Charging and Battery

The G915 provides approximately 30 hours of non-stop gaming on a single full charge. Low battery warnings are indicated by the keyboard battery LED and via pop-up notifications in the Logitech G HUB software. The keyboard quickly recharges in about 3 hours via the included USB cable.

MAINTENANCE

To ensure the longevity and optimal performance of your Logitech G915 keyboard, follow these general maintenance guidelines:

- Keep the keyboard clean by regularly dusting the keys and surface with a soft, dry cloth.
- Avoid spilling liquids on the keyboard. In case of a spill, immediately disconnect the keyboard and allow it to dry completely before reconnecting.
- Do not use harsh chemicals or abrasive materials for cleaning.

- Store the keyboard in a cool, dry place when not in use for extended periods.

TROUBLESHOOTING

If you encounter any issues with your Logitech G915 keyboard, consider the following basic troubleshooting steps:

- **No Power/Not Responding:** Ensure the keyboard is charged. Connect it via the USB cable to confirm if it powers on.
- **Connectivity Issues:** Verify that the LIGHTSPEED USB receiver is securely plugged into a USB port. If using Bluetooth, ensure Bluetooth is enabled on your device and the keyboard is in pairing mode. Try re-pairing the device.
- **Key Malfunction:** Ensure no debris is lodged under the keycap. If issues persist, consult Logitech's official support resources.
- **Software Issues:** Ensure Logitech G HUB software is up-to-date. Restart the software or your computer.

For more detailed troubleshooting or persistent issues, please refer to the official Logitech support website or contact their customer service.
