OPERATING INSTRUCTIONS

This floor sofa chair is designed for easy conversion between different positions.

Converting Positions (Sofa, Lounger, Bed)

The chair can be adjusted into three main configurations: sofa, lounger, and flat bed. To change the position, gently push the backrest forward until you hear a click, then slowly lower it to the desired angle. Repeat this process to flatten it completely into a bed or raise it back to a sofa position.

TROUBLESHOOTING

Backrest Does Not Stay Up / Lock in Position

If the backrest does not lock securely in an upright position, or if it tends to fold forward:

- Ensure you are pushing the backrest fully forward until it clicks through all available positions before attempting to set it at your desired angle. Sometimes, the mechanism needs to cycle through all settings to reset.
- Verify that no obstructions (such as fabric folds or debris) are preventing the locking mechanism from engaging properly.
- If the issue persists, try adjusting the backrest while applying slight downward pressure to help the mechanism engage.
- If the mechanism appears faulty, contact customer support for assistance.
