Mattel Games GXV91

Mattel Games Blokus Shuffle UNO Edition Strategy Board Game Instruction Manual

Model: GXV91

Introduction

The Blokus Shuffle: UNO Edition combines the classic strategy game of Blokus with the unpredictable twists of UNO action cards. Players aim to place all their pieces on the board, adhering to the fundamental Blokus rule: pieces must touch another piece of the same color only at the corners. UNO-themed action cards introduce new dynamics, allowing for rule modifications and strategic plays. This edition features a distinctive black game board that enhances the visual contrast of the colorful Blokus pieces. Designed for 2 to 4 players aged 6 years and older, this game offers a unique challenge for board game enthusiasts.

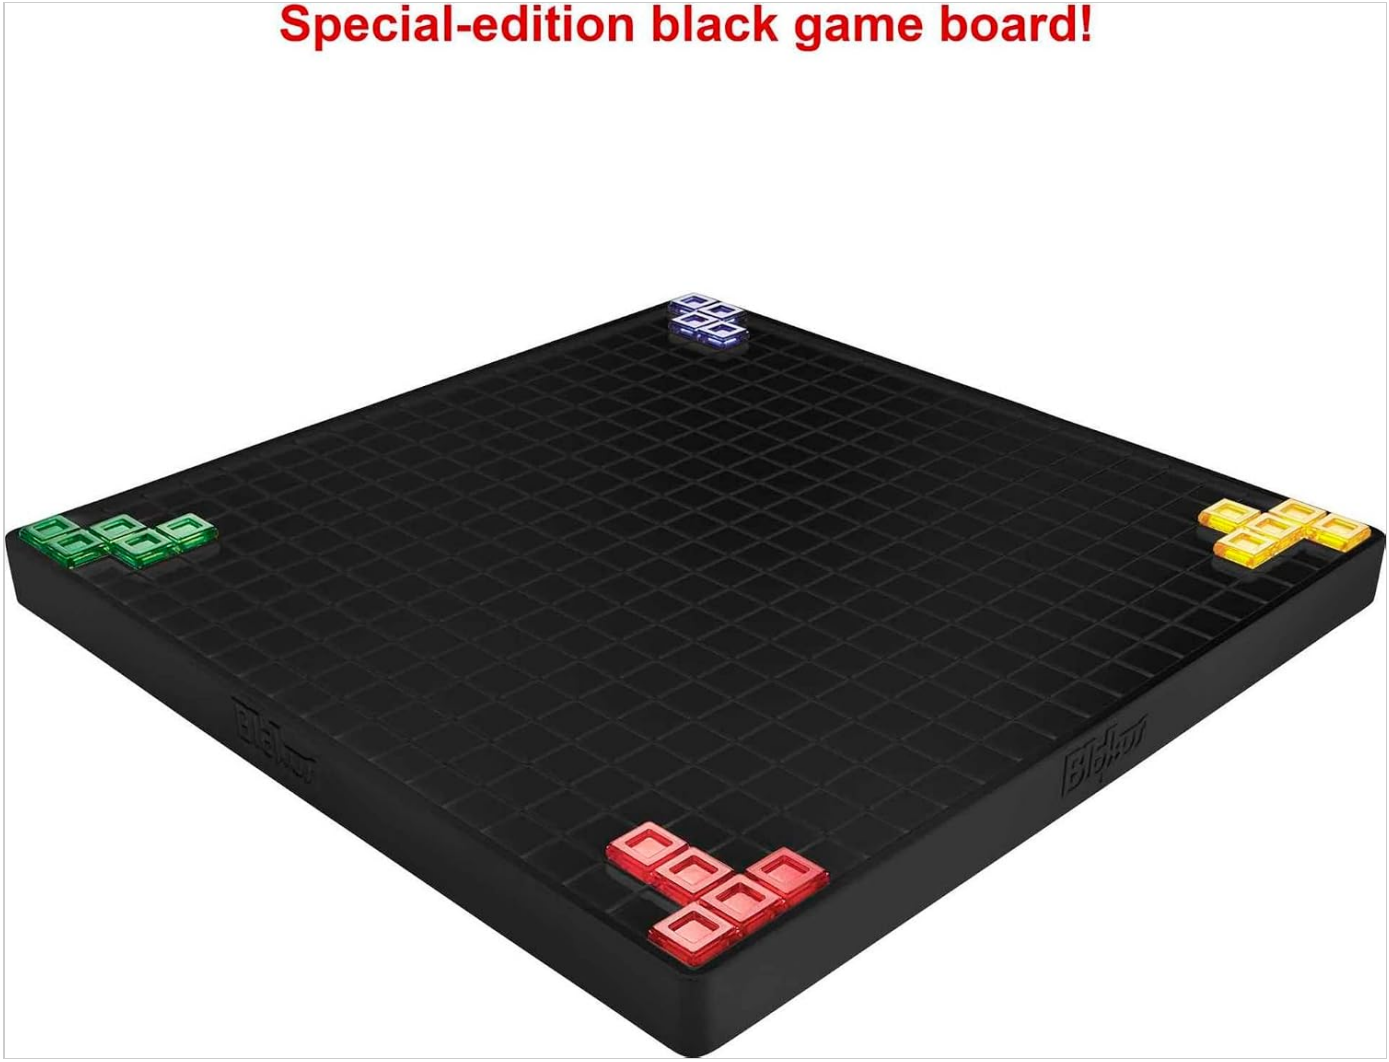

Setup

What's in the Box

- 1 Game Board
- 84 Blokus Pieces in 4 Colors (21 pieces per color: Red, Blue, Green, Yellow)
- 56 UNO-themed Action Cards
- Instructions

Game Preparation

1. Place the black game board in the center of the playing area.
2. Each player chooses a color and takes all 21 Blokus pieces of that color.
3. Shuffle the 56 UNO-themed action cards and deal 2 cards face down to each player. Players keep these cards secret. Place the remaining cards face down to form a draw pile.
4. Determine the first player. Play proceeds clockwise.

The black game board with starting pieces in each corner. Each player begins by placing their first piece in one of the corner squares of their designated color.

Operating: How to Play

1. **Starting the Game:** The first piece played by each player must cover a corner square of the board.
2. **Placing Pieces:**
    - Each new piece played must touch at least one other piece of the same color, but only at the corners.
    - Pieces of different colors may touch along their edges.
    - Pieces cannot overlap.
3. **Using UNO Action Cards:** At the beginning of your turn, before placing a piece, you may choose to play one of your UNO action cards. Follow the instructions on the card. After playing a card, draw a new card from the draw pile to maintain two cards in your hand. If you do not play a card, you do not draw a new one.
4. **Passing:** If a player cannot place any of their remaining pieces, they must pass their turn. Once a player passes, they cannot play any more pieces for the rest of the game.

UNO Action Cards

The 56 UNO-themed action cards introduce unique twists to the traditional Blokus gameplay. These cards allow players to bend or break the standard rules, creating dynamic and unpredictable game turns. Each player starts with two action cards and draws a new one after playing a card.

A selection of UNO-themed action cards, each featuring a unique symbol representing its effect on gameplay. These cards introduce strategic variations to piece placement.

