BISSELL MultiClean Allergen Pet Slim User Manual

MODEL: 31269

1. OVERVIEW

Product Description

The BISSELL MultiClean Allergen Pet is a lightweight pet vacuum designed for convenient usage to keep up with pet hair. This vacuum combines powerful pet features such as the Tangle-Free Brush Roll and One Touch Easy Empty in a lightweight design with a Sealed HEPA Allergen System to trap fine dust and allergens. Its compact foot is engineered to maximize maneuverability and clean in tight spaces, making it ideal for pet owners.

Key Features

- **Powerful Cleaning Performance:** Effectively removes pet hair and other debris across multiple surfaces with powerful suction.
- **Tangle-Free Brush Roll:** Designed to minimize hair wrap, ensuring consistent performance.
- **Compact Foot:** Engineered for maximum maneuverability, allowing cleaning in tight spaces.
- **Swivel Steering & Lightweight Design:** Provides powerful cleaning performance without heavy lifting.
- **HEPA Sealed Allergen System:** Traps 99.97% of dust and allergens (tested per ASTM F1977 at 0.3 microns).
- **One Touch Easy Empty:** Simplifies the process of emptying the dirt tank with the touch of a button.

2. SETUP

Unpacking

Carefully remove all components from the packaging. Ensure all parts listed in the packing list are present before discarding packaging materials. Keep the packaging for future storage or transport if needed.

Assembly

Follow the quick assembly guide included in your product box. Typically, assembly involves attaching the handle to the main body and securing the dirt tank. Ensure all connections click into place firmly before use.

3. OPERATING INSTRUCTIONS

General Operation

Plug the vacuum into a suitable power outlet. The power button is typically located on the handle. Press it to turn the vacuum on. The MultiClean Allergen Pet Slim features swivel steering, allowing for easy maneuverability around furniture and obstacles. Guide the vacuum across your floor surfaces, moving in a steady, overlapping pattern for optimal cleaning.

Cleaning Different Surfaces

This vacuum is recommended for pet hair removal, various surfaces including carpets and hard floors, stairs, pet beds, and heavy traffic areas. Adjust the vacuum's settings if available, or use the included attachments for specialized cleaning tasks such as crevices or upholstery.

4. MAINTENANCE

Emptying the Dirt Tank

To maintain optimal suction and performance, empty the dirt tank regularly, ideally after each use or when debris reaches the 'Full' line. The One Touch Easy Empty feature allows for quick and hygienic disposal of collected dirt and pet hair. Simply press the release button to detach the tank and empty its contents into a waste bin.

Filter Maintenance

The HEPA Sealed Allergen System includes a Disk filter that should be cleaned periodically to ensure efficient allergen trapping. Refer to your product's specific instructions for filter removal and cleaning frequency. Most filters can be rinsed with water and must be completely air-dried before reinstallation.

Brush Roll Cleaning

The Tangle-Free Brush Roll is designed to minimize hair wrap, but occasional inspection and cleaning are recommended. Turn off and unplug the vacuum before checking the brush roll. Remove any tangled hair, strings, or debris that may have accumulated around the brush roll to ensure it spins freely and effectively.
