Brio CLPOU420UVF2

Brio 400 Series Self-Cleaning UV Bottleless Water Cooler Dispenser

MODEL: CLPOU420UVF2

Introduction

This manual provides essential information for the safe and efficient operation of your Brio 400 Series Self-Cleaning UV Bottleless Water Cooler Dispenser. Please read all instructions carefully before installation and use. This dispenser offers filtered cold, hot, and room temperature water, featuring a 2-stage filtration system and UV-CARE self-cleaning technology.

Safety Information

- Always ensure the unit is placed on a stable, level surface.
- Connect the cooler to a grounded electrical outlet.
- Keep the dispenser away from direct sunlight and heat sources.
- The hot water spout is equipped with a child safety lock. Always engage this lock when not in use, especially in households with children.
- Do not immerse the dispenser in water or other liquids.
- Unplug the unit before cleaning or performing any maintenance.
- Ensure proper ventilation around the unit.

Package Contents

Verify that all items are present in the package:

- Brio 400 Series Bottleless Water Cooler Dispenser
- 2-Stage Water Filters (2 units)
- Installation Kit

Product Overview

The Brio 400 Series water cooler is designed for convenience and efficiency, providing instant access to filtered hot, cold, and room temperature water. Its sleek design integrates seamlessly into various environments.

Figure 1: Front view of the Brio 400 Series Bottleless Water Cooler Dispenser.

Filtration System

The dispenser features a 2-stage advanced water filtration system to remove undesirable tastes, odors, and colors from your water.

Setup & Installation

The Brio 400 Series water cooler features a user-friendly installation process. As a bottleless unit, it connects directly to your water line, eliminating the need for heavy water bottles. Refer to the included installation kit instructions for detailed steps on connecting to your water supply.

- 1. Unpacking:** Carefully remove all packaging materials and place the dispenser on a flat, stable surface.
- 2. Water Line Connection:** Follow the instructions in the installation kit to connect the dispenser to your cold water supply line. Ensure all connections are secure to prevent leaks.

3. **Filter Installation:** Install the 2-stage water filters as directed in the filter replacement guide.
4. **Power Connection:** Plug the dispenser into a grounded electrical outlet.
5. **Initial Flush:** Before first use, dispense and discard several cups of water from each temperature setting (hot, ambient, cold) to flush the system and filters.

Operating Instructions

Your Brio water cooler provides instant access to water at your desired temperature.

- **Hot Water Dispensing:** To dispense hot water, first slide the child safety lock (red button) to the unlocked position, then press the hot water button. Release the button to stop dispensing. Always re-engage the child safety lock after use.
- **Cold Water Dispensing:** Press the cold water button to dispense cold water. Release the button to stop.
- **Ambient Water Dispensing:** Press the ambient water button to dispense room temperature water. Release the button to stop.
- **LED Indicators:** Observe the LED lights on the control panel. They indicate when the hot water is heating, cold water is chilling, and when the self-cleaning UV-CARE function is active.

Maintenance

Regular maintenance ensures optimal performance and water quality.

- **Self-Cleaning (UV-CARE):** The UV-CARE system automatically disinfects the water cooler. No manual intervention is typically required for this feature.
- **Filter Replacement:** The 2-stage filters should be replaced periodically based on usage and water quality. For replacement filters, search for "**Brio MIB200PKF**" **2-Stage Filter Replacement Kit**. Follow the instructions provided with the replacement filters for proper installation.
- **Drip Tray Cleaning:** Regularly remove and clean the drip tray to prevent water overflow and maintain hygiene.
- **Exterior Cleaning:** Wipe the exterior of the dispenser with a soft, damp cloth. Do not use abrasive cleaners or solvents.

Troubleshooting

If you encounter issues with your dispenser, refer to the following common solutions:

Problem	Possible Cause	Solution
No water dispensed	Water supply off; clogged filter; airlock in system	Check water supply valve; replace filters; flush system by dispensing water from all spouts.
Water not hot/cold enough	Heating/cooling function off; unit recently plugged in; high usage	Ensure heating/cooling switches are on; allow 15-30 minutes for water to reach desired temperature; reduce continuous dispensing.
Leakage	Loose water line connection; damaged O-ring; full drip tray	Check and tighten all water line connections; inspect and replace O-rings if damaged; empty and clean drip tray.
Unusual noise	Compressor cycling; air in system; unit not level	Normal operation; dispense water to remove air; ensure unit is on a level surface.

Specifications

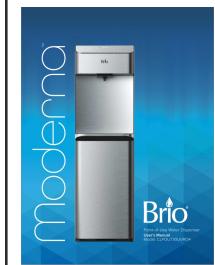

Feature	Detail
Model Number	CLPOU420UVF2
Product Dimensions (D x W x H)	37.3D x 38.1W x 110.5H Centimetres (14.7D x 15W x 43.5H inches)
Weight	21.7 kg (45 Pounds)
Color	Silver
Material	Stainless Steel
Wattage	410 watts
Installation Type	Countertop (Note: Product description states 40-inch tall, implying floor-standing, but specifications list 'Countertop'. Please verify with product packaging.)
Access Location	Bottom
Number of Settings	4 (Hot, Cold, Ambient, Self-Cleaning)
First Available Date	Feb. 17, 2021
