LIKIMIO HK-FBF-05

LIKIMIO Full Bed Frame with Headboard

Model: HK-FBF-05

Introduction

Thank you for purchasing the LIKIMIO Full Bed Frame with Headboard. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed frame. Please read it thoroughly before beginning assembly and retain it for future reference.
This bed frame is designed for a full-size mattress and features a sturdy metal construction with a vintage brown MDF headboard, offering a noise-free and stable sleeping solution with ample under-bed storage.

Safety Information

- Read all instructions carefully before assembly.
- Ensure all parts are present and undamaged before starting. Do not use if any parts are missing or broken.
- Assemble the bed frame on a soft, clean surface (e.g., carpet) to prevent scratching.
- Do not fully tighten screws until all components are loosely assembled.
- Periodically check and re-tighten all connections to ensure stability.
- Do not exceed the maximum weight capacity of 1100 lbs (500 kg).
- Keep small parts away from children during assembly.

Setup and Assembly

The LIKIMIO Full Bed Frame is designed for easy assembly. It is recommended to have two people for assembly, though one person can complete it.

Package Contents

Verify that all components listed in your product's included instruction sheet are present. Typically, the package includes:

- Headboard components (MDF panels, metal frame parts)
- Side rails and footboard

- Support legs
- Metal slats
- Hardware pack (screws, bolts, Allen wrench)

Assembly Steps

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface. Refer to the parts list in your manual to identify each piece.
2. **Assemble the Headboard:** Attach the MDF headboard panels to the designated metal frame sections using the provided hardware. Do not fully tighten screws yet.
3. **Attach Side Rails:** Connect the side rails to the assembled headboard and footboard. Ensure the connections are secure but still allow for minor adjustments.
4. **Install Support Legs:** Attach any central support legs to the frame as indicated in your manual. These are crucial for stability.
5. **Place Metal Slats:** Lay the metal slats across the frame. Secure them to the side rails using the provided fasteners or by slotting them into place. Ensure even spacing.
6. **Final Tightening:** Once all parts are in place and the frame is aligned, systematically tighten all screws and bolts using the Allen wrench. Ensure all connections are firm and secure.
7. **Inspect:** Double-check all connections for tightness and ensure the bed frame is stable and level before placing a mattress on it.

Operating Instructions

- **Mattress Placement:** Carefully place your full-size mattress directly onto the metal slats. No box spring is required for this platform bed frame.
- **Weight Capacity:** Ensure the total weight on the bed (mattress, occupants, and any other items) does not exceed 1100 lbs (500 kg).
- **Under-Bed Storage:** Utilize the 12.2 inches of clearance under the bed for storage. This space is ideal for bins, suitcases, or other items to keep your room tidy.

Image: A visual representation of the 12.2-inch under-bed clearance, demonstrating how storage containers and luggage can be neatly placed.

Maintenance

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. For the MDF headboard, use a dry or slightly damp cloth.

Avoid harsh chemicals or abrasive cleaners.

- **Hardware Check:** Periodically (every 3-6 months) inspect all bolts and screws. Re-tighten any that have become loose to maintain the frame's stability and prevent squeaking.
- **Movement:** When moving the bed frame, lift it rather than dragging it to prevent damage to the frame or your flooring.

Troubleshooting

Problem	Possible Cause	Solution
Squeaking noises	Loose bolts or connections.	Tighten all bolts and screws. Ensure all slats are properly seated.
Bed frame feels unstable	Not all bolts are fully tightened; uneven floor.	Ensure all hardware is securely fastened. Check if the floor is level; use shims if necessary.
Parts do not align during assembly	Hardware tightened too early; incorrect part orientation.	Loosen all hardware, re-align parts, then gradually tighten. Refer to the assembly diagram.

Specifications

Model Number	HK-FBF-05
Size	Full
Product Dimensions (L x W x H)	78"L x 53.9"W x 39.8"H
Material	Metal Slat Support + MDF Headboard
Color	Vintage Brown
Weight Capacity	1100 lbs
Under-Bed Clearance	12.2 inches
Assembly Required	Yes
