INSTALLATION GUIDE

Follow these steps to properly install your Kindle into the AFesar folio case:

1. Ensure your Kindle is clean and free of dust or debris.
2. Align your Kindle with the hard shell frame of the cover. The screen should face the open side of the cover.
3. Gently press your Kindle into the frame until it snaps securely into place. Ensure all edges are seated correctly within the frame.
4. Verify that all ports (charging, headphone) and buttons (power, page turn) are accessible through the designated cutouts.

USAGE INSTRUCTIONS

The AFesar Kindle cover is designed for straightforward use. Simply open the folio cover to access your Kindle's screen and begin reading. When not in use, close the cover to protect the screen from scratches and dust. The magnetic clasp will help keep the cover securely shut.

CARE AND MAINTENANCE

To maintain the appearance and longevity of your synthetic leather cover, follow these care instructions:

- **Cleaning:** Gently wipe the exterior of the cover with a soft, slightly damp cloth. For stubborn marks, a mild soap solution can be used, followed by wiping with a clean, damp cloth.
- **Avoid Chemicals:** Do not use harsh chemicals, abrasive cleaners, or solvents, as these can damage the synthetic leather material.
- **Storage:** Store the cover away from direct sunlight and extreme temperatures to prevent fading or material degradation.
- **Protection:** While the cover offers fall prevention, avoid dropping your device from significant heights to ensure maximum protection.

TROUBLESHOOTING

Compatibility Issues

If the cover does not fit your device, double-check that your Kindle is indeed a 4th or 5th Generation model (D01100). This cover is not designed for other Kindle models, including the Kindle 5 Touch. Refer to Figure 1 in the Introduction section to verify your device model.

Magnetic Closure Not Engaging

If the magnetic clasp does not securely hold the cover closed, gently check if the metal strip on the cover aligns correctly with the internal magnets. In some rare instances, a slight adjustment or gentle bending of the front cover might be needed to ensure proper alignment and engagement of the magnets. Ensure no foreign objects are obstructing the closure mechanism.