Examples of action cards include:

- **Skip:** Skips the next player's turn.
- **Reverse:** Reverses the direction of play.
- **Wild:** Allows you to place a piece of any color, or modify placement rules for your turn. Specific effects are detailed on each card.
- Other cards may allow placing pieces adjacent to your own color, moving opponent's pieces, or drawing extra pieces. Refer to the detailed instructions provided in the box for specific card effects.

This video demonstrates the basic gameplay and how UNO action cards are integrated into Blokus Shuffle. It provides a visual guide to understanding the game mechanics.

Winning the Game

The objective of Blokus Shuffle: UNO Edition is to be the player who places the most pieces on the board. The game ends when no player can place any more pieces. Players then count the number of squares in their remaining unplayed pieces. The player with the fewest remaining squares wins the game. If there's a tie, the player who used more UNO action cards might be considered the winner (check specific rules for tie-breaking).

A game board nearing completion, illustrating how players strategically place their pieces to cover as much area as possible while adhering to placement rules.

Maintenance

To ensure the longevity of your Blokus Shuffle: UNO Edition game, follow these maintenance guidelines:

- **Storage:** Store all game components (board, pieces, cards) in their original box or a suitable container in a dry, cool

place away from direct sunlight.

- **Cleaning:** Wipe the game board and plastic pieces with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed by immediate drying. Do not use harsh chemicals or abrasive cleaners. Keep cards dry and clean.
- **Handling:** Handle game pieces and cards with care to prevent bending, tearing, or loss.

Troubleshooting

If you encounter any issues or have questions during gameplay, consider the following:

- **Rule Clarification:** The UNO action cards introduce new rules. Always refer to the instruction manual for specific card effects if there is any confusion. Some cards may allow actions not typically permitted in standard Blokus.
- **Missing Pieces/Cards:** Carefully check the game box and playing area. If components are genuinely missing from a new set, contact Mattel customer support.
- **Difficulty for Younger Players:** For younger players, consider playing a few rounds without the UNO action cards first to master the basic Blokus rules before introducing the additional complexity.

Specifications

Brand Name	Mattel Games
Model Number	GXV91
Genre	Strategy Board Game
Number of Players	2-4
Age Range Description	7 years and up
Included Components	1 game board, 84 Blokus pieces in 4 colors, 56 UNO-themed action cards, instructions
