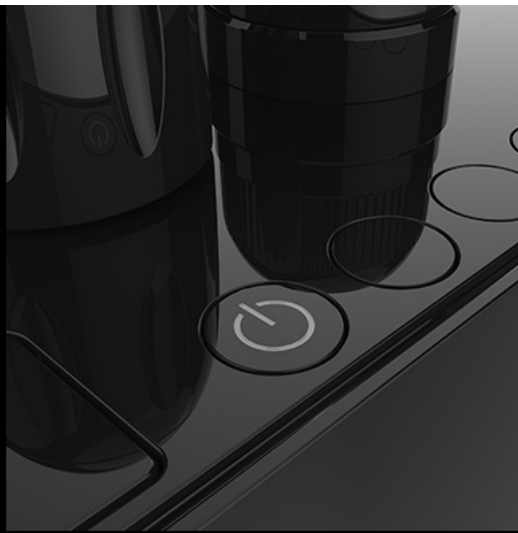

Image: The base of the SteamOne Unilys UNI900GB steamer, showing the included mini-rack and trouser clip accessories attached to the pole.

3. Steaming Technique:

- Pull the garment taut with one hand while holding the steam head with the other.
- Ensure the steam head's soleplate is flat against the fabric.
- Move the steam head from top to bottom over the fabric.
- Do not point the steam head directly downwards or hold it in one spot for too long.

Performant

Une chaudière de 1900W et un débit vapeur de 40g/min vous permettent de défroisser et d'assainir vos textiles en un rien de temps.

Complet

Avec ses nombreux accessoires, défroisser est devenu un jeu d'enfant. Obtenez des tenues impeccables.

Image: Visual guide demonstrating correct steaming techniques: pulling the garment, keeping the soleplate flat, moving top-down, and avoiding downward pointing.

