Yaheetech Adjustable Convertible Futon Sleeper Bed

INSTRUCTION MANUAL

Introduction

Thank you for purchasing the Yaheetech Adjustable Convertible Futon Sleeper Bed. This manual provides essential information for the safe assembly, operation, and maintenance of your new futon. Please read all instructions carefully before use and retain this manual for future reference.

Important Safety Information:

- Ensure all parts are present and undamaged before assembly.
- Do not overtighten screws during assembly to avoid damaging components.
- Keep small parts away from children during assembly.
- Always use the futon on a flat, stable surface.
- Do not exceed the maximum weight capacity of 772 lbs (350 kg).

Setup and Assembly

This futon requires assembly. Please follow the steps below carefully. It is recommended to have two people for assembly.

Components List:

- Futon base sections (2)
- Backrest sections (2)
- Armrests (2, detachable)
- Metal legs (6)
- Hardware pack (screws, washers, Allen wrench)
- Pillows (2)

Assembly Steps:

1. Unpack all components and verify against the components list. Place all parts on a soft, clean surface to prevent scratches.

2. Attach the metal legs to the futon base sections using the provided hardware. Ensure they are securely fastened but do not overtighten.
3. Connect the two futon base sections together according to the alignment points. Secure them with the designated connectors.
4. Attach the backrest sections to the futon base. Ensure the adjustable mechanisms are correctly aligned.
5. Slide the detachable armrests into their designated slots on the sides of the futon.
6. Place the included pillows on the futon.

This image illustrates the various dimensions of the futon in both its upright sofa position and its flat bed position. It also highlights the maximum weight capacity of 772 lbs, providing crucial information for placement and usage.

Operating Instructions

The Yaheetech futon is designed for easy conversion between a sofa and a sleeper bed, and features an

adjustable backrest.

Converting from Sofa to Bed:

1. Ensure there is sufficient clear space behind the futon for the backrest to recline fully.
2. Gently push the backrest forward until you hear a click, then slowly lower it backward until it lies flat.
3. The futon is now in its bed configuration.

Converting from Bed to Sofa:

1. Lift the backrest from its flat position. You will hear a series of clicks as it passes through different angles.
2. Stop at the desired upright or reclined angle. Ensure it locks into place before use.

Adjusting Backrest Angle:

To adjust the backrest angle while in sofa mode, push the backrest slightly forward until it disengages from its current position, then recline it to the next desired angle until it clicks into place. Repeat this process to find your preferred seating or lounging position.

Image: The Yaheetech futon fully reclined into its flat bed configuration, ready for use as a sleeper.

This image displays the futon in its fully flat, bed-like position, demonstrating its versatility as a sleeper. The

armrests are still attached, showing how they function in this mode.

Video: An official Yaheetech video demonstrating the conversion of the futon from a sofa to a sleeper bed and highlighting its key features such as the linen covering, ergonomic backrest, soft seat cushion, high resilience padding, removable armrests, and sturdy L-shaped metal legs. The video also shows the adjustable lifting angle of the backrest.

This video provides a visual guide to the futon's functionality, including how to adjust the backrest and convert it between sofa and bed modes. It also showcases the material and structural details of the product.

Maintenance and Care

Proper care will extend the life and appearance of your futon.

Fabric Care (Linen Upholstery):

- **Regular Cleaning:** Vacuum the fabric regularly using an upholstery attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for linen, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading.

Frame and Legs Care:

- Wipe metal legs and wood frame components with a soft, damp cloth.
- Avoid using abrasive cleaners or harsh chemicals, which can damage the finish.
- Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

This image provides a detailed look at the linen fabric and the quality of the stitching, which is important for understanding the material and its care requirements.

Troubleshooting

If you encounter any issues with your futon, please refer to the following common problems and solutions:

- **Issue: Futon is difficult to convert or adjust.**

Solution: Ensure there are no obstructions behind or beneath the futon. Check that all assembly hardware is securely tightened but not overtightened, which could impede movement. Apply gentle, even pressure when converting.

- **Issue: Futon feels unstable or wobbly.**

Solution: Verify that all metal legs are firmly attached and all connecting hardware is tightened. Ensure the futon is placed on a level surface.

- **Issue: Fabric appears stained or dirty.**

Solution: Refer to the "Maintenance and Care" section for appropriate cleaning instructions for linen fabric. Act quickly on spills.

Specifications

Below are the technical specifications for the Yaheetech Adjustable Convertible Futon Sleeper Bed:

Feature	Detail
Brand	Yaheetech
Model Number (ASIN)	B08VMRDD74
Product Dimensions (Sofa)	33.27"D x 78.35"W x 36.61"H
Seat Depth	20 inches
Seat Height	15 inches
Upholstery Fabric Type	Linen
Frame Material Type	Engineered Wood, Metal, Wood
Furniture Leg Material	Metal, Engineered Wood
Fill Material	Foam
Special Feature	Folding, Convertible
Assembly Required	Yes
Number of Pieces	4
