

## TIMEMORE Chestnut G1 Plus

# TIMEMORE Chestnut G1 Plus Manual Coffee Grinder User Manual

Model: G1 Plus  
Brand: TIMEMORE

## INTRODUCTION

This manual provides instructions for the safe and efficient operation, maintenance, and care of your TIMEMORE Chestnut G1 Plus Manual Coffee Grinder. Please read this manual thoroughly before first use and retain it for future reference.

## Safety Information

- Keep out of reach of children.
- Do not immerse the grinder in water.
- Use only for grinding roasted coffee beans.
- Handle burrs with care as they are sharp.

## PRODUCT OVERVIEW

The TIMEMORE Chestnut G1 Plus is a high-quality manual coffee grinder designed for consistent and uniform grinding. It features a unique square-round aluminum alloy body, a walnut wood handle, and titanium-coated E&B burrs.

## Key Features

- **Titanium Coated E&B Stainless Steel Burrs:** Designed for both espresso and brewing, offering high grinding efficiency and uniformity.
- **Adjustable Grind Setting:** 36-click internal adjustment dial for various brewing methods (espresso, pour over, French press).
- **Durable Construction:** Aluminum alloy body with walnut wood accents for comfortable grip and aesthetic appeal.
- **Labor-Saving Design:** Ergonomic handle and sharp burrs contribute to smooth and easy grinding.

## Components

The TIMEMORE Chestnut G1 Plus typically includes:

- Grinder Body (with integrated burr set)
- Handle
- Walnut Wood Powder Container
- Cleaning Brush
- Canvas Carrying Bag

## SETUP

---

1. **Unpack:** Carefully remove all components from the packaging.
2. **Inspect:** Check for any damage during transit.

- 3. **Initial Cleaning:** Before first use, wipe down the exterior with a damp cloth. Use the provided brush to clean the burrs and powder container to remove any manufacturing residue.
- 4. **Assemble Handle:** Attach the handle to the grinder shaft. Ensure it is securely fitted.

## OPERATING INSTRUCTIONS

### Adjusting Grind Size

The G1 Plus features an internal grind adjustment mechanism.

- 1. Remove the handle and the top lid.
- 2. Turn the adjustment dial located beneath the burrs. Turning clockwise results in a finer grind, and counter-clockwise results in a coarser grind.
- 3. Refer to the table below for recommended starting points. Each click represents a step in grind size.

Image: Close-up of the internal grind adjustment dial and visual examples of fine, medium, medium-coarse, and coarse coffee grounds.

Recommended Grind Settings (Starting Points)

Brewing Method	Grind Size	Clicks (Approx.)
Espresso	Very Fine	6-12
Pour Over	Medium	18-24
French Press	Coarse	28-36

Note: These are starting recommendations. Adjust based on your specific brewing equipment and taste preference.

### Grinding Coffee

- 1. **Load Beans:** Open the top lid and pour roasted coffee beans into the hopper. The capacity is approximately 25g.
- 2. **Secure Lid:** Place the lid back on and ensure it is secure.

3. **Grind:** Hold the grinder body firmly with one hand and rotate the handle clockwise with the other. Continue grinding until all beans have passed through the burrs and into the powder container.
4. **Collect Grounds:** Unscrew the bottom powder container to access your freshly ground coffee.

## MAINTENANCE AND CLEANING

---

Regular cleaning ensures optimal performance and longevity of your grinder.

### Daily Cleaning

- After each use, tap the grinder gently to dislodge any remaining coffee grounds.
- Use the provided cleaning brush to sweep out any fine particles from the burrs and powder container.

### Deep Cleaning (Monthly or as needed)

1. **Disassemble:** Remove the handle, top lid, and unscrew the powder container.
2. **Brush Burrs:** Use the cleaning brush to thoroughly clean the inner and outer burrs. You may need to adjust the grind setting to its coarsest to better access the burrs.
3. **Clean Body:** Wipe the aluminum alloy body with a soft, damp cloth. Do not use abrasive cleaners.
4. **Clean Wood Parts:** Wipe the walnut wood handle and powder container with a dry or slightly damp cloth. Avoid excessive moisture.
5. **Reassemble:** Ensure all parts are dry before reassembling the grinder.

**Warning:** Do not wash the grinder body or burr assembly with water. Water can cause rust and damage the internal mechanism.

## TROUBLESHOOTING

---

**Problem:** Grinder feels difficult to turn.

**Solution:** Check if the grind setting is too fine for the type of beans. Try adjusting to a coarser setting. Ensure no foreign objects are in the burrs.

**Problem: Inconsistent grind size.**

**Solution:** Ensure the grind adjustment dial is securely set and has not shifted. Perform a deep clean to remove any accumulated coffee oils or particles that might be affecting burr alignment.

**Problem: Grinder is not grinding beans.**

**Solution:** Check if the hopper is empty. Ensure the burrs are not clogged. If the burrs are completely seized, contact customer support.

## SPECIFICATIONS
