

## Lenco SCD-720SI

# Lenco SCD-720 Boombox Instruction Manual

Model: SCD-720SI

## 1. INTRODUCTION

---

Thank you for choosing the Lenco SCD-720 Boombox. This versatile audio system offers a wide range of playback options, including DAB+ and FM radio, Bluetooth 5.0 connectivity, a CD/MP3 player, a cassette player, and a USB port for digital audio files. It features 2 x 6W RMS audio output with Bass Reflex for enhanced sound and comes with a remote control for convenient operation. This manual provides essential information for setting up, operating, and maintaining your device.

## 2. IMPORTANT SAFETY INFORMATION

---

- Read all instructions carefully before using the device.
- Keep this manual for future reference.
- Do not expose the unit to rain or moisture to prevent fire or electric shock.
- Ensure proper ventilation. Do not block any ventilation openings.
- Do not place the unit near heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

## 3. PRODUCT OVERVIEW

---

Familiarize yourself with the main components and controls of your Lenco SCD-720 Boombox.

### Front View with USB Port

*This image shows the front of the Lenco SCD-720 Boombox, highlighting the main control panel, speakers, and a USB stick inserted into the USB port on the top left.*

### Front View with CD Compartment Open

*This image displays the Lenco SCD-720 Boombox from the front, with the top-loading CD compartment lid open, ready for CD insertion.*

## Rear View

*This image shows the back of the Lenco SCD-720 Boombox, featuring the telescopic antenna, AUX input, headphone jack, and the AC power input socket.*

## Control Panel Close-up

*A detailed view of the Lenco SCD-720 Boombox's central control panel, including the digital display, source selection buttons, tuning/navigation buttons, and the illuminated volume knob.*

## Boombox with Remote Control

The Lenco SCD-720 Boombox is displayed next to its included remote control, illustrating the complete package.

## Remote Control Layout

*A close-up image of the remote control for the Lenco SCD-720 Boombox, showing all buttons for power, source selection, playback, tuning, and other functions.*

## 4. SETUP

---

### 4.1 Power Connection

The Lenco SCD-720 Boombox can be powered by AC mains or batteries.

- **AC Power:** Connect the supplied AC power cord to the AC IN socket on the rear of the unit and then to a standard wall outlet.
- **Battery Operation:** For portable use, open the battery compartment on the rear of the unit and insert 8 x 'C' type batteries (not included), ensuring correct polarity. Close the compartment securely.

### 4.2 Antenna Adjustment

For optimal radio reception, extend the telescopic antenna fully. Adjust its position and angle to achieve the best signal quality for both DAB+ and FM broadcasts.

### 4.3 Initial Power On

Press the **POWER** button on the unit or remote control to turn on the boombox. The display will light up, and the unit

will typically start in the last used mode.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 General Controls

- **Power On/Off:** Press the **POWER** button.
- **Volume Control:** Rotate the **VOLUME** knob on the unit or use the **VOL + / -** buttons on the remote control.
- **Source Selection:** Press the **SOURCE** button on the unit or the dedicated source buttons (DAB/FM, CD/USB, BT) on the remote to switch between modes (DAB+, FM, CD, USB, Bluetooth, AUX).

### 5.2 Radio Operation (DAB+/FM)

- **Select Mode:** Press the **SOURCE** button until DAB+ or FM mode is selected.
- **Auto Scan:** In DAB+ or FM mode, press the **SCAN** button to automatically search for and store available stations.
- **Manual Tuning:** Use the **TUNE < / >** buttons to manually adjust the frequency.
- **Preset Stations:** The unit allows you to save your favorite stations. Press and hold one of the numbered preset buttons (**1-4**) to store the current station. Briefly press a preset button to recall a stored station.
- **DAB+ Information:** In DAB+ mode, press the **INFO** button to cycle through various information such as program type, signal strength, time, and date.

### 5.3 CD/MP3 Playback

- **Load CD:** Open the CD compartment lid by pressing the **OPEN** button. Place a CD or MP3 CD with the label side facing up. Close the lid securely.
- **Playback:** The CD will start playing automatically. If not, press the **PLAY/PAUSE** button.
- **Controls:** Use **SKIP << / >>** buttons to skip tracks. Press and hold to fast forward/rewind.
- **Repeat:** Press **REPEAT** to repeat the current track or all tracks.
- **Program:** Press **PROGRAM** to create a custom playback order for tracks.