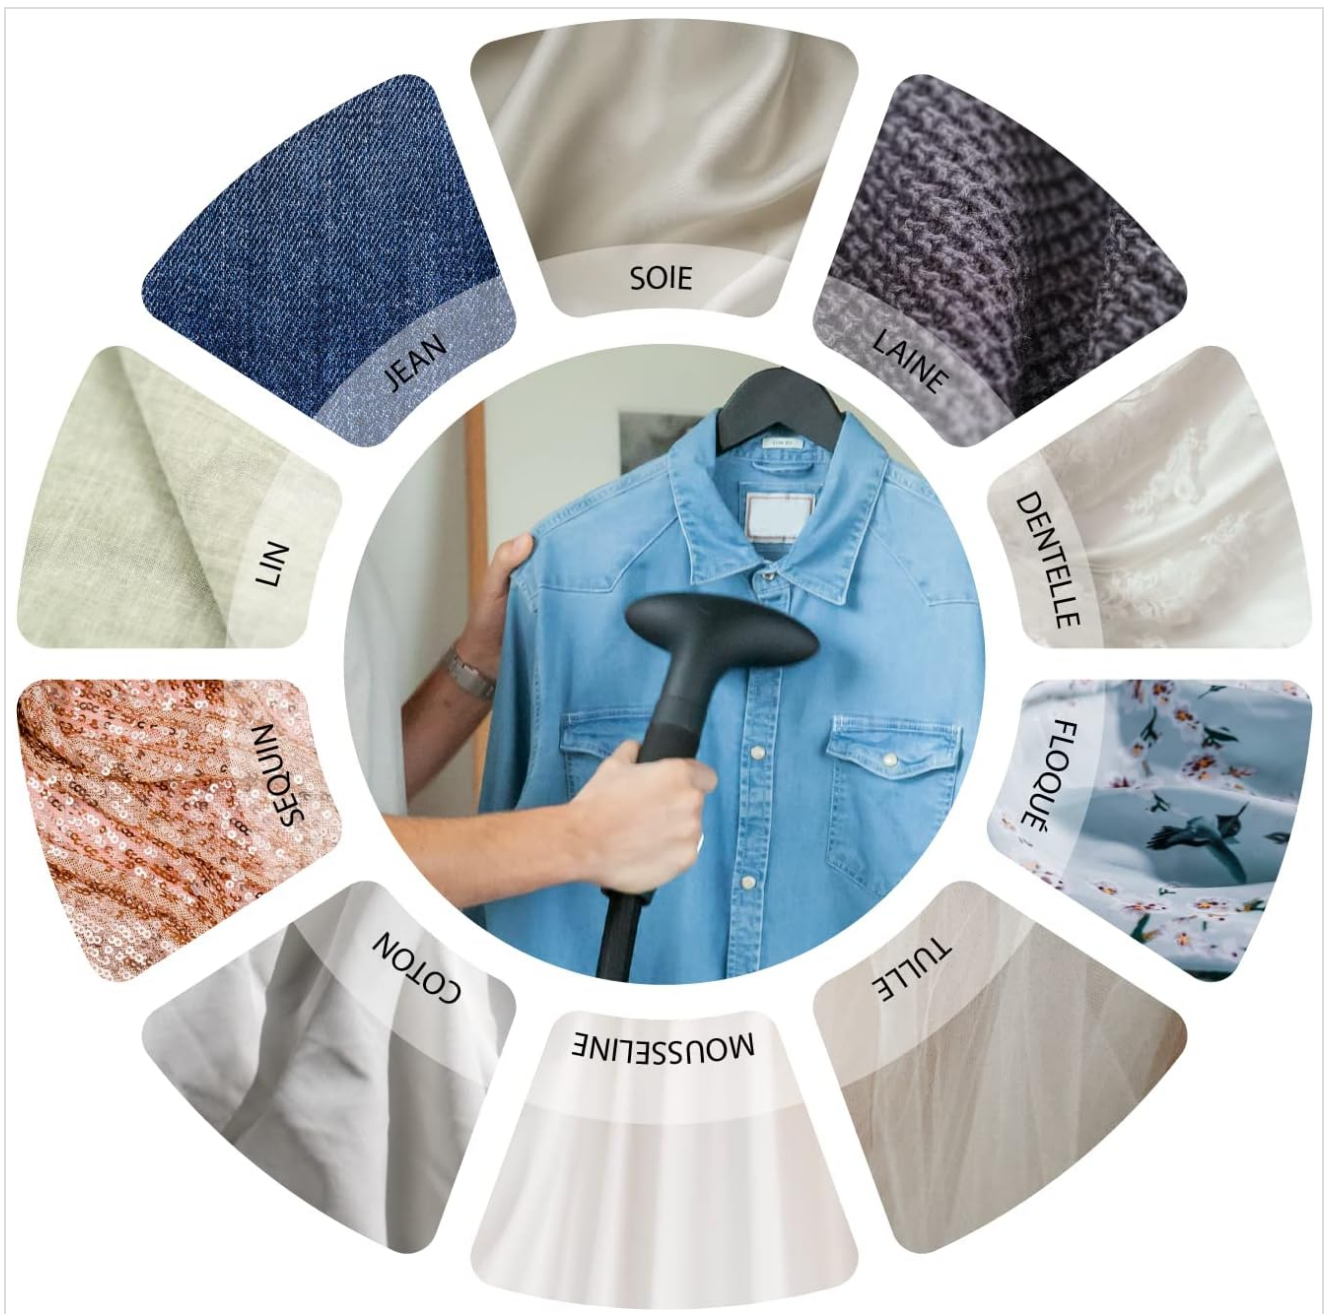

Image: A side-by-side comparison showing a wrinkled white shirt (before) and the same shirt smooth and wrinkle-free (after) using the SteamOne Unilys UNI900GB steamer.

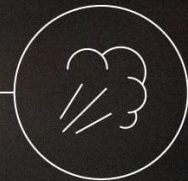

4. Using Accessories:

- The *fabric brush* can be attached to the steam head to remove lint and open fabric weaves for deeper steam penetration.
- The *mini-board* provides a flat surface for collars, cuffs, and pockets.
- The *protective glove* is recommended for handling hot garments and protecting your hand from steam.

