Hamdol T1

Hamdol 360° Rotating RC Stunt Car Instruction Manual

Model: T1

Brand: Hamdol

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before operating the Hamdol RC Stunt Car. Keep this manual for future reference.

- **Age Recommendation:** Suitable for children aged 6 years and older. Adult supervision is recommended.
- **Battery Safety:** Use only the provided rechargeable batteries and charging cable. Do not mix old and new batteries, or different types of batteries. Do not short-circuit battery terminals.
- **Choking Hazard:** Contains small parts. Not suitable for children under 3 years.
- **Operating Environment:** Avoid operating the car near water, heat sources, or in hazardous areas. Ensure a clear play area to prevent accidents.
- **Impact Warning:** While durable, excessive force or high-impact collisions may cause damage.

PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- Hamdol 360° Rotating RC Stunt Car (Model T1)
- Remote Control (2.4GHz)
- 2 x 3.7V Rechargeable Lithium Polymer Batteries (for car)
- USB Charging Cable
- Screwdriver
- Instruction Manual

**2.4GHZ RADIO SYSTEM
FOR NON-INTERFERENCE CONTROL**

FOR MULTIPLE PLAYER

Remote Control Battery Installation

1. Open the battery compartment on the back of the remote control.
2. Insert 2 x AAA batteries (not included) into the compartment, ensuring correct polarity (+/-).
3. Close the battery compartment cover.

CHARGING INSTRUCTIONS

The Hamdol RC Stunt Car uses 3.7V rechargeable Lithium Polymer batteries. Each battery provides approximately 30 minutes of play time.

1. Connect the USB charging cable to the battery.
2. Plug the USB end of the cable into a USB power source (e.g., computer, USB wall adapter).
3. The indicator light on the USB cable will show the charging status (e.g., red for charging, off or green for fully charged).
4. Charging typically takes about 1 hour per battery.
5. Always allow batteries to cool down before recharging.

OPERATING INSTRUCTIONS

Power On/Off

- Turn on the power switch on the car (located on the underside). The LED lights will flash.
- Turn on the power switch on the remote control. The remote's indicator light will blink and then become solid when paired with the car.

Basic Controls

Use the joysticks on the remote control to maneuver the car:

- **Forward:** Push both joysticks forward.
- **Backward:** Pull both joysticks backward.
- **Turn Left:** Push the right joystick forward, or pull the left joystick backward.
- **Turn Right:** Push the left joystick forward, or pull the right joystick backward.

Stunt Features

- **360° Rotation:** Push one joystick forward and the other backward simultaneously to perform a rapid 360-degree spin.
- **Double-Sided Driving:** The car is designed to drive on both sides. If it flips over, it will continue to operate without interruption.
- **LED Headlights:** The bright LED headlights enhance visibility and add a dynamic effect during play, especially in low-light conditions.

MAINTENANCE

Care and Cleaning

- Wipe the car with a soft, dry cloth after each use to remove dirt and debris.
- Do not immerse the car or remote control in water.
- Avoid using harsh chemicals or solvents for cleaning.

Storage

- Store the car and remote control in a cool, dry place away from direct sunlight.
- Remove batteries from both the car and remote control if storing for extended periods to prevent leakage.

TROUBLESHOOTING GUIDE

If you encounter any issues, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Car does not respond to remote.	Car or remote is off; low batteries; not paired.	Ensure both are switched on. Replace/recharge batteries. Turn both off and on again to re-pair.
Short play time.	Battery not fully charged; old battery.	Ensure battery is fully charged (approx. 1 hour). Use the spare battery.
Car moves slowly.	Low battery power.	Recharge or replace the car battery.
Interference during multi-player.	Other 2.4GHz devices nearby.	Move to an area with less wireless interference. The 2.4GHz system is designed to minimize this.

PRODUCT SPECIFICATIONS

- **Model Number:** Hamdol T1
- **Product Dimensions:** 7 x 3 x 10 inches
- **Item Weight:** 1.15 pounds
- **Manufacturer Recommended Age:** 6 - 6 years
- **Batteries:** 2 Lithium Polymer batteries required (included)
- **Control Frequency:** 2.4GHz
- **Drive System:** 4WD
- **Special Features:** 360° Rotation, Double-Sided Driving, LED Headlights
