

## Cook's Essentials K45568

# Cook's Essentials Madison 4 pc. Bakeware Set with Lids Model K45568 Instruction Manual

Model: K45568

## INTRODUCTION

---

Thank you for choosing the Cook's Essentials Madison 4-piece Bakeware Set with Lids. This set is designed for versatile use, transitioning seamlessly from oven to table and then to storage. Please read this manual carefully before first use to ensure proper handling and care of your bakeware set.

The set includes:

- One large ceramic baker with a storage lid and a black wire holder.
- One medium ceramic baker with a storage lid.
- One small ceramic baker with a storage lid.

## SETUP

---

1. **Unpacking:** Carefully remove all components from the packaging. Inspect each piece for any signs of damage.
2. **Initial Cleaning:** Before first use, wash all ceramic bakers and lids with warm, soapy water. Rinse thoroughly and dry completely.
3. **Wire Holder Assembly:** The black wire holder is designed to cradle the large baker for serving. Ensure the baker sits securely within the holder before transport or serving.

## OPERATING INSTRUCTIONS

---

### General Use

- **Oven Use:** The ceramic bakers are oven-safe up to 400°F (204°C). Do not use the plastic lids in the oven.
- **Microwave Use:** The ceramic bakers are microwave-safe. Do not use the plastic lids in the

microwave.

- **Refrigerator and Freezer Use:** The ceramic bakers are safe for use in the refrigerator and freezer. The plastic lids are suitable for covering food in the refrigerator or freezer.
- **Temperature Changes:** Avoid sudden and extreme temperature changes, such as placing a hot baker directly into cold water or a cold baker into a preheated oven without gradual warming. This can cause thermal shock and damage the ceramic.

## Using the Wire Holder

The black wire holder is intended for the large baker to facilitate serving and transport from the kitchen to the dining table. Place the large baker securely into the holder before moving. The holder is not intended for oven use.

## Using the Lids

The included plastic lids are designed for convenient storage of leftovers in the refrigerator or freezer. Ensure the bakeware is cool before applying the lid. Press firmly around the edges to create a secure seal.

## MAINTENANCE AND CARE

- **Ceramic Bakers:** The ceramic bakers are dishwasher safe. For hand washing, use warm, soapy water and a non-abrasive sponge or cloth. Avoid using harsh scouring pads or abrasive cleaners that could scratch the surface.
- **Plastic Lids:** The plastic lids should be hand washed only with warm, soapy water. Do not place them in the dishwasher, as high temperatures can cause warping or damage.
- **Wire Holder:** Hand wash the wire holder with warm, soapy water and dry thoroughly to prevent rust.
- **Storage:** Store all components in a dry place. Stack bakers carefully to prevent chipping.

## TROUBLESHOOTING

- **Food Sticking:** Ensure bakeware is properly greased or lined as per recipe instructions. For baked-on food, soak the baker in warm, soapy water before cleaning.
- **Lid Not Sealing:** Check that the rim of the baker and the lid are clean and free from food debris. Ensure the lid is correctly aligned before pressing down to seal.
- **Ceramic Cracking:** This is often due to thermal shock. Always allow bakeware to adjust to temperature changes gradually. Do not place hot bakeware on cold surfaces or expose cold bakeware to sudden high heat.

## SPECIFICATIONS

Feature	Detail
Model Number	K45568