### 5.4 Cassette Playback and Recording

- **Load Cassette:** Open the cassette compartment. Insert a cassette tape.
- **Playback:** Press the **PLAY** button.
- **Recording:** To record from Radio, CD, USB, or AUX, select the desired source. Insert a blank cassette. Press the **RECORD** button (usually red) along with the **PLAY** button simultaneously.
- **Controls:** Use **FAST FORWARD** and **REWIND** buttons. Press **STOP/EJECT** to stop playback and open the compartment.

### 5.5 Bluetooth 5.0 Connectivity

- **Enter Bluetooth Mode:** Press the **SOURCE** button until 'BT' or 'Bluetooth' appears on the display. The unit will enter pairing mode, indicated by a flashing Bluetooth icon.
- **Pairing:** On your smartphone or tablet, enable Bluetooth and search for available devices. Select 'Lenco SCD-720' from the list. Once paired, the Bluetooth icon will stop flashing.
- **Playback:** Start playing audio on your connected device. The sound will be streamed to the boombox.

### 5.6 USB Playback

- **Insert USB:** Insert a USB flash drive containing MP3 files into the USB port.
- **Select USB Mode:** Press the **SOURCE** button until 'USB' appears. The unit will automatically scan and begin playing MP3 files.
- **Controls:** Use the playback control buttons (**PLAY/PAUSE**, **SKIP << / >>**) to manage your music.

### 5.7 AUX Input

Connect external audio devices (e.g., MP3 players, smartphones without Bluetooth) to the **AUX IN** jack on the rear of the unit using a 3.5mm audio cable (not included). Select AUX mode via the **SOURCE** button.

### 5.8 Headphone Output

For private listening, connect headphones to the **HEADPHONE** jack on the rear of the unit. The main speakers will be muted automatically.

### 5.9 Remote Control

The included remote control provides full functionality for the boombox, allowing you to control power, source, volume, playback, tuning, and other settings from a distance. Ensure the remote has working batteries and is pointed towards the front of the boombox.

## 6. MAINTENANCE

### 6.1 Cleaning the Unit

Wipe the exterior of the boombox with a soft, dry cloth. Do not use abrasive cleaners, waxes, or solvents as they may damage the finish. For stubborn stains, a slightly damp cloth can be used, followed by a dry cloth.

### 6.2 CD Lens Care

If CD playback becomes erratic, the CD lens may need cleaning. Use a commercially available CD lens cleaner disc. Do not touch the lens directly.

### 6.3 Cassette Head Cleaning

Regularly clean the cassette heads, pinch rollers, and capstans with a cotton swab lightly moistened with isopropyl alcohol to ensure optimal sound quality and prevent tape damage.

### 6.4 Battery Replacement

If the unit is powered by batteries and performance degrades, replace all 8 'C' type batteries with new ones, ensuring correct polarity. Do not mix old and new batteries or different types of batteries.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cord not connected; Batteries depleted or incorrectly inserted.	Check AC cord connection; Replace batteries, ensuring correct polarity.
No sound	Volume too low; Incorrect source selected; Headphones connected.	Increase volume; Select correct source; Disconnect headphones.

Problem	Possible Cause	Solution
Poor radio reception	Antenna not extended or positioned correctly; Weak signal.	Extend and adjust the telescopic antenna; Try moving the unit to a different location.
CD/USB not playing	Disc dirty/scratched; USB format not supported; Incorrect mode.	Clean or replace disc; Ensure USB contains MP3 files; Select CD or USB mode.
Bluetooth pairing failed	Boombox not in pairing mode; Device too far; Bluetooth off on device.	Ensure boombox is in BT pairing mode; Move device closer; Enable Bluetooth on your device.
Cassette recording issues	Incorrect source selected; Cassette write-protect tab engaged.	Select the desired recording source; Ensure the write-protect tab on the cassette is not broken off.

## 8. SPECIFICATIONS
