Cross Limited Collection x Series Rollerball Pen User Manual

Model: x series

1. INTRODUCTION

Thank you for choosing the Cross Limited Collection x Series Rollerball Pen. This premium writing instrument combines sophisticated design with innovative functionality, featuring a patented snap-open, snap-shut slide mechanism and a smooth gel ink experience. Crafted for discerning users, this pen is accompanied by a matching full-grain leather case, ensuring both protection and elegance.

This manual provides essential information on setting up, operating, maintaining, and troubleshooting your Cross x Series pen to ensure its longevity and optimal performance.

2. WHAT'S IN THE BOX

Upon unboxing your Cross Limited Collection x Series Rollerball Pen, please verify that all the following components are present:

- Cross Limited Collection x Series Rollerball Pen
- Matching Full-Grain Leather Case
- Gift Box
- Pre-installed Gel Ink Refill
- Additional Refill Ink Cartridges (if specified on packaging)

3. SETUP

3.1 First Use

Your Cross x Series pen comes with a pre-installed gel ink refill. To prepare the pen for writing:

1. Gently slide the barrel of the pen to reveal the writing tip. The patented snap-open mechanism ensures a smooth and secure extension.
2. The pen is now ready for use.

3.2 Refill Replacement

When the ink runs out or if you wish to change ink color, follow these steps to replace the refill:

1. Ensure the pen tip is retracted by sliding the barrel to the closed position.
2. Carefully unscrew the front section of the pen barrel counter-clockwise.
3. Remove the old ink refill by pulling it straight out.
4. Insert a new Cross gel ink refill (compatible with Selectip Rollerball pens) into the barrel, pushing it firmly until it seats properly.
5. Screw the front section back onto the barrel clockwise until secure. Do not overtighten.

4. OPERATING THE PEN

4.1 Writing

To begin writing, simply slide the pen barrel to extend the tip. The gel ink provides a smooth, consistent line. Apply light to moderate pressure for optimal ink flow. When finished, slide the barrel back to retract the tip, protecting it from damage and preventing accidental marks.

4.2 Using the Leather Case

The included full-grain leather case is designed to protect your pen when not in use. Insert the pen into the case with the tip retracted. The case's snap closure ensures the pen remains securely stored, preventing scratches and damage from other items in your bag or pocket.

5. MAINTENANCE

5.1 Cleaning

To maintain the appearance of your Cross x Series pen:

- Wipe the pen barrel and metal accents with a soft, lint-free cloth.
- Avoid using abrasive cleaners or solvents, as these can damage the finish.
- For the leather case, wipe with a dry or slightly damp soft cloth. Do not use harsh chemicals or excessive moisture.

5.2 Storage

Always store your pen with the tip retracted. For long-term storage or travel, utilize the provided leather case to protect the pen from dust, scratches, and impacts.

6. TROUBLESHOOTING

6.1 Ink Skipping or No Ink Flow

- **Check Refill:** Ensure the ink refill is properly seated and not empty. Replace if necessary.
- **Tip Clog:** Gently wipe the pen tip with a damp cloth to remove any dried ink or debris.
- **Paper Surface:** Some paper types may not be ideal for gel ink. Try writing on a different surface.

6.2 Pen Mechanism Not Smooth

- **Debris:** Check for any small particles or debris obstructing the slide mechanism. Gently blow into the mechanism or use a soft brush to clear it.
- **Alignment:** Ensure the pen sections are screwed together correctly and not cross-threaded.

7. SPECIFICATIONS

Brand	Cross
Model Number	x series
Writing Instrument Form	Roller Ball Pen
Ink Type	Gel Ink
Ink Color	Yellow
Point Type	Bold
Closure Mechanism	Patented snap-open, snap-shut slide
