## SHARP 2T-C32DE

# SHARP AQUOS 2T-C32DE 32V LCD TV Instruction Manual

Model: 2T-C32DE

## INTRODUCTION

---

Thank you for purchasing the SHARP AQUOS 2T-C32DE 32V LCD TV. This manual provides essential information for the safe and efficient use of your television. Please read it thoroughly before operating the unit and keep it for future reference. This television features a dual tuner for recording programs to an external USB HDD while watching another, a reflector structure for clear front-facing sound, and a 'Clear Voice' button for enhanced dialogue clarity. It also supports easy stand assembly, home network functions for enjoying recorded content from AQUOS Blu-ray recorders in other rooms, and AQUOS Time Shift functionality when combined with an AQUOS Blu-ray recorder.

## 3. Connecting Cables

- **Power Cable:** Connect the power cable to the TV and then to a wall outlet.
- **Antenna Cable:** Connect your terrestrial digital, BS, or CS antenna cable to the corresponding input on the TV.
- **HDMI Devices:** Connect external devices such as Blu-ray players or game consoles to the HDMI ports (HDMI x2).
- **USB Devices:** Connect external USB HDDs for recording or streaming devices to the USB ports (USB x2).

## 4. Initial Setup

Upon first power-on, the TV will guide you through the initial setup process, including language selection, region settings, and channel tuning. Follow the on-screen instructions.

## OPERATING INSTRUCTIONS

### 1. Basic TV Operation

- **Power On/Off:** Press the power button on the remote control or the TV.

- **Channel Selection:** Use the number buttons or CH +/- buttons on the remote.
- **Volume Adjustment:** Use the VOL +/- buttons on the remote.
- **Input Selection:** Press the 'Input' button to switch between HDMI, USB, and other inputs.

## 2. Clear Voice Function

To enhance dialogue clarity, use the 'Clear Voice' button on your remote control. This function adjusts high and low frequencies to make human voices easier to hear.

## MAINTENANCE

### Cleaning the Screen

- Turn off the TV and unplug the power cord before cleaning.
- Gently wipe the screen with a soft, dry, lint-free cloth. For stubborn smudges, lightly dampen the cloth with water or a specialized screen cleaner. Do not spray cleaner directly onto the screen.
- Avoid using abrasive cloths, solvents, or alcohol-based cleaners, as these can damage the screen surface.

### Cleaning the Cabinet

- Wipe the TV cabinet with a soft, dry cloth.
- For heavier dirt, use a cloth lightly dampened with mild detergent and water, then wipe dry immediately.

## TROUBLESHOOTING

If you encounter any issues with your TV, please refer to the following common solutions. For more detailed troubleshooting,

consult the comprehensive instruction manual included with your product or visit the SHARP support website.

- **No Power:**

- Ensure the power cord is securely plugged into both the TV and the wall outlet.
- Check if the power outlet is functioning by plugging in another device.
- Try pressing the power button on the TV itself, not just the remote.

- **No Picture/Sound:**

- Verify that the correct input source is selected (e.g., HDMI 1, TV).
- Check all cable connections (HDMI, antenna) are secure.
- If using an external device, ensure it is powered on and functioning correctly.
- For no sound, check the volume level and ensure mute is not activated.

- **Remote Control Not Working:**

- Replace the batteries in the remote control.
- Ensure there are no obstructions between the remote and the TV's remote sensor.

- **Poor Picture Quality:**

- Check antenna connections and signal strength.
- Adjust picture settings (brightness, contrast, sharpness) in the TV menu.
- If using an external device, check its output resolution.
