3. Setup and Unboxing

Upon receiving your Tom Ford sunglasses, carefully open the packaging. Inside, you will find the sunglasses, a protective case, and a cleaning cloth. Remove the sunglasses from their protective sleeve. Inspect the frame and lenses for any signs of damage during transit. Your sunglasses are ready to wear directly out of the box.

4. Operating and Usage

These sunglasses are designed for daily wear to protect your eyes from harmful UV rays and reduce glare. To wear, gently unfold the temples and place the sunglasses on your face, ensuring a comfortable fit over your ears and on the bridge of your nose. The smoke lenses provide excellent sun protection suitable for various light conditions.

- **Putting On:** Hold the sunglasses by the frame and gently place them on your face.
- **Taking Off:** Use both hands to remove the sunglasses to avoid bending the temples or frame.
- **Storage:** When not in use, always store your sunglasses in the provided protective case to prevent scratches and damage.

5. Maintenance and Care

Proper care will extend the life and maintain the clarity of your Tom Ford sunglasses.

- **Cleaning Lenses:** Use the provided microfiber cleaning cloth to gently wipe the lenses. For stubborn smudges, use a specialized lens cleaning spray or mild soap and water, then dry with the cloth. Avoid using paper towels or abrasive materials, which can scratch the lenses.
- **Cleaning Frame:** Wipe the frame with a soft, damp cloth.
- **Avoid Extreme Temperatures:** Do not leave sunglasses in direct sunlight in a car or other hot environments, as extreme heat can warp the frame and damage the lens coatings.
- **Chemicals:** Avoid contact with harsh chemicals, solvents, or alcohol-based cleaners, as these can damage the frame and lens coatings.
- **Handling:** Always handle your sunglasses by the frame, not the lenses, to avoid fingerprints and smudges.

6. Troubleshooting

Problem	Possible Cause	Solution
Lenses appear cloudy or scratched.	Improper cleaning or abrasive contact.	Clean with microfiber cloth and lens cleaner. If scratched, professional repair or replacement may be needed.
Sunglasses feel loose or crooked.	Screws on hinges may be loose or frame slightly bent.	Gently tighten hinge screws with a small eyewear screwdriver. If frame is bent, visit an optician for adjustment.
Discomfort when wearing.	Improper fit or pressure points.	Adjust nose pads (if applicable) or visit an optician for professional fitting.