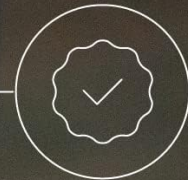

AUTONOMIE

Capacité réservoir 1,2L
pour 30 min d'autonomie

FACILE D'UTILISATION
1 mode de vapeur unique

COMPLET

5 accessoires inclus :

5. **Steaming Different Fabrics:** The steamer is suitable for all types of fabrics, including delicate materials.

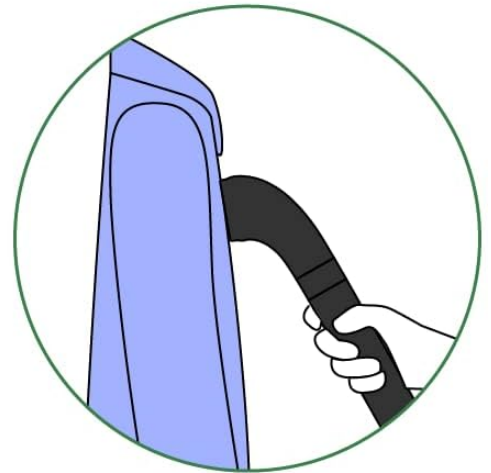

Image: Illustration showing the versatility of the steamer across different fabric types such as denim, silk, wool, lace, flocked fabrics, tulle, muslin, cotton, sequins, and linen.

6. Steaming Household Items: The steamer can also be used on various household textiles.

GUIDE D'UTILISATION

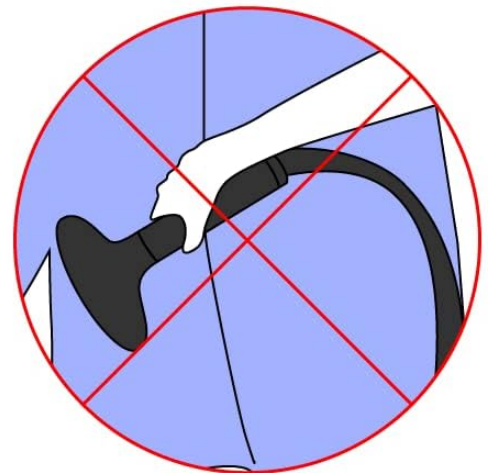

Tirez le vêtement vers vous pour le steamer correctement

Veillez toujours à ce que la semelle soit bien à plat sur le tissu

Déplacez toujours la tête de diffusion du haut vers le bas

Ne placez pas la tête de diffusion vers le bas

Image: Illustration demonstrating the SteamOne Unilys UNI900GB steamer's use on household items like tablecloths, sofas, cushions, bedding, plush toys, towels, carpets, covers, and curtains.

7. **Power Off:** When finished, press the power button to turn off the steamer and unplug it from the outlet.

MAINTENANCE

Cleaning the Water Tank:

- Empty any remaining water from the tank after each use.
- Rinse the tank with clean water.
- For mineral buildup (if using tap water, which is not recommended), use a descaling solution as per the solution's instructions, or a mixture of white vinegar and water. Rinse thoroughly afterwards.

General Cleaning:

- Wipe the exterior of the steamer with a soft, damp cloth.
- Do not use abrasive cleaners or solvents.

- Ensure the appliance is unplugged and cool before cleaning.

Storage:

- Ensure the steamer is completely cool and dry before storing.
- Collapse the telescopic pole for compact storage.
- Store the steamer and its accessories in a dry, safe place.

TROUBLESHOOTING

This section addresses common issues you might encounter with your steamer. If the problem persists, please contact customer support.

Problem	Possible Cause	Solution
No steam or low steam output	Water tank empty; steamer not heated sufficiently; mineral buildup.	Refill water tank; allow 60 seconds for heating; descale the unit.
Water leaking from steam head	Condensation; overfilling water tank; mineral buildup.	Ensure steamer is fully heated before use; do not overfill; descale.
Steamer not turning on	Not plugged in; power outlet issue; power button not pressed.	Check power connection; try a different outlet; press power button firmly.
