5. CARE AND MAINTENANCE

To keep your model in optimal condition:

- **Dusting:** Regularly dust the model with a soft, dry cloth or a soft brush to prevent dust accumulation.
- **Cleaning:** For more thorough cleaning, gently wipe the blocks with a damp cloth using only water. Avoid harsh chemicals or abrasive cleaners, as these can damage the plastic.
- **Storage:** If disassembling for storage, keep pieces in sealed bags to prevent loss and protect them from dust.

6. TROUBLESHOOTING

Encountering issues during assembly or with the completed model?

- **Missing Pieces:** If you find any missing pieces, please refer to the "Warranty and Support" section for instructions on how to contact customer service.
- **Loose Connections:** Ensure that each block is pressed firmly into place. Some connections may require a gentle but firm push. If a section feels unstable, re-examine the instruction manual for that specific step.

- **Difficulty Assembling:** Double-check the instruction manual for the correct orientation and placement of blocks. Building block sets can sometimes be challenging, requiring patience and careful attention to detail.
