La Sommeliere SLS102DZ

La Sommelière Dual-Zone Wine Cooler Instruction Manual

Model: SLS102DZ

Introduction

This manual provides essential information for the safe and efficient operation of your La Sommelière dual-zone wine cooler. Designed for wine enthusiasts, this appliance ensures ideal storage conditions for your valuable wine collection. The wine cooler features two independent temperature zones, allowing for optimal storage of both red and white/rosé wines. It incorporates anti-vibration technology, UV-protected glass, and humidity control to maintain consistent conditions for your wine.

Important Safety Information

Please read all instructions carefully before using the appliance. Keep this manual for future reference.

- Ensure the appliance is placed on a stable, level surface.
- Do not block ventilation openings.
- Do not store explosive substances in this appliance.
- Unplug the appliance before cleaning or maintenance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

Setup and Installation

Unpacking

Carefully remove the wine cooler from its packaging. Inspect for any damage during transit. Retain packaging materials for future transport if needed.

Placement

Choose a location with adequate ventilation and away from direct sunlight or heat sources. Ensure there is sufficient space around the unit for air circulation. The appliance should be placed on a firm, level floor capable of supporting its weight when fully loaded.

Power Connection

Before plugging in, allow the appliance to stand upright for at least 2-4 hours to allow the refrigerant to settle. Connect the power cord to a grounded electrical outlet. Do not use extension cords or ungrounded adapters.

Operating Instructions

Temperature Control

The wine cooler features two independent temperature zones, controlled via touch controls on the front panel. The digital display shows the current temperature for each zone.

- **Upper Zone:** Ideal for red wines, adjustable from 12°C to 18°C (53.6°F to 64.4°F). This zone can accommodate up to 15 bottles.
- **Lower Zone:** Ideal for white or rosé wines, adjustable from 5°C to 14°C (41°F to 57.2°F). This zone can accommodate up to 18 bottles.

Use the **+** and **-** buttons on the control panel to adjust the desired temperature for each zone. The display will flash during adjustment and then show the new set temperature.

Internal LED Lighting

The wine cooler is equipped with internal white LED lighting. This lighting can be turned on or off using the light button on the control panel. The LED light provides clear visibility of your wine collection without emitting heat that could affect wine quality.

Humidity Control (Igrometry)

The appliance automatically regulates the humidity level (Igrometry) between 50% and 80%, ensuring optimal conditions for cork preservation and preventing wine oxidation.

Anti-Vibration System

The integrated anti-vibration system minimizes disturbances to your wine, protecting its delicate structure and allowing it to age gracefully.

Maintenance and Cleaning

Cleaning the Interior

To clean the interior, unplug the appliance and remove all bottles and shelves. Wipe the interior surfaces with a soft cloth dampened with a mild detergent solution. Rinse with clean water and dry thoroughly before replacing shelves and bottles.

Cleaning the Exterior

Clean the exterior surfaces with a soft, damp cloth. For the glass door, use a glass cleaner. Avoid abrasive cleaners or solvents that could damage the finish.

Defrosting

The wine cooler features an automatic defrost system. Any frost that forms on the back wall will melt and drain into an evaporation tray.

Troubleshooting

Problem	Possible Cause	Solution
Appliance does not operate.	No power supply.	Check if the power cord is plugged in correctly and the outlet is functional.
Temperature is not cold enough.	Door not closed properly; frequent door opening; high ambient temperature; ventilation blocked.	Ensure door is sealed; reduce frequency of door opening; place in a cooler environment; ensure proper ventilation.
Excessive noise.	Appliance not level; objects vibrating against the unit.	Adjust leveling feet; ensure nothing is touching the back or sides of the unit.
Digital display not working.	Power issue; control panel malfunction.	Check power. If problem persists, contact customer support.

If the problem persists after attempting these solutions, please contact La Sommelière customer support.

Product Specifications

Feature	Detail
Brand	La Sommelière
Model	SLS102DZ (part_B08VJHM1J7)
Color	Black
Product Dimensions (L x W x H)	55 x 58.5 x 127.7 cm (21.65 x 23.03 x 50.28 inches)
Item Weight	29 kg (63.9 lbs)
Wattage	175 watts
Annual Energy Consumption	173 kWh/year
Noise Level	41 dB
Upper Zone Capacity	15 bottles (red wine)

Feature	Detail
Lower Zone Capacity	18 bottles (white/rosé wine)
Humidity Control	50% - 80%
Shelves	4 Beechwood shelves + 1 Beechwood support at the bottom
