PITAKA Air Case Instruction Manual

For Samsung Galaxy S21 Ultra

INTRODUCTION

Thank you for choosing the PITAKA Air Case for your Samsung Galaxy S21 Ultra. This ultra-slim and lightweight case is crafted from high-quality aramid fiber, designed to provide essential protection while maintaining the device's original aesthetic and functionality. This manual provides instructions for proper installation, usage, and care to ensure optimal performance and longevity of your case.

PRODUCT FEATURES

- **600D Aramid Fiber Construction:** Crafted from fine aero-grade 600D aramid fiber, offering a durable and premium feel.
- **Ultra-Thin & Slim Design:** With a thickness of only 0.02 inches and weighing 0.35 ounces, the case adds minimal bulk and weight to your phone.
- **Smooth 3D Grip:** The comfortable coating provides a secure grip, preventing accidental slips while allowing easy pocket access.
- **Minimalist Style & Precise Cutouts:** Features a form-fitting design with a black matte finish and precise cutouts for buttons and ports, ensuring full functionality.
- **Scratch Protection:** Offers robust protection against scrapes and scratches for your Galaxy S21 Ultra, including a raised edge for camera lens protection.
- **Wireless Charging & PowerShare Friendly:** Designed to be compatible with wireless charging and PowerShare functionality without needing to remove the case.

SETUP: INSTALLATION AND REMOVAL

The PITAKA Air Case is designed for easy installation and removal. Follow these steps to properly secure or remove the case from your Samsung Galaxy S21 Ultra.

Installation

1. Ensure your Samsung Galaxy S21 Ultra is clean and free of dust or debris.
2. Align the phone with the case, starting with the camera module.
3. Gently push the phone into the case, ensuring all corners snap securely into place.

Removal

1. Turn the phone upside down.
2. Carefully push the right-hand corner of the case away from the phone, followed by the left-hand corner.
3. Once the top corners are disengaged, gently slide the phone out of the case.

OPERATING (USAGE)

The PITAKA Air Case is designed to enhance your phone's usability without interference.

- **Wireless Charging:** The case supports wireless charging and PowerShare. Simply place your phone with the case on a compatible wireless charger or use PowerShare as usual.
- **Button and Port Access:** Precision cutouts ensure full and easy access to all buttons, ports, and speakers, preserving the phone's original click response.
- **Camera Protection:** The raised edge around the camera module provides additional protection for the lenses against flat surfaces.

MAINTENANCE

To maintain the appearance and integrity of your PITAKA Air Case, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust and fingerprints. Avoid using harsh chemicals or abrasive materials, as these can damage the aramid fiber finish.
- **Storage:** When not in use, store the case in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Impact:** While durable, the case is designed for scratch and minor impact protection. Avoid subjecting it to severe drops or impacts to prevent damage to both the case and your device.

TROUBLESHOOTING

If you encounter any issues with your PITAKA Air Case, please refer to the following common concerns:

- **Compatibility with Magnetic Chargers:** Please note that the PITAKA Air Case does not contain any internal metal plates. Therefore, it is **NOT compatible** with PITAKA MagEZ wireless chargers or other magnetic mounting systems that require a metal plate within the case.
- **Difficulty Installing/Removing:** Ensure you are following the correct installation and removal steps as

outlined in the 'Setup' section. The case is designed for a snug fit, so a firm but gentle approach is necessary.

- **Scratches on Phone from Case:** While rare, if you notice minor scratches on your phone after prolonged use, ensure both the phone and the inside of the case are clean before installation. Dust or debris trapped between the phone and case can cause abrasion.
