

Nania Torino

Nania Torino Car Seat Instruction Manual

Model: Torino | Height Range: 76-150 cm | Weight Range: 9-36 kg

1. INTRODUCTION AND IMPORTANT SAFETY INFORMATION

Thank you for choosing the Nania Torino Car Seat. This manual provides essential instructions for the correct installation, use, and maintenance of your car seat. Please read it thoroughly before first use and keep it in a safe place for future reference. Incorrect installation or use can compromise your child's safety.

Safety Warnings:

- Always secure your child in the car seat, even for short journeys.
- Ensure the car seat is correctly installed and secured in the vehicle according to these instructions.
- Never leave your child unattended in the car seat.
- Do not use the car seat if it has been involved in an accident, even if there is no visible damage. Internal damage may exist.
- Regularly check all parts for wear and tear. Replace damaged parts immediately.
- This car seat is designed for forward-facing use only.
- This car seat is not equipped with ISOFIX. It is installed using the vehicle's 3-point seat belt.

The Nania Torino car seat complies with the latest R129 i-Size standard, ensuring high safety performance through rigorous testing against side and frontal collisions.

2. PRODUCT FEATURES

The Nania Torino car seat is designed to adapt to your child's growth, offering safety and comfort from approximately 15 months up to 12 years.

- **Evolutionary Design:** Suitable for children with a height between 76 and 150 cm (9 to 36 kg), covering age ranges from 15 months to 12 years.
- **Adjustable Headrest:** Features a headrest with 12 height positions, adjustable with one hand, ensuring optimal fit and protection as your child grows.
- **5-Point Harness System:** An automatic adjusting 5-point harness system is provided for children up to 105 cm in height and 18 kg in weight.

- **Harness Storage:** For children in the 100-150 cm category, the 5-point harness can be easily stored within the car seat without removal, allowing use with the vehicle's 3-point seat belt.
- **Enhanced Protection:** Equipped with dedicated Side Protection Systems (SPS) and a Head-Protect system to absorb energy from impacts, safeguarding your child's shoulders, hips, and head.
- **Comfort Insert:** Includes a comfortable, removable, and washable insert for smaller children, adjustable to their needs.
- **Ergonomic Seating:** Features a wide, ergonomic seating surface and deep cushioning for maximum comfort during long journeys.
- **Lumbar Support:** Additional reinforcements in the lumbar area protect the child's spine.
- **Integrated Cup Holder:** A flexible cup holder is included for convenience.

Image: The Nania Torino car seat adapts to different age groups, transitioning from a full harness seat for younger children to a booster seat using the vehicle's belt for older children.

3. SETUP AND INSTALLATION

The Nania Torino car seat is designed for easy and quick installation using your vehicle's 3-point seat belt. It is a non-ISOFIX car seat.

Installation Steps:

1. **Positioning the Car Seat:** Place the Nania Torino car seat on the desired rear seat of your vehicle, ensuring it sits flat and stable. The car seat must be installed in a forward-facing position.
2. **Routing the Vehicle Seat Belt (76-105 cm / up to 18 kg):** For younger children using the integrated 5-point harness, route the vehicle's 3-point seat belt through the clearly marked guides on the car seat. Ensure the lap belt portion is tight across the child seat base and the shoulder belt is securely routed through the upper guide. Pull the vehicle belt tight to remove any slack.
3. **Routing the Vehicle Seat Belt (100-150 cm / 15-36 kg):** For older children, first store the integrated 5-point harness within the car seat as described in the 'Operating Instructions' section. Then, place the child in the car seat and route the vehicle's 3-point seat belt over the child and through the designated guides on the car seat and headrest. Ensure the lap belt is low across the child's hips and the shoulder belt rests correctly over the child's shoulder, not on the neck.

4. **Securing the Belt:** Buckle the vehicle's seat belt and pull it firmly to ensure the car seat is tightly secured against the vehicle seat. There should be minimal movement (less than 1 inch) when you try to move the car seat at the belt path.

4. OPERATING INSTRUCTIONS

Proper use of the Nania Torino car seat ensures your child's safety and comfort.

Adjusting the Headrest and Harness:

1. **Headrest Adjustment:** The headrest can be adjusted to 12 different height positions. To adjust, locate the adjustment lever (usually at the top or back of the headrest). Squeeze the lever and simultaneously raise or lower the headrest to the desired position. Ensure the headrest is positioned so that the shoulder straps are at or just below your child's shoulders when using the 5-point harness, or that the vehicle's shoulder belt rests correctly over your child's shoulder when used as a booster.
2. **5-Point Harness Adjustment (for 76-105 cm / up to 18 kg):** The 5-point harness automatically adjusts with the headrest. To tighten the harness, pull the adjustment strap at the front of the seat until the harness is snug against your child's body, with no slack. To loosen, press the release button (usually located near the adjustment strap) and pull the shoulder straps forward.
3. **Securing Your Child:** Place your child in the car seat. Fasten the buckle of the 5-point harness (or the vehicle's 3-point seat belt for older children). Ensure all straps are flat and not twisted. Adjust the harness or vehicle belt for a snug fit.

Image: The headrest can be easily adjusted to multiple height positions to accommodate your growing child.

Mitwachsener Autositz von 76 bis 150 cm (9-36 kg)

Image: The headrest offers 12 height adjustments for a perfect fit and maximum protection.

5. MAINTENANCE AND CLEANING

Regular maintenance and cleaning will prolong the life of your Nania Torino car seat and ensure hygiene for your child.

Cleaning Instructions:

- **Fabric Covers:** The comfort insert and main fabric covers are removable and washable. Refer to the care label on the fabric for specific washing instructions (typically machine wash on a gentle cycle with mild detergent). Do not tumble dry.
- **Plastic Parts:** Wipe plastic parts with a damp cloth and mild soap. Do not use abrasive cleaners or solvents.
- **Harness System:** Clean the harness straps with a damp cloth and mild soap. Do not immerse the buckle in water or use lubricants, as this may affect its performance.
- **Drying:** Allow all parts to air dry completely before reassembling or using the car seat.

6. TROUBLESHOOTING

If you encounter any issues with your Nania Torino car seat, please refer to the following common solutions:

- **Difficulty Tightening Harness:** Ensure the harness straps are not twisted and are routed correctly through the slots. Check that no fabric is obstructing the tightening mechanism.
- **Car Seat Feels Loose After Installation:** Re-read the installation instructions carefully. Ensure the vehicle's seat belt is routed through all designated guides and pulled as tightly as possible. Apply pressure to the car seat while tightening the belt.
- **Headrest Adjustment Issues:** Ensure the adjustment lever is fully engaged when attempting to move the headrest. Check for any obstructions.
- **Buckle Not Latching:** Ensure there is no debris in the buckle mechanism. Press the buckle tongues firmly until you hear a click.

If problems persist, please contact Nania customer support for assistance.
