

Bosmere S20450

Bosmere Down Under Plant Caddie S20450 Instruction Manual

Model: S20450 | Brand: Bosmere

INTRODUCTION

This manual provides instructions for the proper use and maintenance of your Bosmere Down Under Plant Caddie S20450. This durable plant caddie is designed to facilitate the movement of heavy potted plants, protecting surfaces and reducing strain. Please read these instructions carefully before use to ensure safe and effective operation.

PRODUCT FEATURES

- **High Load Capacity:** Supports and moves up to 226.8 kg (500 lbs) with ease.
- **Locking Casters:** Equipped with 2 locking casters to secure the caddie in place when stationary.
- **Durable Construction:** Made from UV-resistant plastic for long-lasting outdoor use.
- **Smooth Mobility:** Features 6 high-quality durable nylon and steel wheels for effortless movement.

SETUP

The Bosmere Down Under Plant Caddie S20450 requires no assembly. It is ready for immediate use out of the box.

1. **Placement:** Position the plant caddie on a flat, stable surface where you intend to place your potted plant.
2. **Load Plant:** Carefully lift your potted plant and center it on the caddie. Ensure the pot's base is fully supported and balanced on the caddie's surface.
3. **Secure (Optional):** If the caddie needs to remain stationary for an extended period, engage the two locking casters by pressing down on their levers.

Figure 2: The plant caddy in use, supporting a large potted plant on a patio.

OPERATING INSTRUCTIONS

1. **Unlock Casters:** Before moving the caddy, ensure both locking casters are fully disengaged. Lift the levers on the locking casters to allow free wheel movement.
2. **Move Plant:** Gently push or pull the caddy to its desired location. The 6 nylon and steel wheels are designed for smooth, multi-directional movement.
3. **Lock Casters:** Once the caddy is in its new position, engage the two locking casters to prevent unintended movement.

Figure 3: Side view of the plant caddy, illustrating the wheel mechanism.

MAINTENANCE

- **Cleaning:** Wipe the caddy with a damp cloth to remove dirt and debris. For stubborn stains, a mild soap solution can be used. Rinse thoroughly and dry.
- **Wheel Inspection:** Periodically check the wheels for any obstructions, wear, or damage. Remove any tangled debris (e.g., leaves, string) from the wheel axles.
- **Storage:** When not in use, store the plant caddy in a clean, dry place to prolong its lifespan, although its UV-resistant plastic is designed for outdoor exposure.

TROUBLESHOOTING

If you encounter difficulty moving the plant caddy, consider the following:

- **Casters Locked:** Ensure both locking casters are fully disengaged.
- **Obstructions:** Check the wheels for any debris (e.g., small stones, dirt, plant matter) that might be impeding movement.
- **Uneven Surface:** The caddy performs best on flat, hard surfaces. Movement may be more challenging on uneven ground, thick carpet, or soft soil.
- **Overload:** Verify that the weight of your potted plant does not exceed the caddy's maximum load capacity of 226.8 kg (500 lbs).

SPECIFICATIONS

Feature	Detail
Model Number	S20450
Brand	Bosmere
Color	Light Gray
Material	Plastic, Nylon, Alloy Steel
Shape	Round (Star-shaped base)

Feature	Detail
