

Fila Weathertech Lt Sr

Fila Men's Weathertech Lt Sr User Manual

Model: Weathertech Lt Sr

INTRODUCTION

Thank you for choosing the Fila Men's Weathertech Lt Sr shoes. These shoes are designed to provide comfort and durability, featuring a slip-resistant sole suitable for various environments. This manual will guide you through the proper use and care of your new footwear to ensure a long-lasting and comfortable experience.

FIRST USE & SETUP

Upon receiving your Fila Weathertech Lt Sr shoes, inspect them for any visible damage. Before the first wear, it is recommended to:

1. **Lace Adjustment:** Loosen the laces and the adjustable velcro strap to allow your foot to slide in comfortably.
2. **Initial Fit:** Insert your foot and gently tighten the laces, ensuring they are snug but not overly tight. Secure the velcro strap for additional ankle support.
3. **Walk Test:** Take a few steps to ensure the fit is comfortable and there are no pressure points. Adjust as necessary.

WEARING & OPERATION

The Fila Weathertech Lt Sr shoes are designed for everyday wear, offering support and slip resistance. Follow these guidelines for optimal use:

- **Proper Lacing:** Ensure laces are evenly tightened across the foot to prevent discomfort or excessive movement within the shoe. The metal D-ring eyelets provide secure lacing.
- **Velcro Strap:** The adjustable velcro strap with the molded F-Box logo provides additional ankle stability. Adjust it to a comfortable tension.
- **Slip Resistance:** The outsole is engineered for slip resistance. While effective, always exercise caution on wet or slippery surfaces.

MAINTENANCE & CARE

To prolong the life and appearance of your Fila Weathertech Lt Sr shoes, follow these maintenance tips:

- **Cleaning:** For synthetic leather and synthetic materials, wipe shoes with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** Allow shoes to air dry naturally at room temperature. Do not expose them to direct heat sources like radiators or direct sunlight, as this can damage the materials.
- **Storage:** Store shoes in a cool, dry place away from direct sunlight when not in use.
- **Odor Control:** If odors develop, remove insoles and allow them to air out. Shoe deodorizers can also be used.

TROUBLESHOOTING

If you encounter any issues with your Fila Weathertech Lt Sr shoes, consider the following common solutions:

- **Discomfort/Rubbing:** Ensure laces are not too tight or too loose. Check sock thickness. If discomfort persists, consider trying different insoles or consulting a footwear specialist.
- **Squeaking:** Sometimes new shoes may squeak. This often resolves with wear. If not, try applying a small amount of baby powder under the insole.
- **Reduced Slip Resistance:** Regularly clean the outsole to remove dirt and debris that can reduce traction. Inspect the sole for excessive wear.
