Feit Electric GLP17/B/TABLE/14WLED

Feit Electric GLP17/B/TABLE/14WLED Tabletop 17" LED Grow Light User Manual

Model: GLP17/B/TABLE/14WLED

IMPORTANT SAFETY INSTRUCTIONS

WARNING: To avoid electric shock, always unplug the unit before cleaning or performing any maintenance. Do not immerse the unit in water. Do not operate with a damaged cord or plug. For indoor use only.

- Read all instructions before using this product.
- Do not look directly into the LED lights.
- Ensure the product is placed on a stable, flat surface.
- Keep away from water and moisture.
- Do not attempt to modify or repair the unit yourself. Contact qualified service personnel.

PACKAGE CONTENTS

Verify that all components are present before assembly.

- 1x LED Grow Light Fixture (Integrated with stand and base)
- 1x Power Adapter
- 1x User Manual (This document)

SETUP AND INSTALLATION

The Feit Electric GLP17/B/TABLE/14WLED grow light is designed for easy tabletop placement and requires minimal assembly.

1. **Unpack:** Carefully remove all components from the packaging.
2. **Placement:** Place the grow light on a stable, flat surface where your plants will receive adequate light. Ensure there is enough space around the unit for proper ventilation.
3. **Connect Power:** Insert the power adapter into the power port on the back or side of the grow light base. Plug the other end of the power adapter into a standard electrical outlet (120V AC).

4. **Positioning:** Position the light approximately 6-12 inches above the plant canopy, adjusting as plants grow.

OPERATION

The grow light features touch controls for power and spectrum mode selection.

Power On/Off

- **To Turn On:** Gently touch the power button located on the base of the unit. The light will illuminate in the last used spectrum mode.
- **To Turn Off:** Touch the power button again.

Spectrum Modes

This grow light offers three distinct spectrum modes optimized for different plant growth stages:

1. **Seeding Mode:** Ideal for germination and young seedlings. Provides a spectrum rich in blue light to encourage strong root development and compact growth.
2. **Vegetation Mode:** Suitable for the vegetative growth phase, promoting lush foliage and overall plant health. This mode typically balances blue and red light.
3. **Flowering Mode:** Designed to support the flowering and fruiting stages, with a spectrum emphasizing red light to stimulate bloom production.

To Change Mode: With the light on, repeatedly touch the mode selection button to cycle through the Seeding, Vegetation, and Flowering modes. The light will visually change to indicate the selected spectrum.

Vegetation Mode

LIGHTING SUMMARY, HORTICULTURAL APPLICATION					
Voltage (VAC)		120	PPF/PAR (μmol/s)		17.6
Current (A)		0.23	PPF/PAR efficacy (μmol/J)		1.3
Power (W)		14			
Range (nm)		Photon Flux (μmol/s)	Luminous Flux (lm)		1200
400-499		5.2	CCT (K)		6500
500-599		8.0	CRI (Ra)		80
600-700		4.4			
Normalized Photon Flux					

Seeding Mode

LIGHTING SUMMARY, HORTICULTURAL APPLICATION

Voltage (VAC)	120	PPF/PAR (μmol/s)	17.5
Current (A)	0.22	PPF/PAR efficacy (μmol/J)	1.3
Power (W)	13		

Range (nm)	Photon Flux (μmol/s)	Luminous Flux (lm)	1089
400-499	6.6	CCT (K)	10665
500-599	7.1	CRI (Ra)	88
600-700	3.8		

Normalized Photon Flux

Flowering Mode

LIGHTING SUMMARY, HORTICULTURAL APPLICATION

Voltage (VAC)	120	PPF/PAR (μmol/s)	16.0
Current (A)	0.22	PPF/PAR efficacy (μmol/J)	1.2
Power (W)	13		

Range (nm)	Photon Flux (μmol/s)	Luminous Flux (lm)	936
400-499	3.7	CCT (K)	4667
500-599	5.6	CRI (Ra)	92
600-700	6.7		

Normalized Photon Flux

Regular maintenance ensures optimal performance and longevity of your grow light.

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe down the light fixture and base. Do not use abrasive cleaners or solvents.
- **Dust Removal:** Periodically remove any dust accumulation from the LED panel to maintain light output efficiency.
- **Storage:** If storing the unit for an extended period, unplug it, clean it, and store it in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	No power supply; loose connection; faulty outlet.	Check if the power adapter is securely plugged into both the light and the wall outlet. Test the outlet with another device.
Light flickers or dims.	Unstable power supply; loose connection.	Ensure all connections are secure. Try plugging into a different outlet.
Cannot change spectrum mode.	Incorrect button press; temporary software glitch.	Ensure you are pressing the correct mode selection button. Unplug the unit for 30 seconds and plug it back in to reset.

If the problem persists after trying these solutions, please contact Feit Electric customer support.

SPECIFICATIONS

Feature	Detail
Model Number	GLP17/B/TABLE/14WLED
Brand	Feit Electric
Wattage	14 Watts
Light Source Type	LED
Product Dimensions	9.84"D x 7"W x 17"H
Item Weight	1.32 Pounds
Input Voltage	120 Volts (AC)
Control Method	Touch
Indoor/Outdoor Usage	Indoor
Rated Life Hours	25,000 Hours
Spectrum Modes	Seeding, Vegetation, Flowering
Material	Plastic
UPC	017801719574
